God Humanity The Planetary Age:

God, Humanity, and the Planetary Age Nicholas J. Yonker, 2002 *The Climate of History in a Planetary Age* Dipesh Chakrabarty, 2024-05-31 For the past decade historian Dipesh Chakrabarty has been one of the most influential scholars addressing the meaning of climate change Climate change he argues upends long standing ideas of history modernity and globalization The burden of *The Climate of History in a Planetary Age* is to grapple with what this means and to confront humanities scholars with ideas they have been reluctant to reconsider from the changed nature of human agency to a new acceptance of universals Chakrabarty argues that we must see ourselves from two perspectives at once the planetary and the global This distinction is central to Chakrabarty's work the globe is a human centric construction while a planetary perspective intentionally decenters the human Featuring wide ranging excursions into historical and philosophical literatures *The Climate of History in a Planetary Age* boldly considers how to frame the human condition in troubled times As we open ourselves to the implications of the Anthropocene few writers are as likely as Chakrabarty to shape our understanding of the best way forward *God, Man, and the Planetary Age* Nicholas J. Yonker, 1978 **What God's Up To on Planet Earth?** Mark J. Keown, 2011-05-07 Have you ever wondered Why am I here What's gone wrong with the world What is the answer How will it all end What do I have to do to know God What's God up to on Planet Earth offers a no strings attached presentation of the Christian message written for those who are seeking answers to questions like these Mark Keown gives a compelling vision of a loving God whose desire is the restoration of the whole world The book focuses on the individual person and how he or she fits into this inspiring vision It is a must read for those seeking to understand the Christian faith more **Animal Ethics in the Age of Humans** Bernice Bovenkerk, Jozef Keulartz, 2016-09-21 This book provides reflection on the increasingly blurry boundaries that characterize the human animal relationship In the Anthropocene humans and animals have come closer together and this asks for rethinking old divisions Firstly new scientific insights and technological advances lead to a blurring of the boundaries between animals and humans Secondly our increasing influence on nature leads to a rethinking of the old distinction between individual animal ethics and collectivist environmental ethics Thirdly ongoing urbanization and destruction of animal habitats leads to a blurring between the categories of wild and domesticated animals Finally globalization and global climate change have led to the fragmentation of natural habitats blurring the old distinction between in situ and ex situ conservation In this book researchers at the cutting edge of their fields systematically examine the broad field of human animal relations dealing with wild liminal and domestic animals with conservation and zoos and with technologies such as biomimicry This book is timely in that it explores the new directions in which our thinking about the human animal relationship are developing While the target audience primarily consists of animal studies scholars coming from a wide range of disciplines including philosophy sociology psychology ethology literature and film studies many of the topics that are discussed have relevance beyond a purely theoretical one as such the book also aims to inspire for

example biologists conservationists and zoo keepers to reflect on their relationship with animals **Welcome to Planet Earth - 2050 - Population Zero** Robert Hull,2011-10-12 Biblical Prophecy the predictions of The Hopi Indians Sir Isaac Newton s calculations for Armageddon The final WAR described in The Dead Sea Scrolls the current unrest on Planet Earth and nuclear proliferation point to WWII unless Jesus Christ returns God in the Age of Science? Herman Philipse,2012-02-23 Herman Philipse puts forward a powerful new critique of belief in God He examines the strategies that have been used for the philosophical defence of religious belief and by careful reasoning casts doubt on the legitimacy of relying on faith instead of evidence and on probabilistic arguments for the existence of God **Hope in the Age of Climate Change** Chris Doran,2017-04-27 It is difficult to be hopeful in the midst of daily news about the effects of climate change on people and our planet While the Christian basis for hope is the resurrection of Jesus unfortunately far too many American Protestant Christians do not connect this belief with the daily witness of their faith This book argues that the resurrection proclaims a notion of hope that should be the foundation of a theology of creation care that manifests itself explicitly in the daily lives of believers Christian hope not only inspires us to do great and courageous things but also serves as a critique of current systems and powers that degrade humans nonhumans and the rest of creation and thus cause us to be hopeless Belief in the resurrection hope should cause us to be a different sort of people Christians should think purchase eat and act in novel and courageous ways because they are motivated daily by the resurrection of Jesus This is the only way to be hopeful in the age of climate change **Melding All for God's Glory** Linda Hozdic,2025-03-10 Melding All for God s Glory to Usher in the Era of the Holy Spirit The Holy Spirit is competing for our attention He wants to be our rudder our compass and our ever present guide He is begging humans to acknowledge conflicts and self defeating behaviors He needs humans to speak with integrity and compassion This entire book was conceived and orchestrated by the Holy Spirit Automatic dictation flows throughout the book The Holy Spirit has edited what he assigned me to draft Part one of this book focuses on current issues within our culture and religious practices Birth and the circle of life are sanctified in his eyes Fears about the natural ending of planet Earth are put to rest along with a reasonable approach to sustainability The hazards of secularism corruption bias and prejudice are discussed in light of a pastor s role Part two highlights early church errors that still affect religious practice today The basic tenets of Jews Christians and Muslims are outlined Innate human flaws are seen in character assassinations and the suppression of truth Humility truth and forgiveness are imperatives What must be included in any Christian doctrine of faith was dictated by the Holy Spirit The third part of this book paints the trajectory of God s plan for Christian belief and practice Trust respect and attentive listening are the underpinnings for righteous living and pain and suffering are necessary gauntlets for growth Crime and justice are balanced against the rights and needs of all humans The Holy Spirit needs pastors to avoid self serving behaviors to respect differences and to meet the challenges inherent in the change process Drawing closer to the Holy Spirit through quiet attentive prayer is essential You Are Younger Than Your

Age Lawrence La Rose,2014-02-11 The world is blindfolded by two systems known as the lunar calendar and the Gregorian calendar and both are giving inaccurate timelines for archaeological discoveries radiocarbon dating and your actual age You Are Younger than Your Age seeks to clarify any doubts about your actual age and the age of the other worlds It offers comprehensive information about creationism and spirituality as well as the functioning of the other distinctive worlds For example Jerusalem is situated in the center of Africa and not the Middle East as previously thought This guide is simple to follow and guides you to an understanding of the twenty one year cycle of the moon and sun It portrays accurate facts calendars charts and figures There is no climate change or global warming The Antarctica is not completely mapped and a new crafted world map is urgently needed Changes mean hope for future generations The book is supported by the scriptures in the Bible and it is full of comprehensive information about creationism and spirituality Finally it can lead you to the beacon of a divine light

A God Who Cares? Ernst Conradie, 2025-02-26 This monograph may be read as a constructive supplement to Volume 4 of the series entitled *An Earthed Faith Telling the Story amid the Anthropocene* Volume 4 of this series is on the Christian doctrine of providence and is entitled *Making Room for the Story to Continue* In addition to an extended introduction on the state of the debate in the field this monograph includes three constructive essays on the doctrine of providence employing the traditional Reformed distinction between *conservatio gubernatio* and *concursus* as aspects of God s providence as well as a concluding essay provocatively entitled *Who Cares a Damn* The argument of this contribution may be captured in the following way

- 1 That God s providence is best understood in terms of the deeply held Christian conviction that God cares for every creature and not in terms of Greek assumptions around a pervading rational world order
- 2 That *conservatio* and *gubernatio* have found rough secular equivalents in global debates on sustainability mitigation and adaptation in the context of climate change
- 3 That *conservatio* and *gubernatio* are typically in tension with each other when it comes to the question whether God maintains order in nature and society or whether God transforms unjust orders the call for ecojustice
- 4 That *concursus* is not only an implication of *conservatio* and *gubernatio* but also captures the heart of the problem posed by the advent of the Anthropocene namely that some humans have become a geological force of nature while God s agency has become sidelined or usurped by the Promethean quest to become divine

In each of these essays a highly constructive contribution is offered that advances the debate in eco theology by placing providence in the context of the shift from the Holocene to the Anthropocene The method adopted is a constructive argument based on a critical review of the

available literature This monograph is scholarly and is addressed to other scholars in the fields of eco theology systematic theology and Reformed theology **The Atom of Creation of Planet Earth and Its Humanity** MS. D Ella R. Chase,D. Chase,2009-09 The order of the old world has ended and a new one has been born Please rest assured that the world is not about to end just because a few extremist are saying so The Author of this book has lived through many of the fears of similar extremist who seemed to say what they would do if they were God The real God has no form and no pronoun and does not live in a Mansion and not about to take a tantrum and destroy the fantastic Master Piece we call planet Earth created eons of time ago **Kuan Yin Opens the Door to the Golden Age** ,1983 **The Church's Public Role** Dieter T. Hessel,2002-01-24
