## **End Of The East German Economy From Honecker To Reunification:**

The End of the East German Economy Phillip J. Bryson, Manfred Melzer, 2014-01-14 This economic history of the Honecker era investigates the causes and effects of the regime's refusal to be a part of East European economic reform. The legacies of central planning had important implications for the reform prospects of the post Honecker economy. The authors examine the factors which ultimately caused the East German people to choose the path of economic merger with West Germany in this first single publication covering the broad scope of the economic decline of East German socialism.

German Unification and the Union of Europe Jeffrey J. Anderson, 1999-06-10 This book explores the effects of Germany's unification in 1990 on its policies toward the European Union.

**Comparative Economics in a Transforming World Economy** John Barkley Rosser, 2004 The second edition of an innovative undergraduate textbook in Comparative Economic Systems that goes beyond the traditional dichotomies.

**The Economy of East Central Europe, 1815-1989** David Turnock, 2004-03 From an expert in the field this major survey includes new research and recent changes in the region and reviewing two centuries of modernization examines the history of Eastern European economies within a wider political and ideological context.

*German Unification* M. Donald Hancock, 2019-03-11 The East European revolutions of 1989 led to momentous changes throughout the region. Nowhere were they felt more dramatically than in Germany where unification unexpectedly became reality unfolding with breathtaking speed unhindered by major obstacles. However joy over the fall of the Berlin Wall and the opening of the borders was soon dampened.

**The Plans That Failed** André Steiner, 2013-08-01 The establishment of the Communist social model in one part of Germany was a result of international postwar developments of the Cold War waged by East and West and of the resultant partition of Germany. As the author argues the GDR's new society was deliberately conceived as a counter model to the liberal and market-regulated system. Although the hopes connected with this alternative system turned out to be misplaced and the planned economy may be thoroughly discredited today it is important to understand the context in which it developed and failed. This study a bestseller in its German version offers an in depth exploration of the GDR economy's starting conditions and the obstacles to growth it confronted during the consolidation phase. These factors however were not decisive in the GDR's lack of growth compared to that of the Federal Republic. As this study convincingly shows it was the economic model that led to failure.

**Comparative Economics in a Transforming World Economy, third edition** J. Barkley Rosser, Jr., Marina V. Rosser, 2018-01-26 An approach to comparative economic systems that avoids simple dichotomies to examine a wide variety of institutional and systemic arrangements with updated country case studies. Comparative economics with its traditional dichotomies of socialism versus capitalism private versus state and planning versus market is changing. This innovative textbook offers a new approach to understanding different economic systems that reflects both recent transformations in the world economy and recent changes in the field. This new edition examines a wide variety of institutional and systemic arrangements many of which

reflect deep roots in countries cultures and histories The book has been updated and revised throughout with new material in both the historical overview and the country case studies It offers a broad survey of economic systems then looks separately at market capitalism Marxism and socialism and new traditional economies with an emphasis on the role of religions Islam in particular in economic systems It presents case studies of advanced capitalist nations including the United States Japan Sweden and Germany alternative paths in the transition from socialist to market economies taken by such countries as Russia the former Soviet republics Poland China and the two Koreas and developing countries including India Iran South Africa Mexico and Brazil The new chapters on Brazil and South Africa complete the book s coverage of all five BRICS nations the chapter on South Africa extends the book s comparative treatment to another continent The chapter on Brazil with its account of the role of the Amazon rain forest as a great carbon sink expands the coverage of global environmental and sustainability issues Each chapter ends with discussion questions

*Eastern Europe Since 1970* Bulent Gokay,2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region

*Economies in Transition* Ian Jeffries,2013-05-13 This volume provides an in depth review of major economic developments in those economies which are in some stage of transition following the collapse of communism in the Eastern block The book is divided into four parts theoretical issues in the transition from command to market economies the events in the fifteen independent countries of the former Soviet Union Eastern Europe non European states In all the author chronicles events from 1993 to 1995 in thirty five countries Economic developments are set in their political context and presented chronologically as far as possible A Guide to the Economies in Transition carries on where Ian Jeffries previous book left off The work is entirely new and as such can be seen as a companion to the earlier title These books are becoming known as invaluable guides providing unique levels of reference in work of this type

*The Currency of Socialism* Jonathan R. Zatlin,2007-03-05 This book explores the East German attempt to create a perfect society by eliminating money and explains the reasons for its failure

*United Germany* Konrad H. Jarausch,2013-07-01 Since the attempt to unite two parts of a country divided for four decades yielded contradictory results this volume provides a balance sheet of the successes and failures of German unification during the first quarter century after the fall of the Wall Five themes ranging from the transfer of political institutions to the economic crisis

from the social upheaval for women's movements to the cultural efforts at interpretation and the changes in foreign policy have been chosen to illustrate the complexity of the process. The contributors represent a broad interdisciplinary mix of political scientists, historians, and literary scholars. Because personal experiences tend to color scholarly judgments, they are drawn from West Germany, East Germany, and the United States. This collection is the most up-to-date and comprehensive assessment of the political, social, and intellectual consequences of the efforts to regain German unity.

**Contemporary Germany** Mark Allinson, Jeremy Leaman, Stuart Parkes, Barbara Tolkiehn, 2014-07-30. Designed for combined Language and Social Science 2nd and 3rd year courses on Germany, found in departments of German Politics, Modern Language, and European Studies. This book charts the post-war development of Germany, East-West, through to reunification and Germany's evolving role in world politics and economics. It combines a concise yet comprehensive introduction in English to contemporary German politics, society, economics, with extensive authentic extracts from German language publications backed up with specially developed language exercises.

**International Bibliography of Economics** British Library of Political and Economic Science, 1993. IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.

**Modern Germany** Wendell G. Johnson, Katharina Barbe, 2022-03-29. This thematic encyclopedia presents a broad overview of contemporary Germany, spanning such topics as geography, pop culture, the media, and gender roles. Themes in the book cover geography, history, politics, and government, economy, religion, and thought, social classes, and ethnicity, gender, marriage, and sexuality, education, language, etiquette, literature, and drama, art and architecture, music, and dance, food, leisure, and sports, and media and pop culture. Within each theme, short topical entries cover a wide array of key concepts and ideas, from LGBTQ issues in Germany to linguistic dialects to the famous Oktoberfest.

**Eastern Europe, 1986-1993** Robert H. Burger, Helen F. Sullivan, 1995-12-15. Describing approximately 1,000 books published between 1986 and late 1993, this work provides readers with a selective guide to English language publications on the subject of Eastern Europe. It covers general studies of the area as well as works on the individual countries of Albania, Bulgaria, the former Czechoslovakia, the former German Democratic Republic, East Germany, Hungary, Poland, Romania, and the former Yugoslavia. In addition to bibliographic and descriptive information, the authors also include citations to book reviews. A companion to their *Russia and the Former Soviet Union Libraries Unlimited* 1994, this volume also focuses on the social sciences and the humanities. As interest about this part of the world continues to build, and English language publications about it proliferate, Burger and Sullivan's guide is a pertinent addition to academic and public library collections.

**The Georgia Journal of International and Comparative Law**, 2005.

**German Unification and the International Economy** Bernhard Heitger, Leonard Waverman, 2005-06-23. First published in 1993, Routledge is an imprint of Taylor & Francis, an informal company.

**The Reluctant Retreat** Phillip J. Bryson, 1995. The economic decline of President Gorbachev in the Soviet Union and General

Secretary Erich Honecker in East Germany is discussed and the final chapters review the problems of transforming these planning systems to market economies      **The American Bibliography of Slavic and East European Studies** ,1991

**Mastering Twentieth-Century Russian History** Norman Lowe,2020-08-29 Mastering Twentieth Century Russian History presents a vivid and informative account of the events which befell the Russian people during the course of the twentieth century Explores the major developments of the last century from the revolution of 1905 to the First and Second World Wars to the Cold War and the rise and fall of the USSR Examines key figures and their actions from Nicholas II Lenin Trotsky Stalin Khrushchev Brezhnev Gorbachev and Yeltsin to Putin Deals with events right up to 2000 enabling the Soviet experiment to be placed in context a decade after its collapse Incorporates the latest research from British American and Russian historians examining key controversies and debates Includes primary source material maps photographs posters and a full chronology of events This text is the ideal companion for anyone seeking a clear yet detailed introduction to the fascinating events of twentieth century Russian history
