Engineers In Japan And Britain Education Training And Employment:

Engineers in Japan and Britain Kevin McCormick, 2013-02-01 Engineers are a key occupational group in the transformation of the modern world Contrasts between Japans economic miracle and Britains relative economic decline have often been linked to differences in education training and employment of engineers Yet such views have often rested on little more than colourful anecdotes and selective statistics Using careful and systematic comparisons Kevin McCormick locates the differences between rhetoric and reality to dismiss both the inflated claims of the 1980s and the excessive detracting of the 1990s with Japans prolonged recession

Engineering War and Peace in Modern Japan, 1868-1964 Takashi Nishiyama, 2014-04-15 The role of engineering communities in taking Japan from a defeated war machine into a peacetime technology leader Naval aeronautic and mechanical engineers played a powerful part in the military buildup of Japan in the early and mid twentieth century They belonged to a militaristic regime and embraced the importance of their role in it Takashi Nishiyama examines the impact of war and peace on technological transformation during the twentieth century He is the first to study the paradoxical and transformative power of Japan s defeat in World War II through the lens of engineering Nishiyama asks How did authorities select and prepare young men to be engineers How did Japan develop curricula adequate to the task and from whom did the country borrow Under what conditions What did the engineers think of the planes they built to support Kamikaze suicide missions But his study ultimately concerns the remarkable transition these trained engineers made after total defeat in 1945 How could the engineers of war machines so quickly turn to peaceful construction projects such as designing the equipment necessary to manufacture consumer products Most important they developed new high speed rail services including the Shinkansen Bullet Train What does this change tell us not only about Japan at war and then in peacetime but also about the malleability of engineering cultures Nishiyama aims to counterbalance prevalent Eurocentric Americentric views in the history of technology Engineering War and Peace in Modern Japan 1868 1964 sets the historical experience of one country s technological transformation in a larger international framework by studying sources in six different languages Chinese English French German Japanese and Spanish The result is a fascinating read for those interested in technology East Asia and international studies Nishiyama s work offers lessons to policymakers interested in how a country can recover successfully after defeat

The Routledge Encyclopedia of Modern Asian Educators Shin'ichi Suzuki, Gary McCulloch, Mingyuan Gu, Parimala V. Rao, Ji-Yeon

Hong,2021-06-29 This handbook is a unique and major resource on modern educators of Asia and their contribution to Asian educational development through the 19th and 20th centuries when modernization started in Asia In one comprehensive volume this handbook covers a selection of modern educators from East Asia South Asia and Southeast Asia and their contributions to the development of modern education practically and theoretically The diversity of cultures and religion as well as the multilinguistic and ethnic context have made Asian modernization unique and complex Educational modernization in Asia reflected this historical context in many ways and resulted in the diverse forms of learning teaching institutions and administration Modern Asian educators compiled in this handbook represent various fields of Asian society not only educational but cultural and social fields like academia politics economics religion literature theatre fine arts and civic genres including the media Through this Handbook readers may discover the individual modern educators male and female and their contributions to Asian educational modernization All of them were committed to the cause of education for children youth adults and in particular women In addition this volume has an extraordinarily rich subject index which can be an excellent guide and introduction to information touching divergent dynamics of educational developments in modern Asia This insightful volume is perfect for students and researchers working on history of education comparative education and educational development particularly for those interested in Asian contexts *The Buraku Issue and Modern Japan* Ian Neary,2009-12-18 Casting new light on majority minority relations and the struggle for Buraku liberation this book focuses on Matsumoto Jiichiro arguably the most important Buraku leader of the twentieth century locating his experience within the broader developments in Japan s social political and economic history Training at Work Jeff Hyman,2017-06-26 Training in the workplace can be costly and time consuming Consequently it is often neglected However it plays an essential part in a company s success increasing the level of performance aiding strategic decision making and maximizing quality and efficiency Using detailed surveys and encompassing the literature in human resource management this book first published in 1992 shows why training is so valuable a tool The author s critical analysis covers the effects of demographic change and the growing number of women in the workforce as well as issues which reflect the changing patterns of work such as technology workplace flexibility and employee relations He deals with the increasing stress laid on managerial performance emphasizing the need for more management training as well as assessing the role of state run schemes and the effect of government policies He concludes with ways to develop successful training patterns and to launch a skills revolution This book should be of interest to postgraduates academics and researchers in the fields of human resource management industrial relations and organizational behaviour **The History of Anglo-Japanese Relations 1600-2000** G. Daniels,C. Tsuzuki,2002-10-02 This pioneering collection of essays by Japanese British and Canadian scholars demonstrates how individuals government agencies and non governmental organizations have confirmed and challenged the ideas of diplomats and statesmen Case studies of mutual perceptions feminism ceremonial theatre economic and social thought fine arts

broadcasting labour and missionary activity all illustrate how varieties of nationalism and internationalism have shaped the development of Anglo Japanese relations Furthermore it reveals the British admiration of Japan and a desire to emulate Japanese efficiency as a recurring theme in debates on the condition of Britain in the twentieth century **Industrial**

Training and Technological Innovation Howard Gospel,2010-11 Taking an international and comparative perspective this book focuses on the relationship between industrial training and technological change in three major global economies the UK USA and Japan The contributors an international group of leading researchers look at the origins and development of training in these countries and analyse the benefits resulting from the interaction of a skilled workforce and technological change This analysis of training in major industrial nations reveals the full complexity of the relationship between labour and technological change It shows the value of an approach which is both historical and comparative and highlights the importance of education and training as a necessary basis for successful innovation **International Comparisons of**

Vocational Education and Training for Intermediate Skills Paul Ryan,2019-07-23 Paul Ryan has brought together the writings of the most prominent British research into vocational preparation in Britain in comparison to the other advanced economies primarily within the EEC The book originally published in 1991 documents various aspects of inadequacy in British practice at the time concentrating upon intermediate skills which are of crucial importance for economic performance The introduction outlines the strengths and weaknesses of comparative research Part 1 discusses the use which has been made of it by policy makers in Britain and various aspects of comparative methods in practical comparisons including an Anglo Scottish one Part 2 concerns vocational preparation in connection with productivity and produce markets noting its importance for economic performance and its dependence upon companies product choices Part 3 contains studies of the organization of skills and work and the finance of training within the EEC as a whole Part 4 comprises studies of training in relation to labour market structures each of which indicates similar alternatives for training policy in Britain alternatives whose relevance and political prospects can only be enhanced by the demise of Thatcher government deregulatory policies

British Factory-Japanese Factory Ronald Dore,Ronald P. Dore,1973-09-18 Based on surveys of two Japanese factories and two British ones conducted in 1969 *Education and Work in Great Britain, Germany and Italy* Annette

Jobert,Catherine Marry,Helen Rainbird,Lucie Tanguy,2013-05-13 This volume examines the multiple connections between education broadly defined and work through an analysis of the literature on the transition from school to work on vocational training and on the labour market It shows that concepts such as skill unemployment rates young people and the transition from school to work are socially constructed and are thought about in ways which are nationally specific This book is essential reading for students of European training systems and for those conducting comparative European research

New Technologies and the Firm Peter Swann,2018-04-09 Originally published in 1993 this book presents the findings of 14 teams involved in a research initiative to examine the initiation and response to innovation in firms It draws together the

many strands which were discovered to influence the successful generation and adoption of new technologies The core issues in technology management are looked at including skills and expertise markets and marketing finance and the issue of technology collaboration both on a domestic and international basis Technology is shown to be at the very heart of corporate strategy and policy formation Engineering Labour Peter Meiksins,Chris Smith,Boel Berner,1996 Engineers often perceived as central agents of industrial capitalism are thought to be the same in all capitalist societies occupying roughly the same social status and performing similar functions in the capitalist enterprise What the essays in this volume reveal however is that engineers are trained and organized quite distinctly in different national contexts The book includes case studies of engineers in six major industrial economies Japan France Germany Sweden Britain and the United States Through a comparison of these six cases the authors develop an approach to national differences which both retains the place of historical diversity in the experience of capitalism and accommodates the forces of convergence from increasing globalisation and economic integration Contributions from Boel Berner Stephen Crawford Kees Gispens Kevin McCormick and Peter Whalley *Economics of Industrial Innovation* Chris Freeman,Luc Soete,2013-10-28 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company *Monthly Labor Review* United States.
