Paul Johnson, 2016-03-22 Edgar Cayce widely acclaimed clairvoyant and forerunner of the holistic health movement is revealed here as a pivotal figure in the transition from the esoteric and metaphysical movements of the late nineteenth century to the New Age movement This book describes and evaluates his psychic readings more than 14 000 trance discourses that address medical theological historical and psychological concerns raised by thousands of inquirers The author evaluates evidence for and against Cayce's reliability in the subject areas emphasized by the readings Cayce's medical and psychological advice is shown to be well ahead of his time in many respects and his spiritual teachings are appraised as a reconciliation of Protestant mysticism with New Thought and Theosophy Although the medical readings provide intriguing evidence for Cayce's ESP his clairvoyant time travel illustrates the fallibility of information derived through hypnotic trance The author contends that the contents of the readings reflect the knowledge and interests of their recipients as much as Cayce's personal opinions and beliefs This is the first book to focus solely on appraising the entire body of the Cayce readings from a scholarly perspective **Stephen Lives** Anne Puryear, 1997-04 The author discusses the life of her son Stephen who committed suicide at the age of fifteen and relates messages she has received from him since his death telling her why he took his own life and offering hope to other people

who may be discouraged with their own lives Edgar Cayce: The "Sleeping" Medium & Spiritual Discernment John Weldon, 2013-02-09 Edgar Cayce 1877 1945 was one of the most famous trance mediums in the world and the best known psychic in America's history Not commonly placed under those occult classifications he is commonly referred to in a more soothing category as the sleeping prophet Through entering a self induced hypnotic trance he produced over 14300 health and spiritual Readings one of the largest psychic libraries in history allegedly from his unconscious mind and or the supposed akashic records Uniquely he may be considered the spiritual father of both the modern New Age movement and contemporary holistic medicine His influence has extended to millions of people This book takes a critical look at the life readings and health spiritual impact of Edgar Cayce It illustrates the timely warning of the old adage that the road to hell may be paved with perfectly good intentions and how benevolent concepts such as improved health and spirituality may indeed become the devil's playground Ironically this is the very thing Cayce himself had worried about in reference to the Readings *God and Quantum Physics* C. Allan Boyles, 2021-01-25 Physics cannot show that a corporal godlike figure exists in the universe However the major religions of the world especially Christianity describe God as a spiritual energy and not corporal Quantum physics says there exists a universal energy that has the attributes of God This energy has consciousness and creativity All matter is composed of this energy This energy was responsible for the Big Bang Professor emeritus William Tiller a physicist at Stanford University has shown this energy can interact with human consciousness This book takes you through a non mathematical proof of the physics of these assertions **The Emerging Network** Michael York, 1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena **It's Never Quite What You Think** Grace, 2013-11 It's Never Quite What You Think In mothering adopted four and six year old daughters from a foreign country the searing heartbreak of broken dreams compelled me to evaluate the layers of mass consciousness and societal conditioning about what everyone believes love is and what love should do Acquiring self knowledge is demonstrated as the way to release ancient beliefs and fears that perpetuate guilt self sacrificing superstition or long term suffering This includes any handed down text that promotes dependency on a force other than the God Mind mastery within each of us to create our own reality My own stumbles in parenting transform themselves into steps of liberation as my story evolves from the taboo of a mother who leaves her home into a message of freedom in the song that it sings Love is not held in the captivity of expectation like the birds it is free to go as it chooses
