Engendering Flood:

The Engendering Flood William Everson,1990 *Engendering an avant-garde* Leah Modigliani,2018-04-06

Engendering an avant garde is the first book to comprehensively examine the origins of Vancouver photo conceptualism in its regional context between 1968 and 1990 Employing discourse analysis of texts written by and about artists feminist critique and settler colonial theory the book discusses the historical transition from artists creation of defeatured landscapes between 1968 71 to their cinematographic photographs of the late 1970s and the backlash against such work by other artists in the late 1980s It is the first study to provide a structural account for why the group remains all male It accomplishes this by demonstrating that the importation of a European discourse of avant garde activity which assumed masculine social privilege and public activity effectively excluded women artists from membership

Confucianism Paul R. Goldin,2014-12-05 Confucianism presents the history and salient tenets of Confucian thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to rectify this situation It guides readers through the philosophies of the three major classical Confucians Confucius 551 479 BCE Mencius 372 289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today

Engendering Violence in Papua New Guinea Margaret Jolly,Christine Stewart,Carolyn Brewer,2012-07-01 This collection builds on previous works on gender

violence in the Pacific but goes beyond some previous approaches to domestic violence or violence against women in analysing the dynamic processes of engendering violence in PNG. Engendering refers not just to the sex of individual actors but to gender as a crucial relation in collective life and the massive social transformations ongoing in PNG: conversion to Christianity, the development of extractive industries, the implanting of introduced models of justice and the law, and the spread of HIV. Hence the collection examines issues of troubled masculinities as much as battered women and tries to move beyond the black and white binaries of blaming either tradition or modernity as the primary cause of gender violence. It relates original scholarly research in the villages and towns of PNG to questions of policy and practice and reveals the complexities and contestations in the local translation of concepts of human rights. It will interest undergraduate and graduate students in gender studies and Pacific studies and those working on the policy and practice of combating gender violence in PNG and elsewhere.

Isak Dinesen and the Engendering of Narrative Susan Hardy Aiken, 1990-04-05. Although Isak Dinesen has been widely acclaimed as a popular writer, her work has received little sustained critical attention. In this revisionist study, Susan Hardy Aiken takes up the complex relations of gender, sexuality and representation in Dinesen's narratives. Drawing on feminist psychoanalytic and post-structuralist theories, Aiken shows how the form and meaning of Dinesen's texts are affected by her doubled situations as a Dane who wrote in English, a European who lived for many years in Africa, and a woman who wrote under a male pseudonym within a male-centered literary tradition. In a series of readings that range across Dinesen's career, Aiken demonstrates that Dinesen persistently asserted the inseparability of gender and the engendering of narrative. She argues that Dinesen's texts anticipate in remarkable ways some of the most radical insights of contemporary literary theories, particularly those of French feminist criticism. Aiken also offers a major rereading of *Out of Africa* that both addresses its distinctiveness as a colonialist text and places it within Dinesen's larger oeuvre. In Aiken's account, Dinesen's work emerges as a compelling inquiry into sexual difference and the ways it informs culture, subjectivity and the language that is their medium. This important book will at last give Isak Dinesen's work the prominence it deserves in literary studies.

The Art of Chinese Philosophy Paul Goldin, 2020-04-07 Goldin thus begins the book by asking the basic question What are we reading while also considering why it has been so rarely asked Yet far from denigrating Chinese philosophy he argues that liberating these texts from the mythic idea that they are the product

of a single great mind only improves our understanding and appreciation By no means does a text require single and undisputed authorship to be meaningful nor is historicism the only legitimate interpretive stance The first chapter takes up a hallmark of Chinese philosophy that demands a Western reader's cognizance its preference for non deductive argumentation Chinese philosophy is an art hence the title he demonstrates more than it is a rigorous logical method Then comes the core of the book eight chapters devoted to the eight philosophical texts divided into three parts Philosophy of Heaven Philosophy of the Way and Two Titans at the End of an Age **Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States *Weekly Climate Bulletin* ,1994 The Annual Collection of Essays in History ,1964 *Pending Watershed Work Plans* United States. Freshwater Politics in Canada Peter Clancy, 2014-08-27 Freshwater is in great supply across much of Canada However competing and changing demands on its use are leading to ever more complex political arrangements This volume offers an integrated survey of that complexity combining historical and contemporary cases in a conceptually informed exploration of water politics It offers a set of tools frameworks and applications that enable readers to recognize and explore the political dimensions of freshwater The opening chapters introduce core concepts such as power organized interests knowledge systems and the state They are followed by chapters discussing freshwater subsectors including fisheries irrigation flood control hydropower and groundwater A series of topical themes is addressed including salmon conservation Aboriginal water interests hydraulic fracturing regulatory revisions and interjurisdictional management A final section explores emerging trends in freshwater governance While river catchments are not always the principal denominator in discussions of water politics they do provide a primary frame of reference for this book A watershed case study accompanies each chapter This watershed grounding is intended to encourage readers to turn their attention to local and regional conditions
