Educational Experiments In Social Settle:

Educational Experiments in Social Settlements (Classic Reprint) Gaynell Hawkins, 2015-07-06 Excerpt from Educational Experiments in Social Settlements This is a piece about adult education in social settlements It is not a survey nor is it research The attempt has been made to show by means of a study of selected social settlements the extent to which they are actual and potential instruments for adult education It is by intent an interpretation not a statistical report The opinions expressed both as to adult education as a movement and the social settlement as an institution are unabashedly personal Advice was sought and followed as to the cities and the settlements which should be visited The cities were New York Chicago Pittsburgh Cleveland and Boston Many more settlements were visited than are reported in these pages Those that were selected for illustrative purposes were chosen not because they were necessarily the best but because their programs in some phase or another of adult education were either the most typical or the most distinct It is obvious I hope that the settlement as an agency for children or health or social case work was not considered a province of this study My debt is a large one to officials of the social settlements both in federation and in individual houses to staff workers and to many an unknown member of adult groups About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
