Globalization of an Educational Idea Ingrid Miethe, Tim Kaiser, Tobias Kriele, Alexandra Piepiorka, 2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an example of both cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization *INTERDISCIPLINARY GENDERED TALKS: PROCEEDINGS BOOK*, 2024-01-01 This volume is the result of the International Conference Interdisciplinary Gendered Talks organized in March 2023 in the framework of the activities undertaken by the Gender Equality Plan of the University of Bucharest <https://gep.unibuc.ro> in collaboration with the UB Institute of Research ICUB where a Gender Studies Platform has been initiated <https://icub.unibuc.ro> the gender studies platform The aim of the conference was to offer an academic space for presenting engaging thought provocative and cutting edge interdisciplinary research in Gender Studies More than 30 participants researchers academics students from inside and outside Romania attended the hybrid event and presented a wide range of gender sensitive interdisciplinary research outcomes and or future plans **Extension of MFN Status to Romania, Hungary, and the People's Republic of China** United States.
