Education For Struggle Hb:

Chicana/o Struggles for Education Guadalupe San Miguel, 2013-06-03 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools. However, as historian Guadalupe San Miguel demonstrates in *Chicana/o Struggles for Education*, Activism in the Community, the story is much broader and more varied than that. While activists certainly challenged discrimination, they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy. In documenting and reviewing these additional strategies, San Miguel's nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students. San Miguel addresses questions such as what factors led to change in the 1960s and in later years, who the individuals and organizations were that led the movements in this period, and what motivated them to get involved and what strategies were pursued, how they were chosen, and how successful they were. He argues that while Chicana/o activists continued to challenge school segregation in the 1960s, as earlier generations had, they broadened their efforts to address new concerns such as school funding, testing, English-only curricula, the exclusion of undocumented immigrants, and school closings. They also advocated cultural pride and memory, inclusion of the Mexican American community in school governance, and opportunities to seek educational excellence in private religious, nationalist, and secular schools. The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement. San Miguel concludes, but it has played a key role in expanding educational opportunities. The actions he describes have expanded, extended, and diversified the historic struggle for Mexican American education.

Struggles for Multilingualism and Linguistic Citizenship Quentin Williams, Ana Deumert, Tommaso M. Milani, 2022-07-08 This book offers a fresh perspective on the social life of multilingualism through the lens of the important notion of linguistic citizenship. All of the chapters are underpinned by a theoretical and methodological engagement with linguistic citizenship as a useful heuristic through which to understand sociolinguistic processes in late modernity, focusing in particular on linguistic agency and voices on the margins of our societies. The authors take stock of conservative, liberal, progressive, and radical social transformations in democracies in the north and south and consider the implications for multilingualism as a resource, as a way of life, and as a feature of identity politics. Each chapter builds on earlier research on linguistic citizenship by illuminating how multilingualism in both theory and practice should be or could be thought of as inclusive when we recognize what multilingual speakers do with language for voice and agency. **A Higher Education**

Equity Walk in The Struggle for American Identity Lenford Sutton, 2024-02-03 *A Higher Education Equity Walk in the Struggle for American Identity* offers a compelling case study by Lenford Sutton recounting the author's parallel experience as the first Black man to serve as the tempered radical in a historically white learning community. In the Southwest, drawing parallels with the tragic fate of Ahmad Aubrey in an unwelcoming community, Sutton sheds light on the visible and unseen

cultural frameworks racial habits and value gaps leaders from non dominant groups navigate when pursuing Diversity Equity and Inclusion goals and objects within the university strategic plans of Historically White Institutions In addition it captures deep reflection from the experience reframing problems in the spirit of Design Thinking with particular emphasis on Empathy as the Gateway to problem solving Recognizing that Digital transformation both cultural and demographic shifts are the drivers of enormous changes that foster fear and increased uncertainty the text emphasizes the new learnings and recommendations for leaders operating in similar circumstances It connotes that tempered radicals often reside at the intersection of innovation and the status quo and in the current cultural and technological disruption of higher education can serve the institution well if deployed appropriately by university leadership to scale its culture **Teaching** ,1921
