Engaging Reader:

Engaging Young Readers Linda Baker, Mariam Jean Dreher, John T. Guthrie, 2000-03-07 This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. From leading literacy researchers and educators, the book illuminates what a child needs to become an engaged reader and presents a set of instructional principles designed to facilitate this goal. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading opportunities to share in a community of learners, instruction that is coherent, motivating and responsive to each child's strengths and weaknesses, school-wide coordination of instruction and continuities between home and school. *Engaging*

Readers Dana A. Robertson, Evelyn Ford-Connors, Susan Dougherty, 2017-03-17 An important goal of teachers is to get all students, especially those in the upper elementary and middle grades who struggle with academic work, engaged in reading. This book examines current research on instructional principles and actions related to engaged reading. It shows how teachers can translate this research into evidence-based actions that promote productive instructional contexts and focus students' purposeful use of literacy in acquiring knowledge. The authors integrate descriptions of principles and actions with concrete examples of classroom instruction and thematic teaching across disciplinary contexts and demonstrate how teachers might mediate students' reading of complex texts. The book provides readers with a vivid picture of the complexities of teaching reading in the upper elementary and middle grades. In particular, the book blends individual principles and practices into a holistic approach to creating productive and engaged learning environments for all upper elementary and middle grade learners.
