O'Brien, Nancy Shoemaker, Scott Manning Stevens, 2015-04-20 A resource for all who teach and study history this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history The nineteen essays gathered in this collaboratively produced volume written by leading scholars in the field of Native American history reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey Contributors reassess major events themes groups of historical actors and approaches social cultural military and political consistently demonstrating how Native American people and questions of Native American sovereignty have animated all the ways we consider the nation's past The uniqueness of Indigenous history as interwoven more fully in the American story will challenge students to think in new ways about larger themes in U S history such as settlement and colonization economic and political power citizenship and movements for equality and the fundamental question of what it means to be an American Contributors are Chris Andersen Juliana Barr David R M Beck Jacob Betz Paul T Conrad Mikal Brotnov Eckstrom Margaret D Jacobs Adam Jortner Rosalyn R LaPier John J Laukaitis K Tsianina Lomawaima Robert J Miller Mindy J Morgan Andrew Needham Jean M O'Brien Jeffrey Ostler Sarah M S Pearsall James D Rice Phillip H Round Susan Sleeper Smith and Scott Manning Stevens *By Their Creator* Philip J Eveland, 2000-12-29 Why did the Plymouth colonists succeed and the Jamestown colonists fail in those important early years of settlement How did the Framers of the Constitution deal with slavery What was the principle force behind those feelings What drove the debate against slavery in antebellum America To what authority did the civil rights of

the 1950s and 1960s leaders appeal for equality What is the ugly truth pro abortionists don't want us to know Did man really evolve from ape like creatures Is the Earth millions of years old Is the Bible reliable The answers to each of these questions establishes your moral identity defining how you view yourself and others How our nation's governors legislators presidents and judges answer these questions and how it uses these fundamental principles in establishing our laws lays the foundation of our national moral conscience It is that moral conscience that has consistently driven this nation forward in achieving justice and equality Today though that moral conscience is being corrupted by a sinister ideology A principle that is utterly antithetical to the one that has compelled our leaders to the highest moral standards This book looks at that original principle and how it guided our leaders as they steered this nation safely through the rough waters of change It looks also at how that great principle has been undermined leaving us adrift in a turbulent sea of crisis Mostly though it seeks to point us back to that great principle as the source of strength courage and honor character traits sadly missing from many of today's leaders in American politics

The Supreme Court Peter Charles Hoffer, William James Hull Hoffer, N. E. H. Hull, 2018-08-28 For more than two centuries the U S Supreme Court has provided a battleground for nearly every controversial issue in our nation's history Now a veteran team of talented historians including the editors of the acclaimed Landmark Law Cases and American Society series have updated the most readable astute single volume history of this venerated institution with a new chapter on the Roberts Court The Supreme Court chronicles an institution that dramatically evolved from six men meeting in borrowed quarters to the most closely watched tribunal in the world Underscoring the close connection between law and politics the authors highlight essential issues cases and decisions within the context of the times in which the decisions were handed down Deftly combining doctrine and judicial biography with case law they demonstrate how the justices have shaped the law and how the law that the Court makes has shaped our nation with an emphasis on how the Court responded or failed to respond to the plight of the underdog Each

chapter covers the Court's years under a specific Chief Justice focusing on cases that are the most reflective of the way the Court saw the law and the world and that had the most impact on the lives of ordinary Americans. Throughout the authors reveal how in times of war, class strife, or moral revolution the Court sometimes voiced the conscience of the nation and sometimes seemed to lose its moral compass. Their extensive quotes from the Court's opinions and dissents illuminate its inner workings as well as the personalities and beliefs of the justices and the often contentious relationships among them. Fair-minded and sharply insightful, *The Supreme Court* portrays an institution defined by eloquent and pedestrian decisions and by justices ranging from brilliant and wise to slow-witted and expedient. An epic and essential story, it illuminates the Court's role in our lives and its place in our history in a manner as engaging for general readers as it is rigorous for scholars.

Law and Society in the South John W. Wertheimer, 2021-12-14 *Law and Society in the South* reconstructs eight pivotal legal disputes heard in North Carolina courts between the 1830s and the 1970s and examines some of the most controversial issues of southern history including white supremacy and race relations, the teaching of evolution in public schools, and Prohibition. Finally, the book explores the various ways in which law and society interacted in the South during the civil rights era. The voices of racial minorities, some urging integration, others opposing it, grew more audible within the legal system during this time. *Law and Society in the South* divulges the true nature of the courts as the unpredictable venues of intense battles between southerners as they endured dramatic changes in their governing values.

Religious Advocacy and American History Bruce Kuklick, Darryl G. Hart, 1997 *Religious Advocacy and American History* explores the general question of bias and objectivity in higher learning from the perspective of the role of religious convictions in the study of American history.

Teaching American History in a Global Context Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students' understanding of American history. It includes a wide range of materials from scholarly articles and reports to original syllabi and ready-to-use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view. The contributors include well-known American history scholars as well as gifted classroom teachers, and the book's emphasis on immigration, race, and gender points to ways for teachers to integrate international and multicultural education into American history courses. The book also includes a *Views from Abroad* section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants. A comprehensive annotated guide directs teachers to additional print and online resources.

Over the Threshold Christine Daniels, Michael V. Kennedy, 2014-04-08 *Over the Threshold* is the first in-depth work to explore the topic of intimate violence in the American colonies and the early Republic. The essays examine domestic violence in both urban and frontier environments between husbands and wives, parents and children, and masters and slaves. This compelling collection puts commonly held notions about intimate violence under strict historical scrutiny, often producing surprising results.

The U.S. Supreme Court and

Racial Minorities Leslie F. Goldstein, 2017-07-28 The U S Supreme Court and Racial Minorities offers an in depth chronologically arranged look at the record of the U S Supreme Court on racial minorities over the course of its first two centuries It does not pose the anachronistic standard Did the Supreme Court get it right but rather How did the Supreme Court compare to other branches of the federal government at the time Have these Justices prevented against removal from office by discontented voters in contrast to the President and the members of Congress done any better than the elected branches of government at protecting racial minorities in America *Genocide, Ethnonationalism, and the United Nations* Hannibal Travis, 2013-01-17 *Genocide Ethnonationalism and the United Nations* examines a series of related crises in human civilization growing out of conflicts between powerful states or empires and indigenous or stateless peoples This is the first book to attempt to explore the causes of genocide and other mass killing by a detailed exploration of UN archives covering the period spanning from 1945 through 2011 Hannibal Travis argues that large states and empires disproportionately committed or facilitated genocide and other mass killings between 1945 and 2011 His research incorporates data concerning factors linked to the scale of mass killing and recent findings in human rights political science and legal theory Turning to potential solutions he argues that the concept of genocide imagines a future system of global governance under which the nation state itself is made subject to law The United Nations however has deflected the possibility of such a cosmopolitical law It selectively condemns genocide and has established an institutional structure that denies most peoples subjected to genocide of a realistic possibility of global justice lacks a robust international criminal tribunal or UN army and even encourages security cooperation among states that have proven to be destructive of peoples in the past Questions raised include What have been the causes of mass killing during the period since the United Nations Charter entered into force in 1945 How does mass killing spread across international borders and what is the role of resource wealth the arms trade and external interference in this process Have the United Nations or the International Criminal Court faced up to the problem of genocide and other forms of mass killing as is their mandate The Way We Lived Frederick M. Binder, David M. Reimers, 1996 *On Duty* Frances Ward, 2009-04-15 In 1886 Newark City Hospital opened a training school for nurses in New Jersey With the dawn of a new century women began to demand rights that had been denied them and nurses too demanded changes in health care and higher education For the first time *On Duty* offers a highly readable account of the struggle for professional autonomy by New Jersey nurses and reveals how their political and legislative battles mirrored the struggle of women throughout the country to redefine their roles in society **Simulacrum America** Elisabeth Kraus, Carolin Auer, 2000 A collection of articles that analyses the role of the media in America from a deconstructionist viewpoint This collection of original essays is a response to the paradigm shift that has taken place in cultural studies in the wake of postmodernism and poststructuralism Such concepts as truth or reality have been increasingly called into question since the realization that our experience of the real is always mediated through an empire of signs as Roland Barthes put it

After a predominantly optimistic evaluation of the effects of the media in the 1960s by Marshall McLuhan Hans Magnus Enzensberger and others a growing awareness of the total manipulation of society by mass media imagery has emerged The very concept of representation has become problematic witness the influential essay *The Precession of Simulacra* by the French sociologist Jean Baudrillard in which he defines simulation as the generation by models of a real without origin or reality a hyperreal the current boom in realityTV comes to mind In the seventeen years since the publication of Baudrillard's *Simulacra and Simulation* ever more sophisticated technologies based on the computer as the simulacrum machine par excellence have offered us powerful new means of manipulating data and consequently means of manipulating editing and inventing reality The aim of this study is to unmask false representations showing history personal and cultural identity especially gender and racial identities the simulacrum of speed and American reality itself to be constructs Program of the ... Annual Meeting Organization of American Historians. Meeting,1995

The Community of the Weak Hans-Peter Geiser,2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

The Birth of a Jungle Michael Lundblad,2013-01-10 According to the law of the jungle the behavior of wild animals can be equated with natural human instincts not only for competition and reproduction but also for violence and exploitation Drawing on numerous novels and cultural events at the turn of the twentieth century *The Birth of a Jungle* examines how the characteristics and imagery of wild animals were evoked to explore a wide range of human behaviors including homosexuality labor exploitation and the lynching of African Americans Throughout the study Michael Lundblad emphasizes what he terms the discourse of the jungle Darwinist Freudian constructions of the human and the animal that redefined various behaviors in relation to animal instincts With nuanced attentive readings Lundblad reveals how these formulations of the human animal despite reigning critical interpretations were often contested rather than reinforced in Progressive Era texts Henry James's *The Beast in the Jungle* and fiction by Jack London serve as opportunities to examine changing attitudes toward sexuality and queer desire Works like Andrew Carnegie's *The Gospel of Wealth* and Frank Norris's *The Octopus* offer insights into another type of jungle the capitalist marketplace The real life electrocution of a circus elephant at Coney Island

and Upton Sinclair's muckraking classic *The Jungle* inform the subsequent discussion of animalized class warfare. Understandings of race and evolution are explored through the work of William James Edgar Rice Burroughs' *Tarzan of the Apes* and the role of William Jennings Bryan at the Scopes Monkey Trial of 1925. Engagingly written and cogently argued, *The Birth of a Jungle* reveals the significance of animality in relation to the history of sexuality, literary naturalism, and critical race studies while highlighting how the discourse of the jungle remains a disturbing yet powerful presence in today's culture.
