S. Wiley, 2002-01-18 When it comes to obesity diabetes heart disease cancer and depression everything you believe is a lie With research gleaned from the National Institutes of Health T S Wiley and Bent Formby deliver staggering findings Americans really are sick from being tired Diabetes heart disease cancer and depression are rising in our population We're literally dying for a good night's sleep Our lifestyle wasn't always this way It began with the invention of the lightbulb When we don't get enough sleep in sync with seasonal light exposure we fundamentally alter a balance of nature that has been programmed into our physiology since day one This delicate biological rhythm rules the hormones and neurotransmitters that determine appetite fertility and mental and physical health When we rely on artificial light to extend our day until 11 p.m. midnight and beyond we fool our bodies into living in a perpetual state of summer Anticipating the scarce food supply and forced inactivity of winter our bodies begin storing fat and slowing metabolism to sustain us through the months of hibernation and hunger that never arrive Our own survival instinct honed over millennia is now killing us Wiley and Formby also reveal That studies from our own government

research prove the role of sleeplessness in diabetes heart disease cancer infertility mental illness and premature aging Why the carbohydrate rich diets recommended by many health professionals are not only ridiculously ineffective but deadly Why the lifesaving information that can turn things around is one of the best kept secrets of our day Lights Out is one wake up call none of us can afford to miss

**A Wistful Wandering** Rohit Khare, 2015-11-16 What you every day see quite often appears bland and devoid of any significant meaning unless viewed from an entirely fresh perspective And the author with all lucidity has a talent of doing exactly that Simple elements may it be the sunshine wind lakes trees the common happenings in our gardens the faces we see the monotony of a regular job the change of seasons or the common insipid occurrences such as the visit of a dragonfly the falling of a tree or coming across a lifeless bird are all turned on their heads and very artistically presented to the reader thereby inspiring a fresh contemplation of the seemingly mundane The author weaves in in between his short essays the fanciful follies of the human mind and in doing so draws on artful humour and boundless imagination to hold the close interest of the reader The work in its brevity much in the way of gentle speed breakers persists to slow down our frantic pace along the superhighways of our lives Highly recommended as an antidote to a hurried life
