Conflictos y concertación Luigi Bobbio, Patrice Melé, Vicente Ugalde, 2017-07-10 Durante los últimos años se ha presentado un endurecimiento de las normas ambientales y una diversificación de los procedimientos de información, concertación y participación en la toma de decisiones públicas en ese campo. A pesar de este cambio las sociedades contemporáneas están marcadas por una generación de conflictos en torno a decisiones relativas a obras de ordenamiento territorial. Mediante el estudio de movilizaciones en contra de la implantación de tiraderos, incineradores y plantas de compostaje en tres contextos nacionales: México, Italia y Francia, este libro analiza la aparente paradoja entre por un lado la multiplicación y sofisticación de restricciones ambientales y de mecanismos de información y participación y por otro el bloqueo de decisiones públicas en la gestión de los residuos
