Palmadessa, 2025-09-20 Since the first American colonial colleges higher education has served the nation as an arbiter of knowledge conduit of democratic idealism and producer of leaders workers and innovation

As the nation changed alongside world events and technological advancement postsecondary institutions supported growth met demands from the public and private sectors as well as states and the federal government heeding a call to perpetuate the US's position among nations as the undisputed world leader This was most evident in the immediate post World War II era with roots established much earlier Each chapter in this work focuses on a moment of crisis in American history that involves the relationship of higher education to national goals This work aims to fill a gap in the history of higher education and further our understanding of how an institution so appreciated in times of greatness can be rebranded by critics as negligent and harmful to national goals     Chalcedon Report ,1996     **The Jews of Africa and Asia: Contemporary Anti-Semitism and other pressures** Tudor Parfitt,1987-11-01 The archetypal oppressed minority For centuries Jews have lived in Africa and Asia including the Middle East Over recent decades however their numbers have declined dramatically and in countries like Syria Iraq Iran Egypt and Morocco have been reduced sometimes to only a few hundred people Within a few generations these and other communities are likely to disappear altogether either because of the attraction that Israel provides or because of overt anti Semitic animosity For many there is a precarious balance between survival and persecution Persecution of Jews by a variety of host societies permeates history and continents In Europe anti Jewish prejudice existed in Greek and Roman times and later the Christian church waged ideological warfare for centuries against the synagogue Wide scale and violent destruction of Jewish lives and property erupted periodically especially in troubled times when people looked for scapegoats Waves of European Christian anti Semitism spread to many countries chiefly to areas of the Islamic world where traditional social and religious attitudes towards Jews provided fertile soil for discrimination Under Islam the State was required to protect Jews but they were nearly always reduced to second class citizens Alarmingly anti Semitic hostility has recently spread to countries where Jews have never lived and are virtually unknown such as in Japan By contrast there are a few countries in which small and less historic Jewish communities continue without discrimination The Jews of Africa and Asia the new Minority Rights Group Report provides an historical analysis of European and Islamic experiences of anti Jewish prejudice and persecution and the rise of contemporary anti Zionism The Report gives a graphic detailed picture of the current situations of Jewish communities remaining in Africa and Asia in a country by country survey It is essential reading for all those concerned with racism and history     **Commonwealth Record** Australia,1986     **Congressional Record** United States.
