Tradición y reforma en la educación occidental del siglo XXI María José García Ruiz, Elisa Gavari Starkie, 2021 Nadie discute hoy la extrema importancia del siglo XX en un particular capítulo de la Historia de la Educación la expansión cuantitativa de la escolaridad que en los primeros niveles y abstrayendo por el momento de situaciones deficitarias en determinadas zonas de la tierra ha llegado a la universalización Por hirientes y hasta escandalosos que puedan resultarnos estos últimos casos la realidad es que la inmensa mayoría de los niños del mundo han pasado al menos algunos años por la escuela y han tenido la oportunidad de contactar sus beneficios sea a mi juicio y no digo por supuesto nada original la gran aportación de un siglo que en otros capítulos

tulos igualmente educacionales podr a merecer comentarios no siempre tan favorables derivados a veces indirectamente de esa atenci n prioritaria e intensiva a la escuela con descuido de otros mbitos tanto o m s importantes que la escuela misma en lo que hace al desarrollo integral de la persona l ase por ejemplo la familia Una atenci n prioritaria e intensiva que como he dicho y es casi un t pico ha incidido particularmente en aspectos cuantitativos Les philosophes las grandes figuras del Siglo de las Luces so aron que la Ilustraci n cambiar a el mundo Ciertamente lo ha hecho en gran parte aunque no siempre para mejor Y el instrumento institucional que ellos mismos dirigieron a esa finalidad la escuela no siempre consigui no digamos ya los objetivos transformadores previstos sino tampoco otros m s modestos y elementales como es simplemente el de alfabetizar verdaderamente al conjunto de la poblaci n humana Asistimos hoy con tanta preocupaci n como sorpresa a una creciente producci n de analfabetos escolarizados incluso en los pa ses de mayor desarrollo cultural j venes que tras permanecer en la escuela un considerable n mero de a os con el coste econ mico y social que eso supone apenas han sido capaces de adquirir y aplicar conocimientos m nimos elementales La baja calidad de la educaci n escolar por mucho que afecte especialmente a pa ses como el nuestro constituye un problema y una preocupaci n que no excluye a ning n pa s por rico que sean sus recursos econ micos e incluso culturales independientemente de su mayor o menor lucimiento en las evaluaciones internacionales de resultados Quiz por eso el cometido fundamental que parecen haberse echado encima la mayor parte de las pol ticas educativas del siglo XXI en algunos pa ses con extrema lentitud todo hay que decirlo es el de repensar el inmenso aparato educativo que ha ido cre ndose especialmente durante el siglo anterior La maquinaria educacional es hoy en nuestras sociedades una inmensa consumidora de recursos que s lo muy modestamente logra traducir en resultados Y no es que se hayan evitado esfuerzos por mejorar Por el contrario llev mos d cadas intentando descubrir desde la pedagog a la psicolog a y en general las ciencias sociales cu les deber an ser las claves de esa mejora la investigaci n en estos mbitos no se ha reducido sino que ha aumentado poderosamente Con el curioso resultado de que hoy d a todo ese considerable esfuerzo no s lo ha sido puesto en cuesti n sino que para muchos l ase docentes padres medios de opini n clase pol tica ha sido culpabilizado en gran parte de la deficiente situaci n en la que nos encontramos Para muchos las reformas educativas que han ido teji ndose en los ltimos a os promovidas en gran parte por los nuevos enfoques en vez de arreglar las cosas las han complicado cada vez m s No es de extra ar por tanto que las tendencias actuales nos marquen ese creciente af n de repensar lo hecho huyendo tanto de tentaciones reformistas como de posturas de puro conformismo Es curioso que entre los pa ses que hoy gozan de mayor prestigio educacional en virtud de sus relativamente mejores resultados escolares por lo dem s bastante discutibles predominen aquellos que siguen dando entrada en sus aulas a metodolog as bien tradicionales que quiz podr amos concretar en unas pocas fomento del esfuerzo refuerzo de la autoridad docente t cnicas de repetici n entrenamiento de la memoria atenci n individualizada abundancia de controles y ex menes exigencia de buenos resultados a centros profesores y alumnos etc y esto incluso por encima de un uso cada vez m s generalizado de los apoyos

informáticos y de costosos recursos materiales Todo esto está ayudando a configurar un nuevo escenario institucional en educación que no va a ser ya pura continuación del establecido en el siglo XX El lector encontrará interesantes pistas de estas nuevas tendencias en los capítulos que componen el libro que tiene entre sus manos Se trata sólo de unos pocos capítulos pero muy acertadamente elegidos por cuanto desarrollan temas fundamentales de largo alcance como pueden ser el de precisamente los nuevos paradigmas que se otean en el horizonte o el de los cambios profundos aparentemente espasmódicos que están fraguándose en el ámbito de la educación superior pasando por otros igualmente interesantes de los que se ofrece ya un sucinto relato en la presentación inicial del libro Es un honor para mí que las autoras me hayan pedido estas breves líneas proemiales Llevo ya bastantes años trabajando junto a ellas y sé bien de su competencia y de su probidad investigadora que sin duda resultarán de gran beneficio a quienes se adentren en tan sugerentes páginas Jos Luis García Garrido Private Higher Education and Inequalities in the Global South Etienne Gérard, 2024-04-23 Based on original findings from research carried out in six low and middle income countries in Africa Asia and Latin America this book brings together conceptual and empirical analyses of private higher education and social and academic inequality a topic largely unexplored in the social science literature particularly on private higher education Field surveys of different categories of actors in numerous private universities have combined common methods and tools in countries chosen for the differences in their social structures and the characteristics organization and development of their private higher education systems Based on these qualitative surveys combined with available quantitative data on higher education this book analyzes the production and reproduction of social and academic inequalities in countries as diverse as Argentina Mexico Peru the Democratic Republic of Congo Senegal and Vietnam Finally the historical and social structuring of the private education systems in the selected countries provides the framework for analyses that go beyond the traditional higher education demand supply and public policy approaches to explore the perspective of the actors institutional administrators teaching staff and students Revista de educación nº 260
