Dilemmas and Decision Making in Residential Childcare Abbi Jackson,2025-02-28 The perfect guide for new workers entering residential childcare Adopting a case study approach this book contains a collection of stories of good practice told from the point of view of the residential care worker that help to demonstrate how they deal with dilemmas and make effective decisions in the moment Workers in residential childcare

have to quickly understand the complexity of how young people's early neglect abuse and relational trauma impact their lives. There are also conflicts and relationship challenges in abundance. This collection of stories illustrates good practice told from the point of view of the residential care worker and demonstrates their thinking in action around ethical dilemmas, different courses of action taken and why they made these decisions. This book also talks about how effective communication with other adults in the team can de-escalate risk and how to carry out dynamic risk assessments. The users can apply their knowledge obtained from this book through the use of reflective questions which offers relevant neutral material where workers can take a step back from the emotive situations they are currently working in and reflect on the hypothetical. It is also intended that the scenarios in this book can be used as a springboard for further learning or as scenarios in an interview.

Perverse Spectators Janet Staiger, 2000-07-01 Film and television have never been more prevalent or watched than they are now yet we still have little understanding of how people process and make use of what they see. And though we acknowledge the enormous role the media plays in our culture we have only a vague sense of how it actually influences our attitudes and desires. In *Perverse Spectators* Janet Staiger argues that studying the interpretive methods of spectators within their historical contexts is both possible and necessary to understand the role media plays in culture and in our personal lives. This analytical approach is applied to topics such as depictions of violence, the role of ratings codes, the horror and suspense genre, historical accuracy in film and sexual identities and then demonstrated through works like *JFK*, *The Silence of the Lambs*, *The Texas Chain Saw Massacre*, *Psycho* and *A Clockwork Orange*. Each chapter shows a different approach to reconstructing audience responses to films consistently and ingeniously finding traces of what would otherwise appear to be unrecoverable information. Using vivid examples, charting key concepts and offering useful syntheses of long-standing debates, *Perverse Spectators* constitutes a compelling case for a reconsideration of the assumptions about film reception which underlie contemporary scholarship in media studies. Taking on widely influential theories and scholars, *Perverse Spectators* is certain to spark controversy and help redefine the study of film as it enters the new millennium.

Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy T. Monchinski, 2011-07-23 Students teachers and schools are under attack The assault comes in the guise of accountability and choice cloaking itself in the scientifically proven with an over emphasis of data It combines a vilification of organized labor along with a promotion of the irrational while readily blurring the line between utopia and dystopia The attack abuses education as it disseminates self serving propaganda simultaneously covering up inconvenient truths like the United States government s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror It suppresses solidarity and compassion while it champions a divisive form of selfish individualism Engaged Pedagogy Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior the book explores the non antagonistic dualisms between faith and science reason and emotion it deconstructs social texts ranging from 80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives it explores and champions the democratic potential of dialogue mutuality and authority while challenging left essentialism and identity politics The book also features an interview with Joe Kincheloe a seminal figure in the field of critical pedagogy
