**Editing** Bruce W. Speck, 1991-03-21 This bibliography lists most of the literature on editing written from 1960 through 1988 with particular focus on those works pertaining to the acquisition and preparation of texts for publication Recognizing the wide range of functions performed by an editor Bruce W Speck accesses information about the editor s involvement in all aspects of the publishing process from initiating contacts with authors and marking manuscripts to discussing production specifications with the printer and creating advertising copy The entries are arranged alphabetically by author and fall under the headings of general editing technical editing and the editing of particular types of documents Each citation is presented in standard bibliographic form and the contents of each work summarized briefly using quotations and examples to highlight each book s most salient points In order to facilitate identification of entries the list is numbered consecutively with the subject index keyed to the numbered entry instead of the page number Thoughtful organization and thorough documentation make this manual a handy reference volume for libraries professional editors and teachers of editing     *Teaching Revising and Editing* Bruce Speck, 2006     **Teaching Revising and Editing** Bruce W. Speck, Dean A. Hinnen, Kathleen Hinnen, 2003-08-30 *Teaching Revising and Editing* is devoted to the many facets of the writing revising and publication process It provides a comprehensive overview of the literature over the past 25 years and applies to writing activities in K 12 undergraduate graduate classrooms and the workplace Each listing is annotated giving readers a great deal of significant information about each source Over 800 annotated entries for books articles reports bibliographies and other sources are included The book is divided into sections on teaching revision and editing in academic and nonacademic settings Special classroom issues such as teaching learning disabled students non native writers and ESL classes are discussed And there are sub sections on business classes developmental writing classes and technical writing courses The nonacademic sections provide sources that cover revising and editing in the general workplace and writing material for newspaper and magazine submissions Detailed author and subject indexes will help readers find specific topics of interest     Editing Documents and Texts Beth Luey, Kathleen Gorman, 1990 Over the past twenty years the field of scholarly editing has expanded and altered immeasurably In *Editing Documents and Texts* Beth Luey has compiled for the first time 900 references from nearly 200 journals and books that explain how scholarly editors do their work and the theories behind their editing Bridging the traditional gap between historical and literary editing Luey surveys the relevant scholarship in all editorial fields and presents a thorough picture of the state of the discipline Anyone interested in the editing of documents and texts whether an undergraduate or graduate student instructor or a beginning or experienced editor will find *Editing Documents and Texts* an indispensable reference     A Poetics of Editing Susan L. Greenberg, 2018-09-03 This original and authoritative book offers a first ever attempt to define a poetics of the editing arts It proposes a new field of editing studies in which the ideal editor can be understood in relation to the long theorised author and reader The book s premise is that editing like other forms of

making is mostly invisible and can only be brought into full view through a comparative analysis that includes the insights of practitioners The argument laid down in careful layers is supported by a panoramic historical narrative that tracks the shifts in textual authority from religious and secular institutions to the romanticised self of the digital present The dangers posed by the anti editing rhetoric of this hybrid romanticism are confronted head on To the traditional perception of editing as the imposition of closure A Poetics of Editing adds a perspective on a dynamic process with a sense of the possible **Editing Fact and Fiction** Leslie T. significant way that the influential Puritan minister Jonathan Edwards 1703-58 remains relevant today is through his approach to teaching. His holistic pedagogical approach addressed the total person: mind, intentions, and actions. Crucial to Edwards also was mentoring students to assist their spiritual development and to encourage and to help enable their leadership potential. This volume fills a significant gap in the academic study of Jonathan Edwards: his work as a teacher and educational theorist.

**Russian Education** Brian Holmes, Gerald H. Read, Natalya Voskresenskaya, 1995. First Published in 1995. Routledge is an imprint of Taylor & Francis, an informal company.

The Unification of German Education Val Dean Rust, Diane Rust, 1995. This study of the integration of East and West German education following the collapse of the German Democratic Republic in 1989 focuses on policy formation and implementation during this period of great social and political turbulence. It is the result of a research project undertaken shortly after the unification. The authors lived in East Germany for a full year, looking carefully at individual schools, vocational training centers, teacher colleges, and universities. They asked macro-analytic questions: What are the conditions in which educational policy is successfully formulated? How is this educational policy implemented? What are the consequences of this policy? From the start, West Germany demanded a complete dismantling of the educational system in the former German Democratic Republic. West German political leaders insisted as a condition of unification that all important agreements concerning education made by the GDR states be accepted by the new states. The authors' research shows that even before the unification, East Germans had already opted for a system consistent with West German education law. However, the West Germans disregarded these changes and imposed their own version of reform on East Germany. The study reveals that in this period of confusion, the East Germans did not fully analyze the implications of the imposed conditions, which now have unforeseen negative consequences. The German situation is of great interest to all educators, particularly students of educational policy making, as well as researchers in political science, economics, and sociology.

**Third World Education** Anthony R. Welch, 2002-05-03. This book debunks the argument that quality in education can only be achieved by limiting or trading off equality. The quality of schooling is a major issue for Third World nations across the globe. However, there is no single measure which is universally accepted. Whether it is, as some economists might argue, an issue of the number of desks per classroom or one of national sovereignty is widely disputed. Defining equality in education becomes increasingly difficult in an era of globalization in which there exists a wide gap between rich and poor, both within and between nations. In the context of an international move towards New Right politics and neo-liberal economic ideologies, both the quality and equality of education are imperiled. This book argues that any worthy definition of quality education must include the interests and participation of the underprivileged.
