Notas para una filosofía de la ilusión

Pedro Ortega Campos, 1982-11-01 Cualquiera es bueno para que los medios de comunicación disparen noticias capaces de hacernos desesperar Las alarmas reiteradas de guerra nuclear la contaminación de la tierra y de las estrellas el reto semanal de la muerte en carretera la irritación emocional que genera la superpolitización el terrorismo y el golpismo La mitad de la población sufre depresión Si las distancias han sido acortadas también los horizontes vitales Las comunicaciones no solo transmiten mensajes sino que los crean los manipulan Hemos pasado del optimismo al pesimismo entusiasta El desencanto por doquier Es que no hay alguna ilusión La ilusión no es autoengaño o sino depuración no es adorno sino vital fundamento de la existencia humana La ilusión no riega la realidad sino que la transfigura El hombre de hoy debe ilusionarse sin desnaturalizarse sin separarse de su naturaleza Estos elementos que ofrecemos para articular una filosofía de la ilusión pretenden ser un punto de apoyo a un mundo anímico de ilusiones La filosofía se fraguó y modeló secularmente en la triple tarea de anunciar denunciar y pronunciar la ilusión La filosofía purifica y envalentona la ilusión cuando se expresa como un juicio firme contra la muerte el espectáculo la decepción Si la ilusión se pierde la vida se desorienta se exprime se deprime se apaga La ilusión se problematiza sin remedio cuando se la equipara a la interrogante por el sentido de la vida este se convierte en tortura cuando la vida no proporciona un sentimiento sufriente de ser vivida cuando se ha perdido la armonía entre la ciencia y la existencia Ello sucede particularmente en pocas de abundancia de bienes económicos y de decadencia política Es por cierto nuestra poca

Estética del pensamiento III: La invención de sí mismo Francisco José Ramos, 2008 En esta ocasión el autor se ha esforzado por pensar los puntos de convergencia de ciertos aspectos de clara pertinencia filosófica en el desarrollo de la neurociencia algunos descubrimientos fundamentales del psicoanálisis y la milenaria tradición del pensamiento y de la práctica budhista Una propuesta filosófica que parte de la premisa de que la filosofía es ante todo una práctica de la sabiduría y no solo un discurso teórico es un experimento con las posibilidades del pensar una forma de vida una manera decisiva de hacerse cargo de sí y de la experiencia radical de lo común en la que se inscribe el acontecer de todos los seres vivos El proyecto de una estética del pensamiento es el trayecto de una apuesta por el porvenir Un porvenir que en este caso no es el de una ilusión ni la expectativa de lo que está por llegar No es una esperanza Es el porvenir que ya llega porque no es otra cosa que la apuesta por la ocurrencia del devenir y no la espera de uno u otro acontecimiento para redimirnos de lo que viene

Nájera,1995 **The Other Argentina** Larry Sawers,2018-02-07 In the early part of this century Argentina was one of the most affluent nations in the world Since then the Argentine economy has experienced long periods of stagnation and recession Larry Sawers links the country s economic failure to the backwardness of the interior which comprises 70 percent of the area of the country and in which nearly one third of the population resides The interior s poverty according to Sawers is caused by the scarcity of agricultural resources and by serious inequalities in the distribution of those resources The region is poorly endowed land has been degraded through abuse and overuse and most farmers work tiny unproductive plots Moreover most of the products of the interior are produced for highly protected domestic markets and face stiff competition and falling prices in world markets Recent reforms in Argentina have dramatically aggravated the economic crisis of the interior Sawers shows how the poverty of the interior has contributed to the dismal performance of the Argentine economy as a whole He emphasizes the deleterious effects of extensive emigration from the interior to the major urban areas that are unable to absorb the human tide Additionally the national government has taxed the more prosperous regions in order to subsidize the interior placing a severe drain on the federal government budget and worsening inflation The effects of the interior s poverty on the nation are also political Sawers argues that the backward political system in the interior exacerbates the worst features of the national political culture and governance which in turn pose profound obstacles to economic progress

Miraculous Metamorphoses J. Demmers,A.E. Fernandez Jilberto,Barbara Hogenboom,2001-03 This volume examines a central conundrum of Latin American politics How is that the triumph of neoliberal inspired economic restructuring in the 1980s and 90s did not cause the political demise of populist movements What is remarkable as these scholars show is that Latin American populist parties which had long been associated with statist quasi Keynesian even demagogic economic policies have survived the transition to the much harsher era of free markets privatisation unemployment and increasing inequality And without apparently losing their political popularity in contrast both to the far left and traditional oligarchic parties Indeed Latin American populist forces seem to have made neoliberalism their own The Editors have carefully chosen from South and Central America a representative set of countries through which to explore this phenomenon Argentina Chile Brazil Peru Ecuador Mexico El Salvador and Nicaragua What emerges is an up to date nuanced modern political history of Latin America which does full justice to the distinctive political paths of each country while at the same time making clear the significant extent to which the region s populist tradition as a whole has adapted to the new economic realities This is in marked contrast to the very different political trajectories of Africa and Asia in the past two decades

Ellas son tan fecundas como diversas. Precisamente lectoras y lectores encontrarán aquí novedosos abordajes y perspectivas de la historia de la industria, las empresas y los empresarios de la Argentina posterior a 1940. Los capítulos de este libro se focalizan en los ciclos y la evolución macroeconómica en las políticas económicas y de promoción industrial o en diferentes sectores y actividades. La introducción ofrece una propuesta metodológica en el campo de la historia de empresas o historia empresarial para el conocimiento de la industria y la economía en distintos períodos. En conjunto, los resultados constituyen un avance en el saber del sector industrial argentino. Se trata de estudios en actividades y espacios temporales poco explorados que permiten con una metodología renovada discutir varias de las hipótesis más tradicionales heredadas de la literatura general sobre el desempeño de la economía argentina a la vez que destacar la importancia de las políticas públicas y de los entornos macroeconómicos y sectoriales para entender las estrategias puestas en práctica por las empresas fabriles.

La Question Essentielle Sylvestre Kabeya, 2024-09-06. Vous êtes-vous déjà posé la question essentielle suivante: Qui suis-je? Si oui, quelle réponse avez-vous reçue? Votre réponse vous a-t-elle satisfaite? Cependant, si cette question n'a jamais effleuré votre esprit, alors le moment serait venu de vous la poser sérieusement en toute conscience. Ou alors, si malgré tous vos efforts, vous n'êtes toujours pas parvenus à une réponse convaincante, inutile de poursuivre votre quête. Ce livre vous fournira les outils nécessaires pour y répondre. Depuis notre plus tendre enfance, nous nous sommes perdus et perdus dans une multitude d'identifications illusives, les unes aussi pernicieuses que les autres. Il est maintenant temps d'accéder à une prise de conscience identitaire nouvelle.

La cultura como objeto del psicoanálisis Omar Mosquera, 2024-06-28. El presente ensayo aborda una problemática poco frecuentada en la literatura psicoanalítica donde Mosquera ofrece un estudio riguroso y sistemático sobre la cultura como objeto de la reflexión freudiana. En sentido estricto, la obra es el testimonio de una investigación minuciosa de la narrativa freudiana sobre la cultura de la que el autor sabe extraer sus consecuencias clínicas. Asimismo, nos da las claves para fundamentar una lectura psicoanalítica sobre la subjetividad como efecto de la articulación socio pulsional y de la relación tan necesaria como conflictiva entre el sujeto y la Kultur. Con su experiencia clínica y su habitual destreza en el manejo de la teoría psicoanalítica, Mosquera analiza hipótesis fundamentales y sabe captar con precisión las claves de desciframiento, la significatividad y las razones por las cuales la cultura resulta ser un objeto de estudio imprescindible para el psicoanálisis. Se trata de un trabajo pocas veces reunido en un texto que, entre otras cosas, permite comprender cómo y por qué Freud se ve llevado a elaborar un discurso metapsicológico y a la vez clínico sobre la cultura. Además, con el propósito de conversar con otras disciplinas, Mosquera no solo escribe para psicoanalistas sino para aquellos que cultivan otros saberes en torno de la sociología, la antropología, la filosofía, las ciencias políticas, etc. En el prólogo, Silvia Ons destaca la relevancia de esta obra. En

este nuevo libro Omar Mosquera realiza una exhaustiva investigación de la cultura en la obra de Freud tomándola como un objeto epistemológico a dilucidar. Y sin duda es una gran obra centrada en una profunda dilucidación de los textos freudianos. Esta producción es inimitable por la profundidad de su abordaje por la manera de auscultarlos y por la creatividad en sus conclusiones. En su conjunto estamos en presencia de un trabajo de enorme valor para el estudioso interesado en hacer un balance sobre la cultura como objeto de investigación psicoanalítica. Sócrates no vino a España José Antonio Gamero Romero, 2018-06-13. Sócrates no vino a España es un libro para pensarlo, una novela filosófica que de forma original e ingeniosa plantea la necesidad de la función social de la cultura en general y en particular de la filosofía en la sociedad española. Ante tan ingente tarea un clásico y moderno Sócrates decide abandonar su particular ctedra en el foro de la cultura de la filosofía de la ciencia y de la vida en general para un buen día retirarse a vivir una vida tranquila en una autocaravana. Sin embargo la sabiduría también es una responsabilidad y conlleva la formación de una actitud ante la existencia y de una opinión frente a la corrupción. Finalmente ante la evidente falta de valores y de la deriva que llevan las cosas por culpa de la ceguera del poder Sócrates decide afrontar su destino por decir la verdad y señalar humildemente lo que pierde a los grandes políticos de su tiempo el ego. **¿Ahorrar para acumular o para financiar las crisis?** ,
