## **Ends Of Globalization:**

The Ends of Globalization Don Kalb, 2000 This book brings an empirical social science perspective to a public issue on which observers economists and business gurus have freely unleashed their abstract models and jumbo schemes Written by internationally acclaimed authors the chapters engage empirically tractable issues that are basic to any overall understanding of the social origins structures and consequences of the current wave of globalization The book brings together in one volume diverse issues related to globalization that are generally dealt with in separate publications such as migration social inequality flows of capital Americanization and cultural identities citizenship and collective action and global governance The diversity of topics and up to date discussion makes this book ideal as a text or supplementary reading for courses As an argument for greater complexity contingency and contradiction in contemporary debates on globalization it is essential reading for any scholar or lay reader concerned about contemporary change

### **The Ends of Globalization**

Mohammed A. Bamyeh, 2000 An intervention into current debates about globalization nationalism imperialism and culture this book offers a cogent critique of much of what is being said about globalization by both the Right and the Left In doing so it charts the complex processes of globalization drawing out their historical and philosophical roots and outlining the connections between cultural political and economic life that globalization has made historically and in our day

The Last Economic Superpower: The Retreat of Globalization, the End of American Dominance, and What We Can Do About It Joseph P. Quinlan, 2010-11-19 The Risks and Rewards for the West in the Coming Multipolar World A marked shift has occurred in the tone and assumptions surrounding our national fortune Nowhere is this better seen than in the second generation of books dealing with America's financial crisis particularly Joseph P Quinlan's *The Last Economic Superpower* New York Journal of Books The global economy designed by Western powers with the United States as lead architect is in the process of reconfiguration The 2008 global financial crisis has terminated America's reign as sole economic superpower and opened up important new spheres of influence to developing nations Does this signal the retreat of globalization as we know it Has an economic cold war already begun Will the West ever exert the kind of control and influence it enjoyed just a few short years ago In *The Last Economic Superpower* Joseph P Quinlan a Wall Street veteran and expert on global economic affairs addresses these questions and many others Presenting his vision with refreshing clarity and objectivity Quinlan examines How America went from being a major creditor to the world's largest debtor nation in only two decades Five critical issues America must face in order to prevent permanent fragmentation of the global economy What the fading appeal of Europe and Japan means for the future of globalization What China India and others have that the West doesn't and why this gives them unprecedented leverage Decisions made now will shape the course of history *The Last Economic Superpower* outlines critical choices that must be made in order to recast reinvent and reenergize a new style of globalization *The Last Economic Superpower* lays bare the issues and challenges that will decide whether the world builds a new functional system that

serves all or fragments into separate spheres of influence which benefits no one      **Globalization** Prof. Manfred B. Steger, 2023-12-04 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more Since the end of the Cold War globalization the process and the idea has been reshaping the world Global studies scholarship has emerged to make sense of the transnational manifestations of globalization economic social cultural ideological technological environmental and postcolonial But a series of crises in the first two decades of the twenty first century has put the neoliberal globalization system of the 1990s under severe strain Are we witnessing a turn toward deglobalization intensified by the COVID 19 pandemic and the war in Ukraine or a moment of reglobalization spearheaded by digital technology The contributors to this book employ transdisciplinary research to assess past developments the current state and future trajectories of globalization in light of today's dynamics of insecurity volatility and geopolitical tensions      **Globalization and English Education in Taiwan** I-Chung Ke, 2021-11-29 Ke's book examines and reflects on English education in Taiwan from a global English perspective starting with a discussion on globalization and global Englishes English education in Taiwan has gone through various major transformations since the intensification of globalization after the 1990s On one hand children start to learn English ever earlier while on the other hand the curriculum and materials in the vocational schools and at the tertiary level become diversified to meet various specific needs of English use Internationalization of education has brought increasing numbers of international students and the roles of English in Taiwan are changing constantly with the dynamic environment from a foreign language to a lingua franca medium of instruction and an international language In his book the author documents the historical development of education and the roles of English in Taiwan before reviewing curriculum reforms and changes in the past half century He then presents teachers and students' perceptions on global Englishes He proposes global Englishes pedagogies and his views on what changes can be made to textbooks learning materials entrance exams translation and the linguistic environment Practical suggestions to English education in Taiwan in the globalizing context serve as a tentative conclusion for the book Offering insights into English education and its relationship with globalization Ke's book will be useful to researchers and students in the fields of global Englishes and English education as well as offering practical pedagogical suggestions for English educators around the world      *Flourishing* Miroslav Volf, Tony Blair, 2016-01-12 More than almost anything else globalization and the great world religions are shaping our lives affecting everything from the public policies of political leaders and the economic decisions of industry bosses and employees to university curricula all the way to the inner longings of our hearts Integral to both globalization and religions are compelling overlapping and sometimes competing visions of what it means to live well In this perceptive deeply personal and beautifully written book a leading theologian sheds light on how religions and globalization have historically interacted and argues for what their relationship ought to be Recounting how these twinned forces have intersected in his own life he shows how world religions despite their malfunctions remain

one of our most potent sources of moral motivation and contain within them profoundly evocative accounts of human flourishing Globalization should be judged by how well it serves us for living out our authentic humanity as envisioned within these traditions Through renewal and reform religions might in turn shape globalization so that can be about more than bread alone

**The End of Globalization** Harold James, 2002-10-15 The process of globalization seems irreversible However James provides a sobering historical perspective exploring the circumstances in which the globally integrated world of an earlier era broke down under the pressure of unexpected events

Re-Globalization Roland Benedikter, Mirjam Gruber, Ingrid Kofler, 2022-04-27 Re Globalization examines the changing face of globalization with political economic and social balances in flux and tensions increasing in many parts of the globe This book discusses and problematizes the current transition phase of globalization in response to issues such as inequalities climate change and health crises offering a comprehensive collection of responses to the question what is re globalization The authors discuss the various definitions and forms of re globalization using a range of approaches examples and case studies in order to shed light on this process The analysis of the phenomenon of re globalization understood as an economic political and social process is both inter and transdisciplinary This volume offers contributions from academic disciplines within the social sciences as well as technology global security global studies health and climate and environmental sciences Overall the book analyzes and illustrates how globalization shifts are interconnected and how they relate to a transition in global society proposing a framework for a series of future scenarios This socio geographically diverse book will be of great interest to students scholars and researchers across a broad spectrum of disciplines exploring the future of globalization

*Globalization, Human Rights and Populism* Adebawale Akande, 2023-06-16 This book offers a comprehensive and multidisciplinary global overview of populism and human rights in the light of globalization It examines why the dominant neo liberal paradigm of the last decades resulted in major economic and social inequalities which resulted in the surge of national populism led by the election success of right wing parties movements and leaders across the world It discusses among other topics the success of Brexit in Britain and the election success of Donald Trump and Marine Le Pen and explains why there is a need for a dialogue on human rights and globalization in this era of populism Further contributions analyze various important topics of the field including cross culturalism globalization human rights challenges and threats diversity curbing global corruption sustainable development populism the decline of free speech the new nationalism internationalization global regime of human rights leadership theory global management competencies gender quality management individualism collectivism and examples of new initiatives in global organizations This makes the book a valuable and useful resource for students researchers and scholars of international relations political science sociology political psychology law diplomatic studies Communication and media studies economics education and management as well as practitioners and policy makers interested in a better understanding of globalization populism and human rights

**The Globalization Paradox** Dani Rodrik, 2011-03-24 For a

century economists have driven forward the cause of globalization in financial institutions labour markets and trade Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous Where are the pressure points What could be done about them Dani Rodrik examines the back story from its seventeenth century origins through the milestones of the gold standard the Bretton Woods Agreement and the Washington Consensus to the present day Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia it is a concept that rests on shaky pillars he contends Its long term sustainability is not a given The heart of Rodrik s argument is a fundamental trilemma that we cannot simultaneously pursue democracy national self determination and economic globalization Give too much power to governments and you have protectionism Give markets too much freedom and you have an unstable world economy with little social and political support from those it is supposed to help Rodrik argues for smart globalization not maximum globalization

The World in Guangzhou Gordon Mathews,,Linessa Dan Lin,Yang Yang,2017-11-16 Only decades ago the population of Guangzhou was almost wholly Chinese Today it is a truly global city a place where people from around the world go to make new lives find themselves or further their careers A large number of these migrants are small scale traders from Africa who deal in Chinese goods often knockoffs or copies of high end branded items to send back to their home countries In The World in Guangzhou Gordon Mathews explores the question of how the city became a center of low end globalization and shows what we can learn from that experience about similar transformations elsewhere in the world Through detailed ethnographic portraits Mathews reveals a world of globalization based on informality reputation and trust rather than on formal contracts How he asks can such informal relationships emerge between two groups Chinese and sub Saharan Africans that don t share a common language culture or religion And what happens when Africans move beyond their status as temporary residents and begin to put down roots and establish families Full of unforgettable characters The World in Guangzhou presents a compelling account of globalization at ground level and offers a look into the future of urban life as transnational connections continue to remake cities around the world

**The End of the American Era** Charles Kupchan, 2007-12-18 Refuting the conventional wisdom that the end of the Cold War cleared the way for an era of peace and prosperity led solely by the United States Charles A Kupchan contends that the next challenge to America's might is fast emerging It comes not from the Islamic world or an ascendant China but from an integrating Europe that is rising as a counterweight to the United States Decades of strategic partnership across the Atlantic are giving way to renewed geopolitical competition The waning of U S primacy will be expedited by America's own ambivalence about remaining the globe's guardian and by the impact of the digital age on the country's politics and its role in the world By deftly mining the lessons of history to cast light on the present and future Kupchan explains how America and the world should prepare for the more complex more unstable road ahead

**The End of Politics** Carl Boggs, 2001-01-01 Readers learn how the effects of free market ideology and corporate power have helped to undermine civic obligation democratic participation and popular decision making at a time when mounting social and ecological crisis demand far reaching and creative political solutions

**BOOK JACKET**

**Embodying Exchange** Juliane Müller, 2024-02-02 Addressing the infrastructural social and legal complexities of a global commodity chain this book uses an ethnographic analysis of the encounter between multinational corporations and popular traders in the Bolivian Andes It offers a situated account of the everyday work of chain un making and practices of translation accommodation and contention It highlights traders collective action understanding of economic concepts and regulatory principles and traces the circulation of goods and money beyond market exchange All in all it aims to comprehend the reproduction of the native trading system amid global connections and to humanize our understanding of the economy by grounding it in everyday life bottom up socio material infrastructures and morality

**The Beginning of the End** Dr. Jimmie L. Chapman, 2016-06-27 The end of the world the end of the present economy is nearer than you think This book discusses several factors that will hasten the end of the age These factors will each have a great influence on the severity of the end times The great tribulation which Jesus warned us about is just ahead and I believe and these factors will greatly hasten its coming Whether we like it or not globalization is changing our world at an alarming speed and we are not going to like what it is fast becoming This book considers many of the issues that are affecting changes in our way of life subtly and hidden from plain view If you are concerned about the direction the world is headed in right now you really should read this book It can be an eye opener if you are open minded

**Globalizations from Below** Theodor Tudoroiu, 2022-09-09 Globalizations from Below uses a

Constructivist International Relations approach that emphasizes the centrality of normative power to analyze and compare the four globalizations from below These are 1 the counter hegemonic globalization represented by the movement of movements of alter globalization transnational social activists who try to put an end to the Neoliberal nature of the Western centered globalization from above 2 the non hegemonic globalization enacted by ant traders that are part of the transnational informal economy 3 the partially similar Chinese centered globalization whose entrepreneurial migrants are strongly influenced and instrumentalized by the Chinese state and 4 the first wave globalization from below that paralleled and outlived the 1870 1914 globalization from above This book identifies their common features and uses them to define the concept of globalization from below as a set of socio economic or socio political processes that involve large transnational flows of people goods and or ideas characterized at least in part by informality They are enacted by entrepreneurial or activist individuals who either take advantage of the normative power of the hegemon at the origin of an international order and an associated globalization from above or explicitly or implicitly transgress contest and try to redefine dominant economic legal political and socio cultural norms thus challenging the existing international order and globalization from above By constructing a unified theoretical framework this book attempts to open a new field of interdisciplinary research that should take globalizations from below out of their current scholarly marginality This is one of the first scholarly works to collectively present more than one globalization from below and will be of great interest to students scholars and researchers of International Relations International Political Economy Development Studies Economic History Anthropology Diaspora Studies and Chinese Studies

**The End of Development** Andrew Brooks, 2017-05-15 Why did some countries grow rich while others remained poor Human history unfolded differently across the globe The world is separated in to places of poverty and prosperity Tracing the long arc of human history from hunter gatherer societies to the early twenty first century in an argument grounded in a deep understanding of geography Andrew Brooks rejects popular explanations for the divergence of nations This accessible and illuminating volume shows how the wealth of the West and poverty of the rest stem not from environmental factors or some unique European cultural social or technological qualities but from the expansion of colonialism and the rise of America Brooks puts the case that international inequality was moulded by capitalist development over the last 500 years After the Second World War international aid projects failed to close the gap between developed and developing nations and millions remain impoverished Rather than address the root causes of inequality overseas development assistance exacerbate the problems of an uneven world by imposing crippling debts and destructive neoliberal policies on poor countries But this flawed form of development is now coming to an end as the emerging economies of Asia and Africa begin to assert themselves on the world stage The End of Development provides a compelling account of how human history unfolded differently in varied regions of the world Brooks argues that we must now seize the opportunity afforded by today s changing economic geography to transform attitudes towards inequality and to develop radical new

approaches to addressing global poverty as the alternative is to accept that impoverishment is somehow part of the natural order of things

**Multinational Enterprises and the Law** Peter Muchlinski, 2021-02-18 Multinational Enterprises and the Law is the only comprehensive contemporary and interdisciplinary account of the techniques used to regulate multinational enterprises MNEs at the national regional and multilateral levels In addition it considers the effects of corporate self regulation and the impact of civil society and community groups upon the development of the legal order in this area The book has been thoroughly revised and updated for this third edition making it a definitive reference work for students researchers and practitioners of international economic law business corporate and commercial law development studies and international politics Split into four parts the book first deals with the conceptual basis for MNE regulation It explains the growth of MNEs their business and legal forms and the relationship between them and the effects of a globalized economy and society now increasingly challenged by recently revived nationalist economic policies upon the evolution of regulatory agendas in the field In addition the limits of national and regional jurisdiction over MNE activities are considered a question that arises throughout the specialized areas of regulation covered in the remainder of the book Part II covers the main areas of economic regulation including controls over and the liberalization of entry and establishment tax company and competition law and the impact of intellectual property rights on technology diffusion and transfer A specialized chapter on the regulation of multinational banks in the wake of the global financial crisis is new to this edition Part III introduces the social dimension of MNE regulation covering labour rights human rights and environmental issues Finally Part IV deals with the contribution of international investment law to MNE regulation and to the control of investment risks covering the main provisions found in international investment agreements their interpretation by international tribunals the process of investor state arbitration and how concerns over these developments are leading to reform proposals

Emerging Issues in the Global Economy Silvia Cristina Mărginean, Claudia Ogrean, Ramona Orăștean, 2018-01-11 This proceedings volume provides current research on emerging issues in business economics and finance in the global economy with particular emphasis on Eastern Europe Featuring selected papers from the 2017 International Economics Conference in Sibiu IECS organized by the Lucian Blaga University of Sibiu Romania the contributing chapters consider new business models theories practices and instruments from advanced and emerging economies in the context of recent global trends After over 20 years of increasing openness and liberation of the world economy recent events in regions such as Europe USA and Asia have created challenges to the idea of globalization and integration There is a delay between the real world economic changes and the reflection of such changes in the economic research literature The 2017 IECS conference and the enclosed papers aim to fill this gap in the study of globalization covering diverse topics such as business administration sustainability corporate social responsibility finance accounting tourism and business informatics
