textos sobre música. Dichos textos una importante selección de los cuales se recogen en este volumen no sólo son significativos desde el punto de vista de la teoría o filosofía musical sino que constituyen la primera producción literaria rica del Romanticismo. En ellos Rousseau polemiza con Rameau que sostuvo que el propósito de la música no era sólo agradar al oído sino también el facilitar el conocimiento de la realidad y proclama la primacía de la melodía a cuyo través se expresa el sentimiento sobre la armonía. Cuando ambos disputan acerca de la melodía y la armonía ponen en cuestión algo más que la música su disputa gira acerca de la realidad en sí misma.
