

The 5 Main Types of Patients

EAST RIDGE HEALTH

Trusted health provider since 1951

Understanding the types of patients can help you determine the best visuals to use in your patient education materials. For more information visit us at www.eastridgehealth.com

#1

Passive-dependent

Patients who are trusting individuals.

They depend on the authoritative figure—in this case, doctors and nurses—to make the main decisions in their healthcare plan.

#2

Open-minded exploring

Patients who seek a personal connection with their doctors.

They are usually open to exploring most options for their medical condition, including alternative medicine and treatments. Also, emotional support is important for this type of patient.

#3

Independent-skeptical

Patients who always question doctors.

They don't accept every recommendation. They tend to seek second or even third opinions and chase after rational statements that are consistent with their knowledge.

#4

Intellectual-researcher

Patients who always perform their literature searches.

They desire scientific explanations for every piece of information. They check their doctors' comments against scientific studies and often prefer doctors who work in prestigious healthcare institutions.

#5

Expedient-flexible

Patients who tend to choose doctors based on availability.

They don't care much about checking every data or prestige. They are usually cost-conscious too, which makes them flexible in their choices for physicians.

Education For Patients And Clients

Vivien Coates

Education For Patients And Clients:

Education For Patients and Clients Vivien Coates, 2004-08-02 Education for Patients and Clients sets out basic principles for providing patient education as an integral part of nursing care. It challenges the view that simply giving information is enough and investigates strategies for making education as effective as possible. The author explores the effect of psychosocial factors such as personal beliefs and family support on our behaviour, the importance of taking such factors into account when planning education for patients and clients, compliance and non-compliance, the role of the nurse as educator, the patient's right to knowledge regarding their health and treatment. Education for Patients and Clients will be essential reading for both pre and post registration nurses studying health education in all settings.

The Principles and Practice of Nurse Education Francis M. Quinn, 2000 This book, now in its fourth edition, has been updated to include material focused on evidence-based practice. Covering the complete spectrum of education as applied to nursing and health care professions, this book maintains the blend of theoretical principles and practical applications that has proved successful over the preceding three editions. Among the important developments discussed are the replacement of UKCC and the four National Boards with a new Nursing and Midwifery Council, the initiative to establish the National Institute for Clinical Excellence and the move to incorporate clinical effectiveness into the clinical governance framework. Frank Quinn brings together all the major changes that apply to educators within the National Health Service, making this essential textbook an authoritative source of guidance up to date information and reference.

Patient Education in Rehabilitation Olga Dreeben-Irimia, 2010-10-22 Patient education is an important aspect of the rehabilitation process.
