*Education Reform in the South in the 1990s* Unesco,1998 Countries and areas covered in this book include Africa Asia Latin America Chile Colombia India Mexico South Africa Zimbabwe Ghana Mongolia Nicaragua and Tanzania Southern Politics in the 1990s Alexander P. Lamis,Associate Professor of Political Science Alexander P Lamis,1999-08 During the 1990s the Republican party surged to majority status in the South after two decades of struggling unevenly to become established in the formerly one party Democratic section of the country In this comprehensive up to date study seasoned observers tell the fascinating story of the GOP s remarkable advance at the regional level and in each of the eleven states of the former Confederacy effectively capturing the current partisan dynamics at work throughout Dixie In Southern Politics in the 1990s eleven teams of political scientists and journalists all of them long time observers of the political scene in their own states offer individual chapters that closely examine partisan and electoral developments in each southern state Alexander P Lamis frames the state discussions with introductory and concluding chapters that highlight the evolution of the two party South and the political transformation the region as a whole underwent during the decade of the 1990s Together the authors show that the amazing Republican spurt was fueled by many factors including the ongoing entrenchment of the partisan competition begun three decades earlier the national Republican sweep of 1994 that affected all regions of the country equally and the successful efforts of Republicans to paint the Democrats as hopelessly mired in a corrupt political system and themselves as untainted reformers who represent the future However as the separate state chapters illustrate the pace of change differed from state to state For example South Carolina was an early Dixie leader in the GOP s growth in the 1990s but Arkansas caught the wave only in the middle of the decade Offering in depth political analysis on both the state and the regional level Southern Politics in the 1990s reveals that the 1990s revolution in southern politics gave the country for the first time since the 1850s a truly national party system The book will prove essential to anyone interested in southern politics at the dawn of the twenty first century **Education Reform in the '90s** Chester E. *Resources in Education* ,1997 *Education in Retrospect* Andre Kraak,Michael F. D. Young,2001 The Institute of Education has been closely involved with post apartheid developments in education policy in South Africa The book examines the current policy dilemmas in South Africa It also provides a sophisticated exploration of the tensions that can occur between and among policy makers and policy researchers as a local vision is translated into reality in a global context At the same time the book provides clear evidence of the value as well as the difficulty of continuing dialogue between these groups which might usefully be heeded in those countries where such interaction too rarely takes place The National Education

Wong,Stacey Rutledge,2006-03-01 Strong system wide support is increasingly being identified as laying an important role in policy efforts aimed at increasing student achievement Hightower Knapp March and McLaughlin 2002 Yet current research often views district and other system wide support as largely governance changes without substantive linkage to school improvement outcomes Cuban and Usdan 2003 In this volume we seek to deepen our understanding of the role of school districts and system wide initiatives through a series of case studies that focus on how school districts and system wide actors facilitate policy innovation and reform initiatives that are designed to improve student achievement Through both quantitative and qualitative studies from diverse settings across the country chapters in this volume examine the role of instructional technology alternative accountability practices management and partnership reforms and school improvement efforts through new incentive and support practices While challenges remain these case studies demonstrate how districts support and facilitate school change aimed at improving student achievement      **The Kentucky Encyclopedia** John E. Australian public affairs information service , **Cumulated Index Medicus** ,1990 **Geographies of Globalized Education Privatization** Kevin Mary,Nora Nafaa,David Giband,2023-09-01 This book explores the complex and various forms that privatization of education takes on a global scale at different ages of schooling Through the spread of neoliberal policies in education both in the global North and the global South the book suggests that this process is leading to new forms of schooling and socio spatial dynamics linked to the creation of increasingly competitive school markets The book highlights some of the main issues that such competition generates by focusing on the acceleration of the segregative processes on one hand but also on the alternatives that are emerging regarding this global context on the other hand It considers processes of domination hegemony but also exclusion and segregation eventually exploring contradictions inherent to societies It presents innovative empirical and conceptual research by international scholars from the fields of social geography sociology history and demography in the United States Lebanon France Afghanistan and Chile thereby transcending disciplinary boundaries Developed in under or unexplored contexts the book broadens the reflection to social representations individual and collective strategies adaptation innovation and also resistances **The Economic History of Italy 1860-1990** Vera Zamagni,1993-10-28 This book gives a full account of the economic and social history of Italy since unification 1860 with an introduction covering the previous period since the Middle Ages The Economic History of Italy represents a scholarly and authoritative account of Italy's progress from a rural economy to an industrialized nation The book makes a broad division of the period into three parts the take off 1860 1913 the consolidation in the midst of two wars and a world depression 1914 47 and the great expansion 1948 1990 Professor Zamagni traces the growth of industrialization and argues that despite several advanced areas Italy only became an industrialized nation after the Second World War and that during the 1980s the South was still clearly behind the rest of the country Zamagni analyses data both from a macroeconomic position in looking at the growth of the finance sector or the role of the State and from a microeconomic position when she draws conclusions from the changing population structure or from the actions of individual businesses Professor Zamagni reveals that even though the population more than doubled during this time the level of national income rose 19 fold to move Italy from a peripheral status in Europe to a central position as a prosperous country A central theme of the book is Professor Zamagni's argument that the Italian economy has been successful not by any great individuality of its own but by being flexible enough to incorporate the successes of other countries Japan's integrated business network for example or Germany's financial structure She places the industrialization of Italy in the international context by comparing Italy's GDP and other measures of prosperity at different times to the USA Japan the UK France and Germany The book is based on original field work by the author and the many detailed but small scale studies existing in Italian Quantitative
