## **Education Science In The Arab World:**

**Education and Science in the Arab World** Fahim Issa Qubain,1966      *The World of Science Education* ,2009-01-01

Each volume in the 7 volume series *The World of Science Education* reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel Arab States and Sub Saharan Africa The focus of this Handbook is on science education in Arab states and the scholarship that most closely supports this program The reviews of the research situate what has been accomplished within a given field in an Arab rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next      Education and Science in the Arab World

**Education in the Arab World: Quality Assurance and Relevance** Adnan Badran,Elias Baydoun,John R.

Hillman,2019-03-25 This book focuses on two crucial issues that need to be addressed as a matter of urgency by universities in the Arab region namely a conducting independent assessments of the quality of their teaching research administration governance and planning and b determining the relevance of their teaching research and societal impacts Although well established around the world in manufacturing industries and private sector service industries including the research and commercialisation arms of the major universities and research institutes it is only in recent years that quality assurance QA assessments have started to be applied to most aspects education Several Arab universities are adopting various forms of QA but some variants are little more than bureaucratic box ticking exercises with minimal commitment by staff to the ultimate aim of continuing self improvement This book will be of interest to senior management at faculty and departmental level and above in all Arab universities specifically and more generally in Islamic institutions of higher education Senior management in other universities especially in the developing world will benefit from its analyses and recommendations **Western**

**Science in the Arab World** Adel A Ziadat,1986-09-01 Science, Development, and Sovereignty in the Arab World A.

Zahlan,2012-07-03 Zahlan s detailed study examines recent and current performance of Arab countries and their organizations in scientific research in relation to their socio economic development It shows that the Arab countries are severely handicapped by a political economy dominated by technological dependence corruption and limited research collaboration **Science Journalism in the Arab World** Abdullah Alhuntushi,Jairo Lugo-Ocando,2023-01-01 This book

examines the main issues and challenges that science journalism faces in the MENA region while analyzing how journalists in these countries cover science and engage with scientists Most countries in the Middle East and North Africa region have set an ambitious goal for 2030 to transform their societies and become knowledge economies This means modernizing institutions and encouraging people to embrace Science Technology Engineering and Mathematics as part of their daily lives This books claims that the main vehicle to achieve this goal is science news reporting as it continues to be the main platform to disseminate scientific knowledge to the general public Simultaneously it is also poorly equipped to achieve this task Interviewing dozens of journalists the authors looked at specific areas such as the gender divide and its effects on science news reporting as well as the role of religion and culture in shaping journalism as a political institution The authors conclude that traditional normative assumptions as to why science reporting does not live up to expectations need to be reviewed in light of other more structural problems such as lack of skills and specialization in science communication in the region In so doing the book sets out to understand the past present and future of science news in one of the most challenging regions in the world for journalists *Space Science and the Arab World* Jörg Matthias Determann,2018-01-29 When Sultan bin

Salman left Earth on the shuttle Discovery in 1985 he became the first Arab first Muslim and first member of a royal family in space Twenty five years later the discovery of a planet 500 light years away by the Qatar Exoplanet Survey subsequently named Qatar 1b was evidence of the cutting edge space science projects taking place across the Middle East This book

identifies the individuals institutions and national ideologies that enabled Arab astronomers and researchers to gain support for space exploration when Middle East governments lacked interest Jorg Matthias Determann shows that the conquest of space became associated with national prestige security economic growth and the idea of an Arab renaissance more generally Equally important to this success were international collaborations to benefit from American and Soviet expertise and technology Arab scientists and officials had to commit to global governance of space and the common interests of humanity Challenging the view that the golden age of Arabic science and cosmopolitanism was situated in the medieval period Determann tells the story of the new discoveries and scientific collaborations taking place from the 19th century to the present day An innovative contribution to Middle East studies and history of science the book also appeals to increased business media and political interest in the Arab space industry

**Who's Who in the Arab World 2007-2008** Publitex Publications,2011-12-22 Who's Who in the Arab World 2007 2008 compiles information on the most notable individuals in the Arab world Additionally the title provides insight into the historical background and the present of this influential and often volatile region Part I sets out precise biographical details on some 6 000 eminent individuals who influence every sphere of public life in politics culture and society Part II surveys the 19 Arab Countries providing detailed information on the geography history constitution economy and culture of the individual countries Part III provides information on the historical background of the Arab world Indexes by country and profession supplement the biographical section A select bibliography of secondary literature on the Middle East is also included

Culture and Crisis in the Arab World Richard Jacquemond,Felix Lang,2019-09-05 Since 2011 the art of the Arab uprisings has been the subject of much scholarly and popular attention Yet the role of artists writers and filmmakers themselves as social actors working under extraordinary conditions has been relatively neglected Drawing on critical readings of Bourdieu's Field Theory this book explores the production of culture in Arab social spaces in crisis In ten case studies contributors examine a wide range of countries and conflicts from Algeria to the Arab countries of the Gulf They discuss among other things the impact of Western public diplomacy organisations on the arts scene in post revolutionary Cairo and the consequences of dwindling state support for literary production in Yemen Providing a valuable source of empirical data for researchers the book breaks new ground in adapting Bourdieu's theory to the particularities of cultural production in the Middle East and North Africa

**Higher Education and Scientific Research in the Arabian Gulf States** Abdellatif Sellami,Khalid Arar,Rania Sawalhi,2022-11-29 This book takes a closer look at the relation between current issues and trends in higher education and scientific research in the Arab World and in the Gulf Cooperation Council GCC states of Qatar and United Arab Emirates UAE This thoroughly researched text traces the development of higher education in the GCC area as it continues to be positioned in an intersection of international and local factors The text further articulates the pivotal political and cultural influences that act as real and perceived barriers towards the advancement of key fields The chapters analyze the current policy trends

structures and coping alternatives in addressing higher education challenges whilst also providing comparative first hand texts with the other Arab states in the region By drawing focus on the GCC area the text identifies the crucial factors that hamper learning and research performance The book serves as an invaluable discussion on the implications for policy makers and HEIs in relation to the eponymous regions and other Arab states in the GCC area Enhancing understanding of the scope scale and complexity of higher education and scientific research in the GCC area the book will be of interest to academics researchers and post graduate students in the fields of educational policy comparative and international education and higher education
