**The Death Penalty** Stuart BANNER, Stuart Banner, 2009-06-30 The death penalty arouses our passions as does few other issues Some view taking another person s life as just and reasonable punishment while others see it as an inhumane and barbaric act But the intensity of feeling that capital punishment provokes often obscures its long and varied history in this country Now for the first time we have a comprehensive history of the death penalty in the United States Law professor Stuart Banner tells the story of how over four centuries dramatic changes have taken place in the ways capital punishment has been administered and experienced In the seventeenth and eighteenth centuries the penalty was standard for a laundry list of crimes from adultery to murder from arson to stealing horses Hangings were public events staged before audiences numbering in the thousands attended by women and men young and old black and white alike Early on the gruesome spectacle had explicitly religious purposes an event replete with sermons confessions and last minute penitence to promote the salvation of both the condemned and the crowd Through the nineteenth century the execution became desacralized increasingly secular and private in response to changing mores In the twentieth and twenty first centuries ironically as it has become a quiet sanitary technological procedure the death penalty is as divisive as ever By recreating what it was like to be the condemned the executioner and the spectator Banner moves beyond the debates to give us an unprecedented understanding of capital punishment s many meanings As nearly four thousand inmates are now on death row and almost one hundred are currently being executed each year the furious debate is unlikely to diminish The Death Penalty is invaluable in understanding the American way of the ultimate punishment Table of Contents Abbreviations Introduction 1 Terror Blood and Repentance 2 Hanging Day 3 Degrees of Death 4 The Origins of Opposition 5 Northern Reform Southern Retention 6 Into the Jail Yard 7 Technological Cures 8 Decline 9 To the Supreme Court 10 Resurrection Epilogue Appendix Counting Executions Notes Acknowledgments Index Reviews of this book Banner deftly balances history and politics crafting

*Empires of Light* Jill Jonnes,2004-10-12 The gripping history of electricity and how the fateful collision of Thomas Edison Nikola Tesla and George Westinghouse left the world utterly transformed In the final decades of the nineteenth century three brilliant and visionary titans of America's Gilded Age Thomas Edison Nikola Tesla and George Westinghouse battled bitterly as each vied to create a vast and powerful electrical empire In *Empires of Light* historian Jill Jonnes portrays this extraordinary trio and their riveting and ruthless world of cutting edge science invention intrigue money death and hard eyed Wall Street millionaires At the heart of the story are Thomas Alva Edison the nation's most famous and folksy inventor creator of the incandescent light bulb and mastermind of the world's first direct current electrical light networks the Serbian wizard of invention Nikola Tesla elegant highly eccentric a dreamer who revolutionized the generation and delivery of electricity and the charismatic George Westinghouse Pittsburgh inventor and tough corporate entrepreneur an industrial idealist who in the era of gaslight imagined a world powered by cheap and plentiful electricity and worked heart and soul to create it Edison struggled to introduce his radical new direct current DC technology into the hurly burly of New York City as Tesla and

Westinghouse challenged his dominance with their alternating current AC thus setting the stage for one of the eeriest feuds in American corporate history the War of the Electric Currents The battlegrounds Wall Street the 1893 Chicago World's Fair Niagara Falls and finally the death chamber Jonnes takes us on the tense walk down a prison hallway and into the sunlit room where William Kemmler convicted ax murderer became the first man to die in the electric chair *Dark Light* Linda Simon, 2004 From the invention of the telegraph to the discovery of X rays Simon has created a revealing portrait of an anxious age when Americans welcomed electricity into their bodies even as they kept it from their homes *Artifacts from Modern America* Helen Sheumaker, 2017-11-03 This intriguing book examines how material objects of the 20th century ranging from articles of clothing to tools and weapons communication devices and toys and games reflect dominant ideas and testify to the ways social change happens Objects of everyday life tell stories about the ways everyday Americans lived Some are private or personal things such as Maidenform brassiere or a pair of patched blue jeans Some are public by definition such as the bus Rosa Parks boarded and refused to move back for a white passenger Some material things or inventions reflect the ways public policy affected the lives of Americans such as the Enovid birth control pill An invention like the electric wheelchair benefited both the private and public spheres it eased the lives of physically disabled individuals and it played a role in assisting those with disabilities to campaign successfully for broader civil rights *Artifacts from Modern America* demonstrates how dozens of the material objects items technologies or inventions of the 20th century serve as a window into a period of history After an introductory discussion of how to approach material culture the world of things to better understand the American past essays describe objects from the previous century that made a wide ranging or long lasting impact The chapters reflect the ways that communication devices objects of religious life household appliances vehicles and tools and weapons changed the lives of everyday Americans Readers will learn how to use material culture in their own research through the book's detailed examples of how interpreting the historical cultural and social context of objects can provide a better understanding of the 20th century experience *Deadly Justice* Frank R. Baumgartner, Marty Davidson, Kaneesha R. Johnson, Arvind Krishnamurthy, 2018 Forty years and 1 400 executions after the U S Supreme Court ruled the death penalty constitutional eminent political scientist Frank Baumgartner and a team of younger scholars have collaborated to assess the empirical record and provide a definitive account of how the death penalty has been implemented A Statistical Portrait of the Death Penalty shows that all the flaws that caused the Supreme Court to invalidate the death penalty in 1972 remain and indeed that new problems have arisen Far from perfecting the mechanism of death the modern system has failed **Executioner's Current** Richard Moran, 2007-12-18 A fascinating and provocative story The Washington Post of high stakes competition between two titans that shows how the electric chair developed through an effort by one nineteenth century electric company to discredit the other In 1882 Thomas Edison ushered in the age of electricity when he illuminated Manhattan's Pearl Street with his direct current DC system Six years later George Westinghouse lit up

Buffalo with his less expensive alternating current AC The two men quickly became locked in a fierce rivalry made all the more complicated by a novel new application for their product the electric chair When Edison set out to persuade the state of New York to use Westinghouse's current to execute condemned criminals Westinghouse fought back in court attempting to stop the first electrocution and keep AC from becoming the executioner's current In this meticulously researched account of the ensuing legal battle and the horribly botched first execution Moran raises disturbing questions not only about electrocution but about our society's tendency to rely on new technologies to answer moral questions

*Imagining the American Death Penalty* Birte Christ, 2025-04-29 *Imagining the American Death Penalty* traces the US American cultural imaginary of capital punishment through popular visual representations from the 1890s to the twenty-first century The book focuses on three generic and historical clusters of representations early film from the 1890s through *Intolerance* 1916 crime film noir of the 1950s and 1960s and legal TV series from the 1990s through the early 2000s The book makes two central arguments First it demonstrates that an increased concern with the death penalty in popular media does not mean that these texts promote an abolitionist agenda their cultural work is ambiguous at best This ambiguity is always contingent upon both the affordances of the particular genre and medium in question and on political legal discursive context The book explores both in detail Early film is enchanted with its own representational possibilities due to the progress of technology and in analogy with the progress in execution technique specifically the electric chair In film noir genre conventions and the legal back and forth before and after Furman predicate ambiguity In legal TV series the genre's ensemble casts and its focus on conversational exchange invite open debate The second argument is that popular visual representations consistently whitewash the death penalty The book demonstrates that this is the case because the most common narrative around executions in film and TV is to cast the condemned man as a hero who defies the violence of the state gains dignity by accepting his fate and faults and in some ways triumphs over death The American imaginary until very recently did or could not imagine Black men to possess that measure of agency that it attributed to its white heroes

*Lethal State* Seth Kotch, 2019-01-10 For years American states have tinkered with the machinery of death seeking to align capital punishment with evolving social standards and public will Against this backdrop North Carolina had long stood out as a prolific executioner with harsh mandatory sentencing statutes But as the state sought to remake its image as modern and business progressive in the early twentieth century the question of execution preoccupied lawmakers reformers and state boosters alike In this book Seth Kotch recounts the history of the death penalty in North Carolina from its colonial origins to the present He tracks the attempts to reform and sanitize the administration of death in a state as dedicated to its image as it was to rigid racial hierarchies Through this lens *Lethal State* helps explain not only Americans deep and growing uncertainty about the death penalty but also their commitment to it Kotch argues that Jim Crow justice continued to reign in the guise of a modernizing orderly state and offers essential insight into the relationship between race violence and power in North Carolina The history of capital punishment in North Carolina as in other states wrestling with similar issues emerges as one of state building through lethal punishment
