Enemy Mind:

Reading the Enemy's Mind Paul H. Smith, 2005-12-27 An up close and personal look behind the scenes of the government's psychic spy program as only an insider can. A must read. Harold E. Puthoff PhD founder and former director of the CIA initiated Remote Viewing Program. From behind the cloak of US military secrecy comes the story of Star Gate the project that for nearly a quarter of a century trained soldiers and civilian spies in extra sensory perception ESP. Their objective: To search out the secrets of America's cold war enemies using a skill called remote viewing. Paul H. Smith a US Army Major was one of these viewers. With the Star Gate secrets declassified and the program mothballed by the Central Intelligence Agency the story can now be told of the ordinary soldiers drafted onto the battlefield of human consciousness. Using hundreds of interviews with the key players in the Star Gate program and gathering thousands of pages of documents Smith reveals many secrets about how remote viewing works and how it was used against enemy targets. Among these stories are the search for hostages in Lebanon, spying on Soviet directed energy weapons, investigating the bombing of Pan Am Flight 103 over Lockerbie, Scotland, tracking foreign testing of weapons of mass destruction, combating narco trafficking off America's coasts, aiding in the Iranian hostage situation, finding KGB moles in the CIA, pursuing Middle East terrorists and more. This is a story for the believer and the skeptic, a rare look at the innards of a top secret program and an eye opening treatise on the power of the human mind to transcend the limitations of space and time. *Organizing the information of the mind's factory* Ehsan G. Hasemi, 2025-02-07 In this book the human mind is likened to a factory where its raw materials are sounds and images that enter through the ears, eyes and other senses in the form of speech, behavior and creations from the surrounding environment. The final product of this factory is speech produced through the mouth and behavior manifested by the human. The goal and final product of this factory is the production of value which is defined as a good feeling which may come in the form of money, power, fame, character, peace, security, love etc. All the efforts of humans around the world from a newborn in the East of Asia to an elderly person in America from the beginning of creation to forever are driven by two causes: 1 To create a good feeling 2 To avoid feeling bad. In this book using various engineering sciences the issues related to controlling the quality of inputs to the mind's factory, the methods of production within the mind and the quality of the final product of the mind's factory are evaluated and analyzed. Psychological issues and other success and self help concepts discussed in other books are presented from the perspective of this book in simple language for general use. **Mind Manipulation** Dr. Haha Lung, Christopher B. Thompson,2019-08-16 In the spring of 1942 Dorothy Thompson began broadcasting to Germany via shortwave radio in an anti Nazi propaganda campaign commissioned by CBS There was no central coordination of propaganda during that first year of America s involvement in the war radio producers and networks were encouraged to develop their own programs with the advice and consent of the Office of War Information Dorothy thought of her speeches as sermons on the evils of Nazism and the inevitability of German defeat They were addressed in German to a fictional Prussian Junker identified only as Hans Hans was really Helmuth von Moltke a Christian and a pacifist and the leader of the so called Kreisau Circle the foremost think tank of the German resistance In 1944 he would lose his life in the mass executions that followed the plot to assassinate Hitler These weekly speeches broadcast from March 27 until September 4 1942 combined argument history analysis polemic and what her publishers called a few Dorothyish shrieks In his own radio broadcasts Goebbels denounced Dorothy Thompson as the scum of America Dorothy Thompson s friend Ernestine Evans had the idea of publishing the broadcasts as a dollar book In August 1942 Dorothy composed a 150 page essay to introduce the speeches She called it *The Invasion of the German Mind* and poured into it her twenty years of knowledge of the German nation A brilliant textbook of timely propaganda *New York Times* November 29 1942 The Dorothy Thompson whom I have always particularly admired and enjoyed the Dorothy Thompson who does not confuse writing with oratory Writing carefully and exactly she seeks to isolate the quarreling elements that go to make up the mind of the average German individual John Chamberlain *New York Times* November 28 1942 The *Listen Hans* introduction is one of the best if not the very best analysis ever written about the German people written by a non German Carl Zuckmayer *Don't Die a Caterpillar* Lance T. strategy and the sword A wandering samurai and master of strategy he retired to the spiritual asceticism of a cave after a life of duelling and bloody battle to put his secrets down in writing The result was Gorin no sho his classic Five Rings Book P II

Thormod Morrisson examines Gorin no sho and its insights on strategy kenjutsu philosophy and mystical awareness with reference to other works by the master seeking to shed fresh light on Musashi s way of the warrior *Nuclear Minds* Ran Zwigenberg,2023-07-25 How researchers understood the atomic bomb s effects on the human psyche before the recognition of Post Traumatic Stress Disorder In 1945 researchers on a mission to Hiroshima with the United States Strategic Bombing Survey canvassed survivors of the nuclear attack This marked the beginning of global efforts by psychiatrists psychologists and other social scientists to tackle the complex ways in which human minds were affected by the advent of the nuclear age A trans Pacific research network emerged that produced massive amounts of data about the dropping of the bomb and subsequent nuclear tests in and around the Pacific rim Ran Zwigenberg traces these efforts and the ways they were interpreted differently across communities of researchers and victims He explores how the bomb s psychological impact on survivors was understood before we had the concept of post traumatic stress disorder In fact psychological and psychiatric research on Hiroshima and Nagasaki rarely referred to trauma or similar categories Instead institutional and political constraints most notably the psychological sciences entanglement with Cold War science led researchers to concentrate on short term damage and somatic reactions or even in some cases on denial of victims suffering As a result very few doctors tried to ameliorate suffering But Zwigenberg argues it was not only that doctors failed to issue the right diagnosis the victims experiences also did not necessarily conform to our contemporary expectations As he shows the category of trauma should not be used uncritically in a non Western context Consequently this book sets out first to understand the historical cultural and scientific constraints in which researchers and victims were acting and second to explore how suffering was understood in different cultural contexts before PTSD was a category of analysis *The Stars of Liberty* Morsheda Amin,2021-02-16 The book is about me becoming able to figure out the beauty of the source Our creative potential is endless We enjoy our creative process and are willing to use all our will to manifest our dreams But one thing is missing We don t know how to receive the creation where we are included with our creative power To receive creation we want to be aligned with the universe by dissolving the ego and the barriers that lie between us and unconditional love When we are aligned with the universe we are relaxed Our relaxation allows us to catch the creation with wonderment And here we enter the world of fascination enchantment splendor It seems our life is a gift from a higher entity We all are benefited with the gift but we don t know about the endless possibilities of the gift We don t know it because we don t know how to receive the creation in our hearts In my book I described who we are in creation and how we can be intimate with the creation to make us free from the sarcastic world This book is a metaphor It is all about what works for us and what doesn t work for us We literally can liberate ourselves if we are able to harness the management of relationships with God and all living beings surrounding us This is not

a religious book It is all spirituality and how we are already being benefited with spirituality without even knowing it I just tried to make a bridge over the gap of ignorance I realized something and I am asking others to realize the same thing so they can be free as me
