Education In Zambia Catholic Perspectives:

Education in Zambia Brendan Patrick Carmody, 1999 This book fills a gap by providing a much needed history of Catholic missionary education in Zambia It traces the contribution of the Catholic Church s contribution to the development of education in Zambia over more than a century providing more widely an overview of Zambia s educational history and insights into the development of the country s political history It articulates the perspectives of missionaries and officials of education departments of Zambian students lecturers and administrators The study further vividly illustrates how the mission school generated creative tension between modernity and education and Christian conversion and analyses the psychological impacts of religious conversion and how these have been played out in Zambia It argues that in the circumstances Catholic schools have been instruments of liberation in Zambia but duly recognises the ambiguities of modernisation and the need to respect and acknowledge the riches of local tradition

Citizenship Education and Social Development in Zambia Ali A. Abdi, Edward Shizha, Lee Ellis, 2010-06-01 Zambia the butterfly shaped central African country has a population of about 11 million people and as other Sub Saharan African countries has been trying to democratize since the early 1990s Clearly though the promise of political reform did not fulfill the expectations of the public and with about 60 percent of the population living below the poverty line many Zambians are no longer confident that more open political systems can improve their lives But the problem may not be inherent in the political process itself and could be found more in the apparent disconnection between people s needs and the way the country s affairs are run It is with respect to these and related issues that this book emphasizes the crucial relationship between education and political participation and specifically highlights citizenship education as essential for Zambia s social development Social development which should comprise inter alia the economic political and cultural wellbeing of societies can be enhanced by citizenship education which focuses on elevating people s understanding of their rights and responsibilities vis vis government institutions structures and functions Indeed it is the centrality of the political component in people s lives especially its relationship with public policy and public programs that should underline the important role of citizenship education In describing these issues the book analyzes the role of the media women s groups and youth in enhancing the political educational and by extension the economic lives of the Zambian people The book should interest students and scholars of Zambian as well as African education politics and social development It should also be useful for policy makers institutional managers and both public and para public leaders in Zambia and elsewhere in the continent
