The Enemy Within Dominick Pratico, 2007-03 As a society the Interstellar Web was dying Enormous fortunes were amassed in the face of unspeakable want and avarice thrived as sport With no villains left to fight but each other quarreling factions stood prepared to devour one another at the slightest provocation None of this mattered to Zoeicelli K Galvin Black Ops Commander and ex Marine Exiled to a remote command on The Frontier nobody was looking for him until he was ordered to investigate the disappearance of a fellow Black Ops commander What starts as a routine search and recovery operation rapidly escalates into something more sinister as Galvin suddenly finds himself caught up in a web of deceit and corruption On the very edge of civilization from the coldest of barrens to blistering infernos Galvin is not only forced to confront The Enemy but also The Enemy Within

**Extremist Islam** Kumar Ramakrishna, 2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia

This book studies how victims of human rights violations in Latin America, their families and their advocates work to overcome entrenched impunity and seek legal justice. Their struggles show that legal justice is a multifaceted process the overarching purpose of which is to restore human dignity and prevent further violence. Uncovering, revealing and proving the truth are essential elements of legal justice and are also powerful tools to activate the process. When faced with stubborn impunity at home, victims, families and advocates can carry on their work for legal justice by bringing cases in courts in other countries or in the inter-American human rights system. These extra-territorial courts can jump-start the process of legal justice at home. *Seeking Human Rights Justice in Latin America* examines the political and legal struggle through the lens of the human story at the heart of these cases.

**The Art of Brian Friel** E. Andrews, 2016-07-27. This is a critical study of Friel's entire oeuvre relating Friel's work to the problems of subjectivity, representation, history and the body with a view to offering some placement of Friel in relation to both postmodernism and traditional humanism. Central to this study is Friel's concept of translation whereby he offers us the tension of shaping the new through a translation or reformulation of the old.
