[Universidad y nación](#) Sol Serrano, 2016 No deja de sorprender que el tema de este libro, la historia de la Universidad de Chile en su periodo fundacional, sea hoy más candente de lo que fuera cuando se publicó. En los últimos años el sistema universitario ha estado en el centro del debate público como no lo había estado desde las grandes reformas de fines de los años 1960 del siglo pasado. El argumento de esta investigación nace de un debate de la década de los años 1980 que era la relación entre Estado y sociedad civil en un periodo en que el Estado de bienestar había transitado hacia un Estado subsidiario en el contexto de una dictadura. Interesaba comprender históricamente la construcción del Estado desde una de sus facetas que era la educación. El libro sostiene básicamente que la fundación de la Universidad de Chile fue un proyecto político de una élite ilustrada, propio de la construcción de la nación moderna para incorporar el conocimiento moderno a la transformación de la sociedad en distintos niveles: en la investigación, en la formación profesional y en la formación de un sistema educacional civilizatorio que llegara al conjunto de la población. Era un proyecto político de suyo secularizador. La educación estuvo en el centro del conflicto entre un Estado católico y un Estado laico, entre Estado docente y libertad de enseñanza. Finalmente era un conflicto sobre la definición de lo público y lo privado. Es en este conflicto donde el libro engarza con el debate de esta década del siglo XIX

Liberals, Politics, and Power Vincent C. Peloso, Barbara A. Tenenbaum, 1996 Looking at the Latin American liberal project during the century of postindependence this collection of original essays draws attention to an underappreciated dilemma confronting liberals idealistic visions and fiscal restraints *Liberals Politics and Power* focuses on the inventiveness of nineteenth century Latin Americans who applied liberal ideology to the founding and maintenance of new states The impact of liberalism in Latin America the contributors show is best understood against the larger backdrop of struggles that pitted regional demands against the pressures of foreign finance a powerful church against a decentralized state and aristocratic desire to retain privilege against rising demands for social mobility Moving beyond the traditional historiographical division between Eurocentric and dependency theories the essays attempt to account for a uniquely Latin American liberal ideology and politics by exploring the political dynamics of such countries as Mexico Colombia Argentina and Peru Contributors discuss liberal efforts to build a viable legal order through elections and to implement a means of public finance that could fund the states operations Essays that span the entire century address issues such as the emergence of caudillos the role of artisans and popular participation in elections in light of fiscal and other impediments to progress In their introduction Vincent C Peloso and Barbara A Tenenbaum provide a hemispheric overview of liberalism that illustrates its similarities across Latin America By exploring the liberal constitutional and economic order lying beneath apparently dictatorial states this pathbreaking volume underlines the importance of fiscal policy in the fashioning of state power *Liberals Politics and Power* serves not only as a guide to the liberal principles and practices that governed state formation in nineteenth century Latin America but also as a means to evaluate the complex relationship between ideas and practical politics
