Meditation and the Evolution of Cosmic Consciousness Don Ayre, B.A., B.S.W., M.S.W., 2011-03-11 This book is about the little known fact that there are four different kinds of meditation Witness Meditation Transformative Meditation Discursive Meditation and Transcendental Meditation More often each kind of meditation is promoted and practiced apart from the others But combined as a process they lead to cosmic consciousness and more loving attitude toward one's self and planet Earth Instead of the violence of interpersonal competition and environmental exploitation so prevalent today the ideals of peace justice and harmony can become the new reality given a more integrated approach to life's material intellectual emotional and spiritual realms of experience But in spite of the enormous advances in technology we are still caught up in unwinnable wars that cost lives and resources of all the participants we are still confronted by the injustices of social and economic controls that have most recently resulted in meltdowns and we are still faced with that seemingly unsolvable environmental problems that are plaguing our planet today Seemingly the leadership of our global community is failing us So it's up to us as individuals Meditation and the Evolution of Cosmic Consciousness is not a how to book however It is an attempt to identify the process in a way that can be imitated To do so Don Ayre has reviewed his private practice as a family and child therapist and the writings of a number of historical figures that he recognizes as great minds for evidences of cosmic consciousness that can be used to build a living model Ayre invites his readers to examine their uses of meditation and the writings of their favorite authors to contribute their thoughts and ideas that will assist with the evolution of cosmic consciousness

Cognitive Strategies for Suicide Prevention.

Addiction And Anxiety William Pryatel, 2019-08-11 The author has been a psychiatrist for thirty nine years and has worked with thousands of patients His impression is that many of their problems have to do with the way they process or deal with information Often maladaptive pathways of thinking are employed to the person's detriment When this occurs it tends to be repeated again and again and becomes habitual Eventually symptoms such as anxiety depression suicidal feelings and addiction are generated and become more and more problematic In the author's experience this can be interrupted by mentally training oneself to only travel down adaptive pathways of thinking With this approach old pathways of thinking are abandoned There are a number of techniques that can be employed to establish and reinforce newer adaptive pathways of thinking It's not for everybody and should not be used exclusively but first and foremost among techniques is mindfulness The author has seen it work again and again Introduced to the world by Buddha for the purpose of enlightenment nowadays it is used for mental health issues The mindfulness here is different from the type taught in DBT The author is not saying that DBT mindfulness doesn't work it's just that he has seen better outcomes with the type he teaches He learned the basics of it at IMS at Barre Massachusetts during various meditation retreats Modern psychology does not address the invisible spiritual worlds that interface with the physical world According to religious teachings these worlds really exist and forces from them can influence our thinking Reportedly an archangel rebelled against God and was booted out of heaven A third of the angels went down with him to earth They seek to have us act in such a way so that when we die they can claim our souls and torture us in hell The present work at least addresses this issue Likewise energy medicine is discussed briefly
