**The End of the Soul** Jennifer Hecht,2005-12-20 On October 19 1876 a group of leading French citizens both men and women included joined together to form an unusual group The Society of Mutual Autopsy with the aim of proving that souls do not exist The idea was that after death they would dissect one another and hopefully show a direct relationship between brain shapes and sizes and the character abilities and intelligence of individuals This strange scientific pact and indeed what we have come to think of as anthropology which the group s members helped to develop had its genesis in aggressive evangelical atheism With this group as its focus The End of

the Soul is a study of science and atheism in France in late nineteenth and early twentieth centuries It shows that anthropology grew in the context of an impassioned struggle between the forces of tradition especially the Catholic faith and those of a more freethinking modernism and moreover that it became for many a secular religion Among the adherents of this new faith discussed here are the novelist Emile Zola the great statesman Leon Gambetta the American birth control advocate Margaret Sanger and Arthur Conan Doyle whose Sherlock Holmes embodied the triumph of ratiocination over credulity Boldly argued full of colorful characters and often bizarre battles over science and faith this book represents a major contribution to the history of science and European intellectual history Paid For: My Journey Through Prostitution

Rachel Moran,2015-09-08 An astonishingly brave memoir of prostitution and its lingering influence on a woman s psyche and life The best work by anyone on prostitution ever Rachel Moran s Paid For fuses the memoirist s lived poignancy with the philosopher s conceptual sophistication The result is riveting compelling incontestable Impossible to put down This book provides all anyone needs to know about the reality of prostitution in moving insightful prose that engages and disposes of every argument ever raised in its favor Catharine A MacKinnon law professor University of Michigan and Harvard University Born into a troubled family Rachel Moran left home at the age of fourteen Being homeless she was driven into prostitution to survive With intelligence and empathy she describes the exploitation she and others endured on the streets and in the brothels Moran also speaks to the psychological damage inherent to prostitution and the inevitable estrangement from one s body At twenty two Moran escaped the sex trade She has since become a writer and an abolitionist activist **Economic**

**Reform and a Liberal Culture** Tom Rubens,2015-10-28 This second collection of essays for the Societas series by Tom Rubens continues the author s discussion of contemporary issues contained in Progressive Secular Society Imprint Academic 2008 The present book is divided into three main sections The first deals with social economic and cultural issues the second with topics which are essentially philosophical and the third with themes which are chiefly literary Throughout the viewpoint expressed is that of secular humanism **Translations from Kommunist** ,1967 *Life among the Powers* Rick

Elgendy,2024-11-14 Many Christians have come to see that they live in a world marked by structural problems legacies of racial injustice climate change constraining forms of gender and sexuality to name just a few A faithful response to these problems calls for ethical and political witness and theologians have used the New Testament language describing the principalities and powers to provide just that a picture of faith in which Christ redeems humanity from structures of power This tradition though sometimes offers the hope of an outside ways of living in which we can be no longer complicit with the powers This book pushes this conversation further seeking a theological understanding and the spirituality that lives within it of how we are implicated in such structures what we are called to do to resist their harms and who we might still become Along the way it reads together unlikely fellow travelers Karl Barth and Michel Foucault to argue that while our complicity with the powers is inescapable we can still live meaningfully different movingly faithful lives that challenge the forms of the

Anthony Bruno, 2025-02-04

Facticity and the Fate of Reason After Kant is the first history of the concept of facticity G Anthony Bruno argues that this concept s coining transmission and repurposing by post Kantian

thinkers leaves a lasting divide concerning the question of whether a science of intelligibility can tolerate brute facts In the phenomenological tradition facticity denotes undeducibly brute conditions of intelligibility such as sociality mortality and temporality This suggests an affirmative answer to the post Kantian question However the term's original use in the German idealist tradition is associated with a negative answer a science of intelligibility must eliminate bruteness in order to be systematic as Fichte says or presuppositionless as Hegel says Moreover eliminating bruteness requires a new logic for deducing conditions of intelligibility from reason's self contradictions a dialectical logic that Fichte invents and Hegel develops In response to the German idealists Heidegger argues that dialectic ineluctably presupposes brute facts of lived experience whose interpretation requires a hermeneutics of facticity The untold history of the concept of facticity thus contains the deepest parting of the ways after Kant one in which reason is fated to transform from the hand that holds the world to the thrown activity of being in the world Facticity and the Fate of Reason After Kant explores this transformation while confronting our inheritance of the still pressing post Kantian question
