Herrick, 2008-01-01 What does science have to do with science fiction What does science fiction have to do with scientists What does religion have to do with science and science fiction In the spiritual vacuum of our post Christian West new mythologies continually arise The sources of much religious speculation however may be surprising Author James Herrick directs our attention to a wide range of scientists filmmakers science fiction writers and religious philosophers and discovers there the role that science and science fiction have played in such mythmaking From scientists such as Francis Bacon Francis Crick Carl Sagan and Freeman Dyson to filmmakers such as George Lucas and Steven Spielberg to science fiction writers such as Olaf Stapledon Sir Arthur C Clarke Robert Heinlein and Isaac Asimov Herrick finds a curious collusion of science with science fiction for promoting and justifying alternative spiritualities The rise of these new mythologies he argues is no longer a curiosity at the edge of Western culture This alchemy is catalyzing a religious vision of new gods a new humanity and alien races with superior intelligence and secret knowledge This new mythology overshadows the realms of politics science and religion Should we follow such visions Does science endorse these mythologies Are we being offered a spirituality superior to the Judeo Christian tradition This book will help you decide *Walking in Turbulent Waters* Eliana Bueche, 2013-08-28 Her earliest memory was of the time when she was a tiny baby lifted by strong arms to the light in a train compartment Adriannes adult life is distracted by daydreams of childhood of her powerful uncle Eladio her best childhood friend Tomas and more Looking back she can see every mistake she ever made The uncertainty of her true identity draws her

into a realm beyond imagination She cant even trust her own memory now to help her determine which childhood traumas were real and which were the workings of a mind too young to understand To this day one question haunts her if she could have just accepted the life she was so desperate to leave behind would she be happier today Now her life is defined by her success as a real estate developer an art dealer and an innovative architect with visions of reinventing entire communities that celebrate both function and design simultaneously She drowns her feelings by constantly achieving the impossible often falling prey to her own desires and the cunning schemes of the unpredictable man who invaded her life When a phone call from Spain sends Adrienne rushing back across the Atlantic can she dare to hope that the answers that had eluded her throughout her life await
