## El Salvador Who Speaks For The People:

*El Salvador, who Speaks for the People?* Mario Gómez-Zimmerman, 1989      *Shattered Voices* Teresa Godwin Phelps, 2010-11-24

Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge. Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims. Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment. There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence. Acknowledging revenge as a real and deep human need *Shattered Voices* explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future. In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report. She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise. When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful. *Shattered Voices* contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish. In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy. By looking concretely at the work and responsibilities of truth commissions *Shattered Voices* offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed.

**Congressional Record** United States. Congress, 1990      *Salvadoran Imaginaries* Cecilia M. Rivas, 2014-03-31

Ravaged by civil war throughout the 1980s and 1990s El Salvador has now emerged as a study in contradictions. It is a country where urban call centers and shopping malls exist alongside rural poverty. It is a land now at peace but still grappling with a legacy of violence. It is a place marked by deep social divides yet offering a surprising abundance of inclusive spaces. Above all it is a nation without borders as widespread emigration during the war has led Salvadorans to develop a truly transnational sense of identity. In *Salvadoran Imaginaries* Cecilia M. Rivas takes us on a journey through twenty first century El Salvador and to the diverse range of sites where the nation's postwar identity is being forged. Combining field ethnography with media research Rivas deftly toggles between the physical spaces where the

new El Salvador is starting to emerge and the virtual spaces where Salvadoran identity is being imagined including newspapers literature and digital media This interdisciplinary approach enables her to explore the multitude of ways that Salvadorans negotiate between reality and representation between local neighborhoods and transnational imagined communities between present conditions and dreams for the future Everyday life in El Salvador may seem like a simple matter but Rivas digs deeper across many different layers of society revealing a wealth of complex feelings that the nation's citizens have about power opportunity safety migration and community Filled with first hand interviews and unique archival research Salvadoran Imaginaries offers a fresh take on an emerging nation and its people [Library of Congress Subject Headings](#) Library of Congress. If you want to know who you are and where you come from follow the ma z That was the advice given to author Roberto Cintli Rodríguez when he was investigating the origins and migrations of Mexican peoples in the Four Corners region of the United States Follow it he did and his book *Our Sacred Maíz Is Our Mother* changes the way we look at Mexican Americans Not so much peoples created as a result of war or invasion they are people of the corn connected through a seven thousand year old ma z culture to other Indigenous inhabitants of the continent Using corn as the framework for discussing broader issues of knowledge production and history of belonging the author looks at how corn was included in codices and Mayan texts how it was discussed by elders and how it is represented in theater and stories as a way of illustrating that Mexicans and Mexican Americans share a common culture Rodríguez brings together scholarly and traditional elder knowledge about the long history of ma z corn cultivation and culture its roots in Mesoamerica and its living relationship to Indigenous peoples throughout the continent including Mexicans and Central Americans now living in the United States The author argues that given the restrictive immigration policies and popular resentment toward migrants a continued connection to ma z culture challenges the social exclusion and discrimination that frames migrants as outsiders and gives them a sense of belonging not
