Education The Idea Of Mankind:

Education and the Idea of Mankind Robert Ulich, 1974 **Education as Human Knowledge in the Anthropocene**
Christoph Wulf, 2022-03-27 This book examines the concepts of the Anthropocene and globalisation in our society and the changes that these are bringing about in education and human learning The book argues that there needs to be reflexive approach to issues that affect the fate of the planet and the future of humans brought about by an education that looks to the future Wulf argues that a change in education and socialization can only succeed based on an understanding of previous educational ideas and considers the significance of Confucianism and spiritual education that emerged in the East The book traces key educational ideas throughout history to show how education and human knowledge are closely linked highlighting the need for us to pay careful attention to repetition mimesis and the imagination in learning It shows how a future oriented education must engage with issues of peace and violence global citizenship and sustainable development This timely and compelling book will be of great interest to researchers academics and students in the fields of philosophy of education the history and anthropology of education sustainability education and global citizenship education *Educating Toward a Culture of Peace* Yaacov Iram, 2006-06-01 This volume on Education towards a Culture of Peace is a timely undertaking since the United Nations has proclaimed the years 2001 2010 as the International Decade for a Culture of Peace and Non Violence for the Children of the World A culture of peace as defined by the UN is a set of values attitudes modes of behaviour and ways of life that reject violence and prevent conflicts by tackling their root causes to solve problems through dialogue and negotiation among individuals groups and nations UN Resolutions A RES 52 13 1998 Culture of Peace and A RES 53 243 1999 Declaration and Programme of Action on a Culture of Peace Most of the chapters in this book are based on lectures that were presented at the International Conference Education towards a Culture of Peace This conference was convened on 1 3 December 2003 by the The Josef Burg Chair in Education for Human Values Tolerance and Peace UNESCO Chair on Human Rights Democracy Peace and Tolerance School of Education at Bar Ilan University Israel This conference was held under the auspices of Israel National Commission for UNESCO and supported also by the Ministry of Foreign Affairs Jerusalem The office of Public Affairs of the US Embassy Tel Aviv Fulbright United States Israel Educational Foundation *The People* Gerhard Hirschfeld, No society at any time under any conditions has provided enduring freedom security justice or self determination for all of its citizens The problems that confront the human species today are so large so complex and so urgent that an effective solution requires a framework that considers mankind as a whole The alternative according to Gerhard Hirschfeld is global disaster These observations provide both the motivation and the focus for *The People* a book that proposes a radical departure from traditional perceptions of people in society Hirschfeld argues that the basic relationship between people leaders and the middle class has always been fixed in human society and that the people in all societies and at all times have been subject to domination and exploitation To change this condition to assure that the people

attain dignity and basic human rights he proposes the creation of a much broader social framework The work traces the development of the three sectors of society leaders distinguished by natural talents and the ability to furnish ideas design and organization second the people insecure dependent defenseless and exploited and third the middle class playing the part of an equalizer or moderator to the other two classes The heart of the book is a careful long range analysis of these three great historical forces leading to specific proposals of principles and procedures upon which the creation of a mankind oriented society might be based Whether used as a text or as a manifesto and call to action this exceptional work is a unique contribution that will ensure its appeal to diverse audiences

Gerhard Hirschfeld was born in Berlin Germany After World War I he went to South America there combining work in the export business with a study of the cultures of the native peoples He published many articles papers and monographs and is the author of *An Essay on Mankind* Kenneth E Boulding 1910 1993 was president of many scholarly associations including the American Economic Association the Society for General Systems Research and the American Association for the Advancement of Science He authored numerous books including *Towards a New Economics* *Critical Essays on Ecology Distribution and Other Themes* *Three Faces of Power* and *The World as a Total System*
