## **God In France Eight Contemporary French Thinkers On God Studies In Philosophical Theology Studie:**

**God in France** Peter Jonkers, Ruud Welten, 2005 According to some French philosophy has taken an obvious turn towards into a theological context In their work contemporary philosophers such as Ricoeur Levinas Girard Henry and even Derrida and Lyotard in their later periods focus on issues usually associated with theological debates For thinkers like Henry Marion and Lacoste theology even plays a prominent role in their thought Why this post Heideggerian turn to God This book introduces the typically French debate of the so called theological turn of French philosophy through a presentation of the philosophers mentioned Why are they all interested in the quest for God and Religion How do they understand God in a philosophical way Thinking about these questions offers to both philosophy and theology the opportunity for a crossover which is mutually enriching This book aims to contribute to this fascinating process     John the Theologian and His Paschal Gospel John Behr, 2019 This study brings three different kinds of readers of the Gospel of John together with the theological goal of understanding what is meant by Incarnation and how it relates to Pascha the Passion of Christ how this is conceived of as revelation and how we speak of it The first group of readers are the Christian writers from the early centuries some of whom such as Irenaeus of Lyons stood in direct continuity through Polycarp of Smyrna with John himself In exploring these writers John Behr offers a glimpse of the figure of John and the celebration of Pascha which held to have started with him The second group of readers are modern scriptural scholars from whom we learn of the apocalyptic dimensions of John s Gospel and the way in which it presents the life of Christ in terms of the Temple and its feasts With Christ s own body finally erected on the Cross being the true Temple in an offering of love rather than a sacrifice for sin An offering in which Jesus becomes the flesh he offers for consumption the bread which descends from heaven so that incarnation is not an event now in the past but the embodiment of God in those who follow Christ in the present The third reader is Michel Henry a French Phenomenologist whose reading of John opens up further surprising dimensions of this Gospel which yet align with those uncovered in the first parts of this work This thought provoking work brings these threads together to reflect on the nature and task of Christian theology     **Religious Experience and Contemporary Theological Epistemology** Lieven Boeve, Yves De Maeseneer, Stijn Van den Bossche, 2005 In this volume we present the proceedings from the fourth international Leuven Encounters in Systematic Theology LEST IV November 5 8 2003 which focussed on a critical investigation of the place and role of religious experience in the legitimation structures of contemporary theological thinking patterns In the first part the keynote lectures including the responses are gathered among others from L Boeve F Fiorenza L Hemming G Jantzen S Painadath S Robert R Schaeffler and S Van den Bossche In the second part a selection of the contributions offered in the thematic seminars is presented     **Mission from the Perspective of the Other** Tim Noble, 2018-08-30 Christian mission involves God the missionary and the other the recipient of mission This book argues for the centrality of this other in the practice of mission The other as child of God is presented not as an empty vessel waiting to

be filled but as the one who draws near to the missionary Both are sent by God and together they enter into the journey towards God Drawing on Scripture contemporary missiology and phenomenology the book argues for the importance of this often neglected other and demonstrates through historical case studies involving Saint Ignatius of Loyola William Carey and Saint Innocent of Alaska that the recognition of the gift of the other has always been present in Christian mission and can continue to inspire Teilhard de Chardin David Grumett,2005 Pierre Teilhard de Chardin 1881 1955 has been regarded for too long as an esoteric thinker who evacuates theology by subjecting it to scientific theory There is an urgent need to reclaim him as a French catholic theologian with intellectual roots in the early twentieth century Teilhard s imaginative and inspiring work is grounded in the constructive use of biblical and patristic motifs and in his own life experiences of war exile and scientific endeavour From these he develops a distinctive philosophical theology which combines elements frequently assigned to the separate domains of philosophy of religion systematic theology and mysticism Teilhard provides a detailed theology of human embodiment and natural substances whilst his theories of human action passion vision and virtue offer suggestive resources to pastoral theology His evolutionary cosmology and social democratic politics are discussed in their historical context and the significance of his work for the ongoing dialogue between science and religion is assessed

**Hegel's Philosophy of the Historical Religions** Bart Labuschagne,Timo Slootweg,2012-04-19 The chapters in this book offer an in depth and profound overview of Hegel s daring many faceted philosophical interpretations of the multifarious and dialectically interrelated historical religions including the Islam and the revealed religion of Christianity Catholicism and Protestantism **Levinas and the Greek Heritage** Jean-Marc Narbonne,2006 Levinas and the Greek Heritage shows that throughout his career Emmanuel Levinas always admired and recognized his profound debt to Plato and to the philosophical tradition he initiated which have been largely transmitted to us by the Neoplatonists most notably Plotinus and Proclus How can we read Otherwise than Being or Beyond Essence in any other way than as some sort of Neoplatonic programme prolonging Plato s Good beyond being of the Republic VI 509b in the direction of the other man the one which in his nudity and fragility opens for us the horizon of a new humanism There are many ways by which one can attempt to go over and above Being not only a Greek way primordially metaphysical but also a Biblical way mainly ethical One of the interests of Levinas philosophy is to show us the hidden community and perhaps unavoidable interdependency of these two approaches One Hundred Years of Neoplatonism in France shows that during the Twentieth century a retrieval of Neoplatonism is a powerful hidden feature of French philosophy and theology of spiritual and institutional life Beginning with Henri Bergson it passes by way of figures like Maurice Blondel A J Festugiere Henri de Lubac Jean Trouillard Henry Dumery and culminates with Michel Henry Pierre Hadot and Jean Luc Marion The book examines the particular character Neoplatonism takes in this retrieval and traces connections between leading figures within the French and Anglophone worlds **Becoming Present** Ingolf U. Dalferth,2006 Safeguarding the distinction between God and world has always been

a basic interest of negative theology But sometimes it has overemphasized divine transcendence in a way that made it difficult to account for the sense of God's present activity and experienced actuality Deconstructivist criticisms of the Western metaphysics of presence have made this even more difficult to conceive On the other hand there has been a widespread attempt in recent years to base all theology on religious experience the Christian church celebrates God's presence in its central sacraments of baptism and Eucharist and recent process thought has reconceptualised God's presence in panentheistic terms This is the background against which this book outlines a theology of the Christian sense of the presence of God The first chapter traces the rise and fall of rational religion in Modernity and argues that we should replace philosophical theism not by a unspecified religious sense of the whole but by a specific sense of the presence of God The second chapter analyses the notion of divine presence and outlines different ways of understanding the real presence of God The third chapter discusses the problem of whether and how God's presence can be discerned given the fact that there is no presence of God that is not tinged by God's absence Chapter four distinguishes various modes of divine presence with their corresponding modes of human apprehension Chapter five takes up the charge that presence is an impossibility in a critical discussion of the debate between Derrida and Marion about the impossibility of gift Chapter six asks how God's presence is conceived and communicated looking in particular to music as a means of representing and communicating the awareness of God's presence The final chapter outlines how the sense of the presence of God can be presented and defended in a world of many religions and cultures with their often conflicting religious convictions and representations

**Revelation, Reason and Reality** Joris Geldhof, 2007 This study provides an in depth analysis of the relationship between modernity and Christianity The author argues that the notion of revelation is eminently reasonable and indissolubly connected with being and reality He takes Jaspers philosophy of religion as representative of the classical modern critique and gives it its due He then takes a step backward so to speak and by means of a consideration of the history of ideas seeks to rehabilitate the Christian understanding of revelation To do this he draws upon Schelling's remarkable philosophy of revelation and Baader's much less familiar speculative dogmatics However this study is much more than a profound philosophical and theological account of the thought of Jaspers Schelling and Baader It is above all an eloquent defence of the plausibility and intelligibility of what Christians have always believed In fact the author makes a compelling case for the claim that revelation is that without which Christianity cannot be thought

**Grammars of Faith** P. F. Bloemendaal, 2006 D Z Phillips is a leading figure in advocating a Wittgensteinian approach to the philosophical study of religion His writings exert an important influence on contemporary philosophy of religion giving a new direction to the philosophical discussion of religious belief and practice Although his work has prompted much often critical comment a thorough investigation has not been forthcoming Grammars of Faith fills that gap The book pays close attention to Wittgenstein's own remarks on religious belief arranging them against the background of his broader philosophical methodology as well as to the efforts of the early

Wittgensteinians at providing a more comprehensive Wittgensteinian philosophy of religion Central to this study are Phillips's understanding of philosophical enquiry as a form of contemplation and his descriptive accounts of religious belief By means of a careful and methodical examination of Phillips's oeuvre the study seeks to present a fair assessment of Phillips's position showing not only its weaknesses but also its strength *Dialectical Anatomy of the Eucharist* Donald Wallenfang, 2017-05-16 For centuries Christian theology has understood the Eucharist in terms of metaphysics or in protest against it Today an opening has been made to imagine the sacrament through the method of phenomenology bringing about new theological life and meaning In *Dialectical Anatomy of the Eucharist* Donald Wallenfang conducts a sustained analysis of the Eucharist through the aperture of phenomenology yet concludes the study with poetic and metaphysical twists Engaging the work of Jean Luc Marion Paul Ricoeur and Emmanuel Levinas Wallenfang proposes pioneering ideas for contemporary sacramental theology that have vast implications for interfaith and interreligious dialogue By tapping into the various currents within the Judeo Christian tradition Jewish Catholic Orthodox and Protestant a radical argument is developed that leverages the tension among them all Several new frontiers are explored dialectical theology a fourth phenomenological reduction the phenomenology of human personhood the poetics of the Eucharist and a reinterpretation of the concept of gift as conversation On the whole Wallenfang advances recent debates surrounding the relationship between phenomenology and theology by claiming an uncanny way out of emerging dead ends in philosophical theology return to the fray

**Schopenhauer's Philosophy of Religion** Christopher Ryan, 2010 This book is the first comprehensive study of Schopenhauer's philosophy of religion It develops a contextual account of Schopenhauer's relation to the religions of India by placing his interpretation of their main doctrines within the perspective of his diagnosis of the religious situation in nineteenth century Europe and his revised conception of the proper content and methods of metaphysical philosophy in the wake of Kant It shows that Schopenhauer's encounter with the religions of India was the stimulus for his formulation of a novel theory of a revitalised modern Christianity The possibility of an oriental renaissance prompted Schopenhauer to argue that Christianity's immanent or ethical teachings needed to be severed from its supernatural or metaphysical doctrines so that European culture could continue to satisfy the human need for a metaphysical interpretation of the world and life This book will be of interest to philosophers theologians students of religion and modern intellectual history *Expressing the Inexpressible in Lyotard and Pseudo-Dionysius* Mélanie V. Walton, 2013-08-29 Testimony demands the witness to demonstrate her knowledge that knowledge that she must have by the fact of being a witness to something even if this something exceeds the possibility of expression by any means amenable to verification *Expressing the Inexpressible in Lyotard and Pseudo-Dionysius* Bearing Witness as Spiritual Exercise rigorously studies the inexpressible expression provoked by two illustrative examples the silenced testimony of the Holocaust survivor in Jean François Lyotard's *The Differend* and the religious faithful in Pseudo-Dionysius *The Divine Names* Though coming from vastly different philosophical moments the methods used by

Lyotard and Dionysius prove to dissolve the apparent heterogeneity of postmodernism and Neoplatonist Christian mysticism and open radical new lines of dialogue M lanie Victoria Walton critically evaluates each thinker and tradition rethinks witnessing testimony sublimity and apophaticism and then engages them together to forge a new reading of silence and eros The resulting insights will be especially valuable to students and scholars of Continental philosophy philosophy of religion theology and religious studies medieval studies and Holocaust studies

**God Interrupts History** Lieven Boeve,2007-05-25 The role of Christian faith in contemporary culture has changed dramatically Both detraditionalization the interruption of the handing on of faith from one generation to the next and pluralization Christianity is no longer the dominant player on the religious field have caused a rupture between faith and its social context After an analysis of the contextual changes the author sketches the fundamental aspects of a theology of interruption This forms the basis for his further analysis of religious experience rituals and sacraments negative theology religious plurality and incarnation and apocalypticism

**Joyce in the Belly of the Big Truck; Workbook** Joyce A. Cascio,2005-05 **God's Century: Resurgent Religion and Global Politics** Monica Duffy Toft,Daniel Philpott,Timothy Samuel Shah,2011-03-14 A fresh and illuminating perspective on the surge in religion s political influence across the globe Is religion a force for good or evil in world politics How much influence does it have Despite predictions of its decline religion has resurged in political influence across the globe helped by the very forces that were supposed to bury it democracy globalization and technology And despite recent claims that religion is exclusively irrational and violent its political influence is in fact diverse sometimes promoting civil war and terrorism but at other times fostering democracy reconciliation and peace Looking across the globe the authors explain what generates these radically divergent behaviors In a time when the public discussion of religion is overheated these dynamic young scholars use deeply original analysis and sharp case studies to show us both how and why religion s influence on global politics is surging Finally they offer concrete suggestions on how to both confront the challenges and take advantage of the opportunities posed by globally resurgent religion

**Dictionary of Modern American Philosophers** John R. Shook,2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers anda large number of female and minority thinkers whose work has been neglected It includes those intellectualsinvolved in the development of psychology pedagogy sociology anthropology education theology politicalscience and several other fields before these disciplines came to be considered distinct from philosophy in thelate nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas abibliography of writings and suggestions for further reading While all the major post Civil War philosophers arepresent the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern AmericanPhilosophers offers the first scholarly treatment of the life and work of certain writers This book will be anindispensable reference work for scholars working on almost any aspect of modern American thought
