Education in the South Kees Epskamp, 2000 The Sector Wide approach which is rapidly catching on among policy makers and politicians in donor countries and organizations is used as the background of this book about education and development cooperation The approach is a new way of getting serious about the often stated principle that development cooperation should be in response to what the South wants rather than what the North believes is good for developing countries In the name of this new global approach the Nuffic asked a large number of experts in North and South to take a critical look at the ways in which international support is given in the field of education **Education in the South** ,2000 **Comparative**
