Elbow Room James Alan McPherson, 1986-10-12 A beautiful collection of short stories that explores blacks and whites today Elbow Room is alive with warmth and humor Bold and very real these twelve stories examine a world we all know but find difficult to define Whether a story dashes the bravado of young street toughs or pierces through the self deception of a failed preacher challenges the audacity of a killer or explodes the jealousy of two lovers James Alan McPherson has created an array of haunting images and memorable characters in an unsurpassed collection of honest masterful fiction **Elbow**

Room James Alan McPherson, 1983 Twelve rich provocative short stories that explore the borderline between black and white America Cover *A Reader's Companion to the Short Story in English* Erin Fallon, R.C. Feddersen, James Kurtzleben, Maurice A. Lee, Susan Rochette-Crawley, 2013-10-31 Although the short story has existed in various forms for centuries it has particularly flourished during the last hundred years Reader's Companion to the Short Story in English includes alphabetically arranged entries for 50 English language short story writers from around the world Most of these writers have been active since 1960 and they reflect a wide range of experiences and perspectives in their works Each entry is written by an expert contributor and includes biography a review of existing criticism a lengthier analysis of specific works and a selected bibliography of primary and secondary sources The volume begins with a detailed introduction to the short story genre and concludes with an annotated bibliography of major works on short story theory The Short Story Valerie Shaw, 2014-07-21 Throughout this text Valerie Shaw addresses two key questions What are the special satisfactions afforded by reading short stories and How are these satisfactions derived from each story's literary techniques and narrative strategies She then attempts to answer these questions by drawing on stories from different periods and countries by authors who were also great novelists like Henry James Flaubert Kafka and D H Lawrence by authors who specifically dedicated themselves to the art of the short story like Kipling Chekhov and Katherine Mansfield by contemporary practitioners like Angela Carter and Jorge Luis Borges and by unfairly neglected writers like Sarah Orne Jewett and Joel Chandler Harris

The Columbia Companion to the Twentieth-Century American Short Story Blanche H. Gelfant, 2004-04-21 Esteemed critic Blanche Gelfant's brilliant companion gathers together lucid essays on major writers and themes by some of the best literary critics in the United States Part 1 is comprised of articles on stories that share a particular theme such as Working Class Stories or Gay and Lesbian Stories The heart of the book however lies in Part 2 which contains more than one hundred pieces on individual writers and their work including Fitzgerald Hemingway Richard Ford Raymond Carver Eudora Welty Andre Debus Zora Neal Hurston Anne Beattie Bharati Mukherjee J D Salinger and Jamaica Kincaid as well as engaging pieces on the promising new writers to come on the scene **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain

in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

A User's Guide to Postcolonial and Latino Borderland Fiction Frederick Luis Aldama, 2010-01-01 Why are so many people attracted to narrative fiction How do authors in this genre reframe experiences people and environments anchored to the real world without duplicating real life In which ways does fiction differ from reality What might fictional narrative and reality have in common if anything By analyzing novels such as Arundhati Roy's *The God of Small Things* Amitav Ghosh's *The Glass Palace* Zadie Smith's *White Teeth* and Hari Kunzru's *The Impressionist* along with selected Latino

comic books and short fiction this book explores the peculiarities of the production and reception of postcolonial and Latino borderland fiction Frederick Luis Aldama uses tools from disciplines such as film studies and cognitive science that allow the reader to establish how a fictional narrative is built how it functions and how it defines the boundaries of concepts that appear susceptible to limitless interpretations Aldama emphasizes how postcolonial and Latino borderland narrative fiction authors and artists use narrative devices to create their aesthetic blueprints in ways that loosely guide their readers imagination and emotion In A User s Guide to Postcolonial and Latino Borderland Fiction he argues that the study of ethnic identified narrative fiction must acknowledge its active engagement with world narrative fictional genres storytelling modes and techniques as well as the way such fictions work to move their audiences **George Orwell: The Complete**

Levy-Hussen,2016-12-13 How to Read African American Literature offers a series of provocations to unsettle the predominant assumptions readers make when encountering post Civil Rights black fiction Foregrounding the large body of literature and criticism that grapples with legacies of the slave past Aida Levy Hussen s argument develops on two levels as a textual analysis of black historical fiction and as a critical examination of the reading practices that characterize the scholarship of our time Drawing on psychoanalysis memory studies and feminist and queer theory Levy Hussen examines how works by Toni Morrison David Bradley Octavia Butler Charles Johnson and others represent and mediate social injury and collective grief In the criticism that surrounds these novels she identifies two major interpretive approaches therapeutic reading premised on the assurance that literary confrontations with historical trauma will enable psychic healing in the

present and prohibitive reading anchored in the belief that fictions of returning to the past are dangerous and to be avoided Levy Hussen argues that these norms have become overly restrictive standing in the way of a more supple method of interpretation that recognizes and attends to the indirect unexpected inconsistent and opaque workings of historical fantasy and desire Moving beyond the question of whether literature must heal or abandon historical wounds Levy Hussen proposes new ways to read African American literature now
