Energy A Crisis In Power:

The Energy Crisis Lawrence Rocks, Richard P. Runyon, 1972 Discusses the power shortage facing America in the next two decades and proposes an energy program designed to safeguard against the exhaustion of natural resources

Poverty of Power Barry Commoner, 2015-02-18 In the last ten years the United States the most powerful and technically advanced society in human history has been confronted by a series of ominous seemingly intractable crises First there was the threat to the environmental survival then there was the apparent shortage of energy and now there is the unexpected decline of the economy These are usually regarded as separate afflictions each to be solved in its own terms environmental degradation by pollution controls the energy crisis by finding new sources of energy and new ways of conserving it the economic crisis by manipulating prices taxes and interest rates But each effort to solve one crisis seems to clash with the solution of the others pollution control reduces energy supplies energy conservation jobs Inevitably proponents of one solution become opponents of the others Policy stagnates and remedial action is paralyzed adding to the confusion and gloom that beset the country So opens Barry Commoner's *The Poverty of Power* the book in which America's great biologist and environmentalist addresses himself to the central question of our day He concludes that what confronts us is not a series of separate crises but a single basic deficit a fault that lies deep in the design of modern society This book is an effort to unearth that fault to trace its relation to the separate crises and to consider what can be done to correct it at its root

The Poverty of Power Barry Commoner, 1976 Examines the problems of environmental pollution energy shortages and economic crisis and discusses possible solutions

Power Politics John Spoehr, 2003 The author asserts that the privatisation of South Australia's electricity supply has been a disaster for the state with households and small businesses facing price hikes of around 25% and the threat of power blackouts How did this mess come about *Congressional Record* United States. Congress, 1971
