orthodoxy and by highlighting in that process the significant contribution which Scottish divines of the orthodox era made to Reformed theology as an international intellectual phenomenon *Essays on Politics and Society* Thomas Carlyle, 2022-08-02 *Essays on Politics and Society* brings together the most significant writings on the topic by the acclaimed Victorian historian social critic and essayist Thomas Carlyle This volume includes some of his most well known and influential pieces such as *Characteristics* and *Chartism* In keeping with the Norman and Charlotte Strouse Edition of the Writings of Thomas Carlyle these essays are accompanied by a thorough historical introduction to the material extensive notes providing historical and cultural context while expanding on references and allusions and a textual apparatus that carefully details and explains the editorial decisions made in reconciling the editions of each essay *Adam Ferguson: History, Progress and Human Nature* Eugene Heath, 2015-09-30 Unique among the leading figures of the Scottish Enlightenment Ferguson saw two eighteenth century revolutions the American and the French This monograph contains essays that range across all of Ferguson's works to investigate his engagement with contemporary events and his contributions to our understanding of history and human action
