Education For Life:

Education for Life J. Donald Walters, 1997-06-15 Here is a constructive alternative to modern education The author stresses spiritual values and helping children grow toward full maturity learning not only facts but also innovative principles for better living This book is the basis for the Living Wisdom schools and the Education for Life Foundation which trains teachers parents and educators Encouraging parents and educators to see children through their soul qualities this unique system promises to be a much needed breath of fresh air

Life and Moral Education in Greater China John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-30 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people's mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school based programmes as well as teachers and peers role modelling community services extra curricular activities school discipline charity work pastoral care and school ethos Recognising this inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China

Family Life Education Stephen F. Duncan, H. Wallace Goddard, 2011 Drawing on the best scholarship and their own years of professional experience the authors of this thoroughly updated edition begin by discussing the foundations of family life education and encourage readers to develop their own outreach philosophies The book then helps readers learn principles and methods for reaching out to the public and how to form and use community collaborations and use principles of social marketing to promote programs The Second Edition contains five new chapters on education for personal well being marriage and relationship education parenting education sexuality education and narratives of family life educators The authors practical hands on experience is used to demonstrate how readers can put principles from the latest and best scholarship into action and reinforced with the Interactive Explorations sections throughout

Life Skills Education for Youth Joan DeJaeghere, Erin Murphy-Graham, 2021-11-23 This open access volume critically reviews a diverse body of scholarship and practice that

informs the conceptualization curriculum teaching and measurement of life skills in education settings around the world It discusses life skills as they are implemented in schools and non formal education providing both qualitative and quantitative evidence of when with whom and how life skills do or do not impact young women s and men s lives in various contexts Specifically it examines the nature and importance of life skills and how they are taught It looks at the synergies and differences between life skills educational programmes and the way in which they promote social and emotional learning vocational employment education and health and sexuality education Finally it explores how life skills may be better incorporated into education and how such education can address structures and relations of power to help youth achieve desired future outcomes and goals set out in the Sustainable Development Goals SDGs Life skills education has gained considerable attention by education policymakers researchers and educators as being the sine qua non for later achievements in life It is nearly ubiquitous in global and national education policies including the SDGs because life skills are regarded as essential for a diverse set of purposes reducing poverty achieving gender equality promoting economic growth addressing climate change fostering peace and global citizenship and creating sustainable and healthy communities Yet to achieve these broad goals questions persist as to which life skills are important who needs to learn them how they can be taught and how they are best measured This book addresses these questions *School and Home Education* ,1910 **1949**

Work Conference on Life Adjustment Education John Daniel Hull,1950 **Life Adjustment Education in the American Culture** ,1952 Connecting the Quality of Life Theory to Health, Well-being and Education Alex C.

three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs **Proceedings of the High School Conference of ...**, 1912 **Education in Africa** A. Babs Fafunwa, J. U. Aisiku, 2022-09-01 First published in

1982 Education in Africa offers a comprehensive treatment of the development of education in Africa Until now only scattered documents on educational growth in individual countries have been available works devoted to Africa as a whole have tended towards the general and have by and large been written by outside observers This book is a collection of illuminating syntheses of major trends in educational development in Africa by renowned African educationists and is the first attempt to supply the need for a comprehensive book on African education written from an African viewpoint All but one of the chapters were written specially for the book by leading African educators each of whom has had a distinguished career and wide experience in education in his or her own country they represent eleven nations in all The volume is designed for African students teachers and administrators and will also be welcomed by educational planners and by scholars working in the fields of comparative education and the history of education It will be of special interest to departments institutions and faculties of education in all the universities and colleges of education in Africa and to educators and students worldwide who are concerned with comparative African education **Growing Up America** Susan Eckelmann Berghel, Sara Fieldston, Paul

M. Renfro, 2019 Growing Up America brings together new scholarship that considers the role of children and teenagers in shaping American political life during the decades following the Second World War Growing Up America places young people and their representations at the center of key political trends illuminating the dynamic and complex roles played by youth in the midcentury rights revolutions in constructing and challenging cultural norms and in navigating the vicissitudes of American foreign policy and diplomatic relations The authors featured here reveal how young people have served as both political actors and subjects from the early Cold War through the late twentieth century Age of Fracture At the same time Growing Up America contends that the politics of childhood and youth extends far beyond organized activism and the ballot box By unveiling how science fairs breakfast nooks Boy Scout meetings home economics classrooms and correspondence functioned as political spaces this anthology encourages a reassessment of the scope and nature of modern politics itself

Explorations of Chinese Moral Education Curriculum and Textbooks Desheng Gao, Le Zhang, Yan Tang, 2021-05-07 This book shares with English readers Chinese theoretical and practical explorations of moral education curriculum for primary schools within the basic education curriculum reform project since 2001 The book expounds this moral education curriculum reform and focuses on three main ideas The curriculum's aim is to enrich children's experiences and reflect their own lives the curriculum's content is originated from children's lives the curriculum's structure is developed from children's learning approach in their morality and social study In this book light is also shed on how to construct moral education textbooks direct moral instruction and moral teacher identity in the perspective of moral learning how to knit law education

and Chinese traditional culture education in moral curriculum This is the first comprehensive book focusing on Chinese moral education curriculum reform It will appeal to researchers research students and writers of moral education textbooks It is also suitable for teacher training programs to help future teachers learn about moral education curriculum and help them effectively design and organize it for children s morality study
