Engineers Guide To Solar Energy:

The Highway Engineer's Guide to Alternative Energy Sources and Applications Marian F. Eilers, John Laughland, 1980 A highway engineer considering an alternative energy source for an upcoming project probably does not have a background in heating ventilation and air conditioning or electrical engineering but with overall responsibility for the project needs to determine quickly whether or not an alternative energy source is cost effective If it is cost effective he would then need to know the design process and terminology to supervise the designer s work The guide meets these needs and in addition offers a selected bibliography of published information a listing of persons with experience in this area and a selection of actual case studies of highway agencies that have used alternative energy sources successfully
