Adirim, Elizabeth Smith, 2006 Special Children s Outreach and Prehospital Education SCOPE is a program designed to help EMS providers care for children with special health care needs SCOPE is divided into 3 sections Diseases Conditions Special Technologies and Advanced Practices

A parent's guide to disability discrimination and their child's education Geraldine Hills, 2017-10-05 This book describes how parents can ensure their children with disabilities can achieve the most from their education in the UK The Equality Act 2010 ensured all children are protected against disability discrimination in their education and all activities but it requires parents to know their rights so that they can ensure their child gets the education they deserve

Leading on Inclusion Mhairi C. Beaton, Geraldene N. Codina, Julie C. Wharton, 2021-04-21 This comprehensive resource provides a range of perspectives on inclusion giving Special Educational Needs Co ordinators SENCOs the opportunity to consider the principles and practice that underpin their leadership role Offering a blend of academic and professional knowledge each chapter explores different aspects of the role of the SENCO and supports areas that will be considered as part of the National Award for SENCOs A variety of essential topics are covered from the importance of SEND provision and multi disciplinary practice to the role of the SENCO and leadership Key features of this book include Contributions by leaders of the National Award for Special Educational Needs Co ordinators working with trainee SENCOs across the country A focus on encouraging SENCOs to think deeply about their own individual practice through engagement with cutting edge research A flexible structure that can be read as a whole or dipped in and out of as professional learning needs require This book provides an opportunity for readers to engage with a multiplicity of voices and approaches allowing them to critically explore their role as leaders of SEND provision in schools It is an invaluable resource both for students and those already within the role of Special Educational Needs Co ordinator

The Praeger Handbook of Special Education Alberto M. Bursztyn Ph.D., 2006-12-12 This book introduces readers to key concepts and issues in the evolving field of special education Arguably over the past thirty years no other area of education has been as radically transformed as the provision of services to children with disabilities Since the mid 1970s special education has steadily grown to reach fully 12% of the U S student population in grades K 12 and millions of children from birth to age five Despite its promise of equal access special education has become a controversial field in many respects Critics point to its high cost questionable pedagogical effectiveness and differential outcomes across localities family income levels and ethnicities The more typical approach in the literature highlights the legal and procedural mandates that dominate the

discourse on educating the disabled student but fails to explore the underlying assumptions and inconsistencies that make this area of education a controversial and still unsettled enterprise This handbook departs from the traditional books in the field by focusing on the ways that special education policies and practices are enacted rather than highlighting only their intended outcomes Contributors to this text focus on defining commonly used terms and professional jargon in order to give interested readers access and insight into the field of special education and its associated practices Some of the subjects included in this volume are the history of special education disability and society law and special education pedagogy policies and practices and research in special education

Primary Care of Children with Chronic Conditions - E-Book Cheri Barber,2024-03-16 Provide comprehensive primary care for the growing number of children with chronic conditions Featuring contributions from more than 50 expert nurse practitioners and their interprofessional colleagues Primary Care of Children with Chronic Conditions offers expert guidance on the management of children with special needs and their families Comprehensive coverage presents the most current knowledge and insights available on these specific conditions including information on the COVID 19 pandemic This valuable resource helps providers improve pediatric care for chronic conditions and addresses the need for transitional care to adulthood and the issues and gaps in healthcare that may hinder the quality of care for this unique population The only book authored by Nurse Practitioners and their colleagues focusing on managing the primary health care needs of children with chronic conditions More than 50 expert contributors provide the most current information available on specific conditions Comprehensive summary boxes at the end of chronic conditions chapters provide at a glance access to key information Full color format enhances readability and highlights key information for quick access Up to date references ensure access to the most current evidence based coverage with the latest research findings and management protocols
