Concrete Architecture Catherine Croft, 2004 Inspiration for architects and urban planners this text presents a re-evaluation of a material finally coming into its own in the 21st century: concrete. The text is illustrated with projects from some of the biggest name architects around.

Sacred Buildings Rudolf Stegers, 2008-05-16 The building of religious structures represents a rare opportunity for the architect to concentrate on the creation of volume space and form. Sacred architecture is far less determined than other building tasks by functional requirements norms and standards. As a rule it is free to unfold as pure architecture. Thus in design terms this building task offers enormous freedoms to the architect. At the same time however the special atmospherics of sacred spaces call on the part of the architect for a highly sensitive treatment of religion and the relevant cultural and architectural traditions. In a systematic section this volume introduces the design technical and planning fundamentals of building churches synagogues and mosques. In its project section it also presents about seventy realized structures from the last three decades. Drawing upon his in-depth knowledge of the subject and his many years of publishing experience the author offers a valuable analysis of the conceptual and formal aspects that combine to create the religious impact of spaces e.g. the ground plan the shapes of the spaces the incidence of light and materiality.

Berlín. Edición 2025 Angelika König, 2025-01-20 Sus cronistas aseguran que Berlín siempre ha estado o bien arrasada o bien en fase de reconstrucción desde su destrucción en la Guerra de Treinta y Cuatro años pasando por el devastador impacto de los bombardeos de la Segunda Guerra Mundial hasta la fiebre constructiva de la reunificación que dura hasta nuestros días. Pero

a pesar de sus transformaciones la naturaleza sigue presente en el paisaje urbano de Berlín ya que casi una tercera parte de su superficie está ocupada por parques y jardines Desde sus vanguardias culturales a los melancólicos cabarets desde sus inagotables museos a los mercadillos de antigüedades soviéticas desde los espacios diseñados por la élite de la arquitectura mundial a los monumentos más kitsch Berlín es en efecto una ciudad en permanente estado de efervescencia Aquí acuden los principales artistas europeos para respirar su ambiente de libertad y nutrirse de su espíritu ecléctico Y aquí llegan también los visitantes atraídos por una ciudad a la que se viaja motivado por su historia y de la que se regresa cautivado por su modernidad

The Chameleon Effect Dietmar Froehlich, 2018-04-09 Architecture and film have many things in common Film narratives are embedded in scenes that visually support the story Sometimes architecture even performs the role of an actor Conversely film with its multifaceted changing atmospheres reveals new layers of architecture which outside the cinema would remain concealed In conclusion film as a mass medium influences the way architecture is perceived and its image in society Since the beginning of cinema architecture has formed a symbiosis with film With its systematic analysis this book offers a scientifically researched history of mutual influence starting with filmography as a typology of well known film sets through to the description of the chameleon effect between film and architecture

Memorials as Spaces of Engagement Quentin Stevens, Karen A. Franck, 2015-08-11 Memorials are more diverse in design and subject matter than ever before No longer limited to statues of heroes placed high on pedestals contemporary memorials engage visitors in new often surprising ways contributing to the liveliness of public space In Memorials as Spaces of Engagement Quentin Stevens and Karen A Franck explore how changes in memorial design and use have helped forge closer richer relationships between commemorative sites and their visitors The authors combine first hand analysis of key examples with material drawn from existing scholarship Examples from the US Canada Australia and Europe include official formally designed memorials and informal ones those created by the public without official sanction Memorials as Spaces of Engagement discusses important issues for the design management and planning of memorials and public space in general The book is organized around three topics how the physical design of memorial objects and spaces has evolved since the 19th century how people experience and understand memorials through the activities of commemorating occupying and interpreting and the issues memorials raise for management and planning Memorials as Spaces of Engagement will be of interest to architects landscape architects and artists historians of art architecture and culture urban sociologists and geographers planners policymakers and memorial sponsors and all those concerned with the design and use of public space
