struggle 1961 1991 and later carried into the post independence era The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions policies and discourses Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted This insightful comparative volume places the Eritrean case in a broader global and transnational context New Languages of the State Bret Gustafson,2009-07-10 Analyzes bilingual intercultural education in Bolivia to show how indigenous backed proposals to reform the all Spanish education system to include indigenous languages and knowledges challenged neoliberal models of education and became part of the transf
