Morrison, William G. Shade, Robert
Johnston, Robert Zieger, Thomas
Langston, Richard Valelly**

End Of Reform New Deal Liberalism In Recession And War:

The End Of Reform Alan Brinkley, 1996-01-30 At a time when liberalism is in disarray this vastly illuminating book locates the origins of its crisis Those origins says Alan Brinkley are paradoxically situated during the second term of Franklin Delano Roosevelt whose New Deal had made liberalism a fixture of American politics and society The End of Reform shows how the liberalism of the early New Deal which set out to repair and if necessary restructure America s economy gave way to its contemporary counterpart which is less hostile to corporate capitalism and more solicitous of individual rights Clearly and dramatically Brinkley identifies the personalities and events responsible for this transformation while pointing to the broader trends in American society that made the politics of reform increasingly popular It is both a major reinterpretation of the New Deal and a crucial map of the road to today s political landscape

Us Vs. Them Robert J. Bresler, 2000 Culture Politics Thick impenetrable tension Post 1945 America Professor Robert Bresler broaches these interwoven themes in Us vs Them American Political and Cultural Conflict from WWII to Watergate a reader in the American Visions series Offering a broad overview of the interrelationship of culture and politics in the second half of the twentieth century Us vs Them is an exploration of the historical roots of America s current cultural wars In the extended essay that constitutes the first half of the book Professor Bresler offers a seamless introduction to the intermingling of American politics and culture from the rise of an American consensus in the immediate postwar period to its inevitable decline in the 1960s and early 1970s Part II consists of documents and readings that illustrate and buttress Bresler s argument including political manifestos and excerpts from the works of major essayists such as Arthur Schlesinger Jr Mary McCarthy and Norman Podhoretz Lending a flavor of contemporary debate this documentary material allows an integrative approach to politics and culture Valuable for instructors who want to blend political ideas and cultural controversy into their American studies American history or political science courses Us vs Them gives students a key to understanding contemporary cultural politics This important compilation is a guide to post 1945 America that places the evolution of political institutions the presidency Congress the courts within a broad cultural context

A World at Total War Roger Chickering, Stig Förster, Bernd Greiner, German Historical Institute (Washington, D.C.), 2005 This volume presents the results of a conference on the history of total war

Britain and America Open University, 1997-01-01 Britain and the United States share a common language a liberal and cultural heritage and a democratic political system They also have pronounced differences for their economic political and social structures have developed in distinctive ways This book compares and contrasts the historical course of the two countries and explores the significance of their similarities and differences over a period of two centuries The book offers wide ranging and up to date analyses of such issues as industrialization and urbanization democracy and politics class and gender and citizenship and welfare With contributions from leading scholars in both

countries it will be an invaluable resource for classrooms and seminar study appealing to students of both history and social science Some of the essays are classic expositions of debates that resonate on both sides of the Atlantic Others are exemplary pieces that signal new agendas for research Contributors Anthony Badger Mark Clapson J C D Clark Clive Emsley Mary K Geiter H J Habakkuk Jeffrey Haydu Ira Katznelson Leon S Marshall David Morgan Ann Shola Orloff Gretchen Ritter S B Saul Theda Skocpol W A Speck and David Ward

Calculating Property Relations Robert D. Lewis, 2016 Combining theories of calculation and property relations and using an array of archival sources this book focuses on the building and decommissioning of state owned defense factories in World War II era Chicago Robert Lewis's rich trove of material drawn from research on more than six hundred federally funded wartime industrial sites in metropolitan Chicago supports three major conclusions First the relationship of the key institutions of the military industrial complex was refashioned by their calculative actions on industrial property The imperatives of war forced the federal state and the military to become involved in industrial matters in an entirely new manner Second federal and military investment in defense factories had an enormous effect on the industrial geography of metropolitan Chicago The channeling of huge lumps of industrial capital into sprawling plants on the urban fringe had a decisive impact on the metropolitan geographies of manufacturing Third the success of industrial mobilization was made possible through the multi scale relations of national and locational interaction National policy could only be realized by the placing of these relations at the local level Throughout Lewis shows how the interests of developers factory engineers corporate executives politicians unions and the working class were intimately bound up with industrial space Offering a local perspective on a city permanently shaped by national events this book provides a richer understanding of the dynamics of wartime mobilization the calculative actions of political and business leaders the social relations of property the working of state industry relations and the making of industrial space

Silent Film and the Triumph of the American Myth Paula Marantz Cohen, 2001-05-03 *Silent Film and the Triumph of the American Myth* is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew on elements developed in popular forms of representation like photography landscape panoramas and vaudeville performance to create a medium that more accurately represented the American experience

Contesting Democracy Byron E. Shafer, Anthony J. Badger, 2001 Leading scholars provide a comprehensive history of two centuries of U S politics Contributions from a who's who of political historians

The Routledge History of Twentieth-Century United States Jerald Podair, Darren Dochuk, 2018-05-02 *The Routledge History of the Twentieth Century United States* is a comprehensive introduction to the most important trends and developments in the study of modern United States history Driven by interdisciplinary scholarship the thirty four original chapters underscore the vast range of identities perspectives and tensions that contributed to the

growth and contested meanings of the United States in the twentieth century The chronological and topical breadth of the collection highlights critical political and economic developments of the century while also drawing attention to relatively recent areas of research including borderlands technology and disability studies Dynamic and flexible in its possible applications The Routledge History of the Twentieth Century United States offers an exciting new resource for the study of modern American history

Warfare State James T. Sparrow, 2011-08-04 Warfare State shows how the federal government in the course of World War II vastly expanded its influence over American society Equally important it looks at how and why Americans adapted to this expansion of authority Through mass participation in military service war work rationing income taxation and ownership of the national debt in the form of war bonds ordinary Americans learned to live with the warfare state They accepted these new obligations because the government encouraged all citizens to think of themselves as personally connected to the battle front

Contracting Freedom Maria L. Quintana, 2022-05-10 Contracting Freedom is the first relational study of the origins of twentieth century U S guestworker programs from Mexico and the Caribbean It investigates these government sponsored programs as the unexplored consequence of enslaved labor Japanese American incarceration the New Deal the long civil rights movement and Caribbean decolonization In the World War II era U S lawmakers and activists alike celebrated guestworker agreements with Mexico and the Caribbean as hallmarks of anti imperialism and worker freedom A New Deal based conception of racial liberalism inspired many of these government officials and labor advocates to demand a turn toward state sponsored labor contracts across the hemisphere to protect migrant workers welfare and treatment in the postwar world Their view of liberalism emphasized the value of formal labor contracts bilateral agreements between nation states state power and equal rights all of which they described as advances beyond older labor arrangements forged under colonialism and slavery Eighty years later their conceptions of guestworker programs continue to shape political understandings of the immigration debate as these programs are often considered a solution to offset the deportation regime and as a response to increasingly rigid racist measures to close U S borders to migrants Maria Quintana s compelling history shifts the focus on guestworker programs to the arena of political conflict revealing how fierce debates over the bracero program and Caribbean contract labor programs extended and legitimated U S racial and imperial domination into the present era It also unearths contract workers emerging visions of social justice that challenged this reproduction of race and empire giving freedom new meanings that must be contemplated

Encyclopedia of U.S. Political History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the

political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877

VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era

VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt s presidency

the Supreme Court's conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946-1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977-1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9/11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered [Contesting the Postwar City](#) Eric Fure-Slocum, 2013-06-28 Focusing on midcentury Milwaukee Eric Fure Slocum charts the remaking of political culture in the industrial city Professor Fure Slocum shows how two contending visions of the 1940s city working class politics and growth politics fit together uneasily and were transformed amid a series of social and policy clashes Contests that pitted the principles of democratic access and distribution against efficiency and productivity included the hard fought politics of housing and redevelopment controversies over petty gambling questions about the role of organized labor in urban life and battles over municipal fiscal policy and autonomy These episodes occurred during a time of rapid change in the city's working class as African American workers arrived to seek jobs women temporarily advanced in workplaces and labor unions grew At the same time businesses and property owners sought to reestablish legitimacy in the changing landscape This study examines these local conflicts showing how they forged the postwar city and laid a foundation for the neoliberal city

Making Sense of American Liberalism Jonathan Bell, Timothy Stanley, 2012-04-15 This collection of thoughtful and timely essays offers refreshing and intelligent new perspectives on postwar American liberalism Sophisticated yet accessible Making Sense of American Liberalism challenges popular myths about liberalism in the United States The volume presents the Democratic Party and liberal reform efforts such as civil rights feminism labor and environmentalism as a more united more radical force than has been depicted in scholarship and the media emphasizing the decline and disunity of the left Distinguished contributors assess the problems liberals have confronted in the twentieth century examine their strategies for reform and chart the successes and potential for future liberal reform Contributors are Anthony J Badger Jonathan Bell Elizabeth Cohen Susan Hartmann Ella Howard Bruce Miroff Nelson Lichtenstein Doug Rossinow Timothy Stanley and

Timothy Thurber **Realigners** Timothy Shenk, 2022-10-18 One of The Wall Street Journal's best political books of 2022 An eye opening new history of American political conflict from Alexander Hamilton to Alexandria Ocasio Cortez These days it seems that nobody is satisfied with American democracy Critics across the ideological spectrum warn that the country is heading toward catastrophe but also complain that nothing seems to change At the same time many have begun to wonder if the gulf between elites and ordinary people has turned democracy itself into a myth The urges to defend the country's foundations and to dismantle them coexist often within the same people How did we get here Why does it feel like the country is both grinding to a halt and falling to pieces In *Realigners* the historian Timothy Shenk offers an eye opening new biography of the American political tradition In a history that runs from the drafting of the Constitution to the storming of the Capitol Shenk offers sharp pen portraits of signal characters from James Madison and Charles Sumner to Phyllis Schlafly and Barack Obama The result is an entertaining and provocative reassessment of the people who built the electoral coalitions that defined American democracy and a guide for a time when figures ranging from Alexandria Ocasio Cortez to MAGA minded nationalists seek to turn radical dreams into political realities In an era when it seems democracy is caught in perpetual crisis *Realigners* looks at earlier moments in which popular majorities transformed American life We've had those moments before And if there's an escape from the doom loop that American politics has become it's because we might have one again Why We Fight Nancy Beck Young, 2013-04-05 History tells us that World War II united Americans but as in other conflicts it was soon back to politics as usual Nancy Beck Young argues that the illusion of cooperative congressional behavior actually masked internecine party warfare over the New Deal Young takes a close look at Congress during the most consensual war in American history to show how its members fought intense battles over issues ranging from economic regulation to social policies Her book highlights the extent of and reasons for liberal successes and failures while challenging assumptions that conservatives had gained control of legislative politics by the early 1940s It focuses on the role of moderates in modern American politics arguing that they not conservatives determined the outcomes in key policy debates and also established the methods for liberal reform that would dominate national politics until the early 1970s *Why We Fight* which refers as much to the conflicts between lawmakers as to war propaganda films of Frank Capra unravels the tangle of congressional politics governance and policy formation in what was the defining decade of the twentieth century It demonstrates the fragility of wartime liberalism the nuances of partisanship and the reasons for a bifurcated record on economic and social justice policy revealing difficulties in passing necessary wartime measures while exposing racial conservatism too powerful for the moderate liberal coalition to overcome Young shows that scaling back on certain domestic reforms was an essential compromise liberals and moderates made in order to institutionalize the New Deal economic order Some programs were rejected including the Civilian Conservation Corps the National Youth Administration and the Works Progress Administration while others like the Wagner Act and economic regulation were institutionalized But on other issues

such as refugee policy racial discrimination and hunting communist spies the discord proved insurmountable This wartime political dynamic established the dominant patterns for national politics through the remainder of the century Impeccably researched Young s study shows that we cannot fully appreciate the nuances of American politics after World War II without careful explication of how the legislative branch redefined the New Deal in the decade following its creation **The Cost of**

Living in America, 1800-1980 John A. Garraty,1981 Prices constantly move up and down in response to changes in the supply of and demand for goods But they are also affected by the amount of money and credit that consumers can command

Arsenal of World War II Paul A. C. Koistinen,2004 Prolific munitions production keyed America s triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen s fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe *Wartime America* John W. Jeffries,2018-03-08 Designed to give students a concise compass to probe the history of World War II America and to assess the war s impact on American life the new edition of *Wartime America* retains the framework of the original edition but adds new important focus on topics such as

other home fronts the lives of veterans expanded coverage of World War II as the Good War and the concept of the Greatest Generation Jeffries paints a picture of a people emerging from the Great Depression and eager for a better life yet often reluctant to abandon the touchstones of their past Combining both an original interpretation and synthesis of recent scholarship Wartime America offers students a concise exploration of the war s transformative role in American life A
Stone of Hope David L. Chappell,2005-08-01 The author of *Inside Agitators* White Southerners in the Civil Rights Movement revisits this monumental period in American history revealing the power of religious fervor as a force of change that managed to succeed where liberal rationalism could not Reprint
