in the Shetland Islands has caused more than a stir in the quiet fishing hamlet of Whales Reef How is life ever to be the same with an outsider and a woman at that playing such a pivotal role in the life of this conservative community But it isn't just the locals who have deep misgivings about the current situation Loni herself never imagined this in her wildest dreams What Loni is more sure of however is that she is falling in love with Whales Reef with its hardy people with its simple peaceful way of life and with local chieftain David Tulloch whose inheritance she has usurped at least in the eyes of some But life in Whales Reef is not without drama Deep rifts exist between certain lifelong residents and when one local resident turns up dead suspicion is cast in the direction of the island's most prominent family How Loni and David deal with this challenge will go a long way in determining their future and that of the quaint island community *The Eat This, Not That! in his own right and what starts as something sweet and undefined soon becomes a magnet for rumor and speculation as if first love wasn't messy enough on its own. The pressure of the spotlight takes its toll, chipping away at Kia's sense of self, pushing and pulling and reshaping her body and mind to fit the expectations of everyone around her. But what does Kia want for herself? And can her fragile new relationship survive the fallout?

Hunting Bears Kathy Etling, 2013-07-01

For most hunters in North America, taking a bear is incidental to hunting deer. For others, however, challenging a big bruin on its own turf is the purpose of their hunt and may become an obsession. Whether it involves hunting the wary black bear in Maine over bait, chasing a clever black bear trying to avoid a pack of hounds in the Rocky Mountains, sneaking up with a bow on a huge grizzly, placing the crosshairs on a massive brown bear as it exits an ice-cold Alaskan stream, or enduring bitterly cold temperatures and inhospitable hunting conditions while hunting the great white polar bear, bear hunting is an adventure only for those of strong heart and mind. In *Hunting Bears*, Etling covers all aspects of bear hunting and all species of bears to hunt: black, grizzly, brown, and polar. She omits no tactic, strategy, or bear behavior and includes interviews with many of the nation's most successful bear hunters, as well. Between the covers of this book is information that most bear hunters would take a lifetime to amass. If hunting any of the bears found in North America or the world is your dream, you'll want to add *Hunting Bears* to your outdoor library. It will provide you hours of first-rate reading and will inspire you to bag your trophy bruin.
