Edgar Degas, Photographer ,19?? Edgar Degas, Photographer ,1998 Photography and the Body in Nineteenth-century France Anne E. Linton, Raisa Rexer, 2021-01-01 The first Yale French Studies issue on photography examining French photography s place in art identity and society through a lens of diversity and interdisciplinary investigation In its first issue on photography this volume of Yale French Studies presents multiple avenues of interdisciplinary investigation designed to intersect and open up new areas of inquiry in the twenty first century These intersections push beyond traditional geographic and gender boundaries exploring women s photography new cultural contexts trans orientalism and minority and marginalized bodies As they do so they ask us to reconsider the way that we conceive of photography s place in the past and in our lives today **Photography** Mary Warner Marien, 2006 Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art science social science travel war fashion the mass media and individual practitioners Back Cover **Degas** Jon Kear, 2012 A comprehensive new reference book on the influential impressionist artist Edgar Degas providing a detailed exploration of his life and the times in which he lived as well as a gallery of his best known and most loved works *The Artist and the Camera* Dorothy M.

Kosinski, San Francisco Museum of Modern Art, Dallas Museum of Art, Fundación del Museo Guggenheim, Bilbao, 1999 A catalog accompanying an exhibtion organized by the Dallas Museum of Art describes how artists at the turn of the century used photography in their paintings and sculpture "Interior Portraiture and Masculine Identity in France, 1789?914" HeatherBelnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book s premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period American Photo ,1998-09
