in Special Education Prof. Dr. Esra ÖMEROĞLU, PhD. Rıdvan KARABULUT, 2020-12-29 **New Directions and Trends in Parenting Research** Nicolette Vanessa Roman, Yosi Yaffe, Dorit Alt, 2024-08-28 For many decades parenting has been at the center of interest for practitioners and researchers interested in child social and psychological development The body of research on children s socialization has primarily focused on traditional parenting styles and their related practices in the spirit of Baumrind s and others conceptualization of parental control and power assertion e g authoritative authoritarian and permissive This research has revealed many domains of children s and adolescents adjustment and wellbeing that are affected by and affecting parenting quality but intriguing new parental approaches and types have recently emerged in research literature such as digital parenting transcendent parenting parental alienation overparenting helicopter parenting tiger parenting and several others about which more is yet to be learned Likewise in recent years our understanding of the role played by factors such as culture ethnicity environmental and familial background in the relationship between parenting styles and children s psychological wellbeing and mental health has greatly improved However the question of whether or not there is a global uniform optimal parenting remains controversial as more studies are required to better understand the varying impacts of parenting on the child s well being within different demographic and familial contexts This is especially true for families with special needs children i e children and adolescents with developmental and psychological disabilities where research on parenting styles in particular is understudied Additionally in the present digital era there is growing interest in relatively new behavioral outcomes in children and adolescents such as sedentary behaviors including eating and nutrition habits online behaviors and digital activity vs physical activity These and other important contemporary aspects in children s functioning and behaviors contribute to developmental mental health and further establishing our knowledge regarding the parental role in these contexts is essential **Cases on Online Learning Communities and Beyond: Investigations and Applications** Yang, Harrison Hao, Wang, Shuyan, 2012-07-31 Technology enriched online settings

Families in an Era of Increasing Inequality Paul R. Amato, Alan Booth, Susan M. McHale, Jennifer Van Hook, 2014-10-07 The widening gap between the rich and the poor is turning the American dream into an impossibility for many particularly children and families And as the children of low income families grow to adulthood they have less access to opportunities and resources than their higher income peers and increasing odds of repeating the experiences of their parents Families in an Era of Increasing Inequality probes the complex relations between social inequality and child development and examines possibilities for disrupting these ongoing patterns Experts across the social sciences track trends in marriage divorce employment and family structure across socioeconomic strata in the U S and other developed countries These family data give readers a deeper understanding of how social class shapes children s paths to adulthood and how those paths continue to diverge over time and into future generations In addition contributors critique current policies and programs that have been created to reduce disparities and offer suggestions for more effective alternatives Among the topics covered Inequality begins at home the role of parenting in the diverging destinies of rich and poor children Inequality begins outside the home putting parental educational investments into context How class and family structure impact the transition to adulthood Dealing with the consequences of changes in family composition Dynamic models of poverty related adversity and child outcomes The diverging destinies of children and what it means for children s lives As new initiatives are sought to improve the lives of families and children in the short and long term Families in an Era of Increasing Inequality is a key resource for researchers and practitioners in family studies social work health education sociology demography and psychology
