CVs and Freelancers Luis R. Cerna,2024-09-13 Considering that in the linguistic market some translators and interpreters without corresponding university degrees are active it is easy to understand the demand of agencies for quality evidences On the one hand the stated requirements very often don t in any way prove that the agencies do indeed offer the necessary quality and on the other hand must offend qualified linguistics with a university degree Nobody asks a lawyer architect or surgeon for a CV before engaging him for a service Besides agencies try to pay the same lowest rates to any subcontractor and this doesn t make the situation any better Some agencies let non professionals do the work or service required just because they offer best rates This book explains the author s point of view *Hearings, Reports and Prints of the House Committee on Education and Labor* United States.
