

A lone, wide-spreading tree with reddish-brown foliage stands in the center of a vast, flat field. The sky is filled with dramatic, layered clouds, and a bright sun is visible behind the tree, creating a strong backlight and a warm, golden glow across the entire scene. The overall color palette is dominated by warm tones of orange, red, and yellow.

## God Love And Nature:

**God, Value, and Nature** Fiona Ellis, 2014-10-31 Many philosophers believe that God has been put to rest. Naturalism is the default position and the naturalist can explain what needs to be explained without recourse to God. This book agrees that we should be naturalists but it rejects the more prevalent scientific naturalism in favour of an expansive naturalism inspired by David Wiggins and John McDowell. It is argued that expansive naturalism can accommodate the idea of God and that the expansive naturalist has unwittingly paved the way towards a form of naturalism which poses a genuine challenge to the atheist. It follows that the traditional naturalism versus theism debate must be reconfigured. Naturalism and theism are no longer logically incompatible; rather they can both be true. Fiona Ellis draws on a wide range of thinkers from theology and philosophy and spans the gulf between analytic and continental philosophy. She tackles various philosophical problems including the limits of nature and the status of value, some theological problems surrounding the natural/supernatural relation, the Incarnation and the concept of myth, and offers a model inspired by the secular expansive naturalist's conception of philosophy to comprehend the relation between philosophy and theology. Nature's God and the Nature of Man Joel R. Baseley, 2024-12-26 Nature's God and the Nature of Man presents nature and the nature of man as God's Word. The Holy Bible reveals it in Genesis 1:3. The author's recent translating project in Johann Arndt's True Christianity, especially his Book 4 treating God's revelation in nature, provided him a helpful pre-enlightenment world view of God's revealing Himself in nature in stark contrast and opposition to the bold modern assertion by many that science has proven there is no God. The children of this divorce of Dame Science from God leaves children confused for whom this book might be a mediation and some comfort. 445 pages, soft cover. Against God and Nature Thomas H. McCall, 2019-06-25 Without a proper understanding of sin, there can never be a proper understanding of the gospel. Sin is opposed both to God's will and to nature, leaving us in need of God's grace and redemption. This comprehensive exploration of the doctrine of sin looks at what the Bible teaches about sin's origin, nature, and consequences, engaging with historical and contemporary movements. Dealing with difficult issues such as original sin, angelic sin, corporate sin, greater and lesser sins, and more, this book ends with a discussion on divine grace, which is the only hope for the problem of sin. God in our Nature Peter Kenneth Stevenson, 2007-09-01 Arguably the leading Scottish theologian of the nineteenth century, John McLeod Campbell's theology is much criticized and often misunderstood. Previous accounts have tended to overlook both his sermons and his Christology. This reassessment of his thought breaks new ground by offering a detailed study of his sermons and by identifying the distinctive Christology which contributes to a clearer understanding of his doctrine of atonement. Drawing upon the full range of Campbell's work, *God in our Nature* brings to light a trinitarian theologian whose pilgrimage represents a journey within evangelicalism rather than a departure from the evangelical fold. **The Nature of God** Arthur W. power has inspired readers for generations He leads readers through reflections on 45 facets of God's personality Ideal for personal reflection and daily Bible study this book will help readers develop a deeper richer love for the One who calls us His own

*From God's Nature to God's Law* Abdul Rahman Mustafa, 2024-11-04 This study explores the ways in which theological ideas regarding the nature of God shaped the jurisprudential and legal landscape of Islam Focusing on the traditionalist theological and jurisprudential thought of Ibn Taymiyyah d 728 1328 and Ibn al Qayyim d 751 1350 this study traces the way in which these towering scholars critiqued the dominant theological jurisprudential tradition of their day which was influenced by dialectical theology Against the dialectical theologians Ibn Taymiyyah and Ibn al Qayyim argued that an authentically fideist consistent and rational theory of Islamic law could only emerge from an acceptance of the reality of God's voluntary attributes

**Nature, God and Pulpit** Elizabeth Achtemeier, 1992-11-06 This is a print on demand book and is therefore non returnable A book whose time has come Nature God and Pulpit draws together and interprets for the church and especially for preachers the biblical materials on the relationship between God and his creation The book is particularly timely because as Elizabeth Achtemeier points out few subjects have been more neglected and less explicated by this country's pulpits than the relation between nature and God Clearly articulating what the Bible says about the material world and God's relation to it this book is all of the following A thoughtful biblical response to recent discussions of ecology A discerning corrective to many current theologies and ideologies An appreciative summary of the findings and notions of modern science A mother lode of materials and sample sermons on the relation of God to his creation A passionate call for preachers to more thoroughly examine and articulate scriptural content An eloquent and inspiring celebration of God in relation to his world While written primarily for preachers Nature God and Pulpit will provide provocative reading for many others as well seminarians homiletics students teachers and anybody who wishes to better understand the Christian view of the bond between Creator and creation

**The Nature of God'S Divine Redemption** John R. Matthew, 2014-08-18 The book was born out of a desire to lift your spirit As we look around us today we see a lot of pain and sorrow and misery The concept of The Nature of Gods Divine Redemption is a deliberate intention to encourage you and to lift your hope to put your mind on something better and a superior way The book tells you If the son of man set you free you are free indeed John 8 36 King James Bible That is what is The Nature of Gods Redemption is about We are told that whatsoever a man thinks in his heart so is he The idea behind the book is to help you to think good thoughts and to lift your minds from horizontal things to vertical things Gods love is the most amazing thing The book tells that faith is also amazing It takes far more faith to believe in the intellectually chic and fashionable evolutionary myth than it does to believe in the existence of God Moreover it says Evolution is based entirely on faith because no facts or proof have ever been found to support it Faith does play a primary role in the life of a Christian For the person who truly wants to seek God and learn to please Him Hebrews 11 6 tells us that But without faith it is impossible to please God for him that cometh to God must believe that He is and that He is a rewarded of them that diligently seek Him Faith is vital to a Christian In fact without it no one can please God Notice this verse says that those seeking God must believe that He is Also the book articulates that a deep belief in God who rewards all who diligently seek Him requires proof of His existence It says it is After proof has been established then and only then can one have faith absolute confidence that what

man does is being recorded in God's mind to be remembered when he receives his reward. If you are uncertain that God exists because proof of that existence has not been firmly established then under fire your faith will wane or disappear. But when you truly believe in what Jesus Christ did on the Cross of Calvary God's Divine love will redeem you and set you free from the heavy load of sin.

**Consenting to God and Nature** Byron C. Bangert, 2006-03-08 This book an exploration in theological ethics is motivated by two central questions. First How can we think and speak with integrity about God as One who is active in human affairs and the world How can God make a difference in our world and in our lives Second and no less important What is the character of God's activity in the world and how are we to relate and respond to this activity How does God make a difference in our world and our lives and what are some of the implications for our own actions As the book's title indicates Bangert claims that a proper engagement in theological ethics requires both consenting to God and consenting to nature This means both consenting to the reality that is God the One with whom we ultimately have to do and the acceptance of the natural or physical world as hugely determinative of the limits and possibilities of human life and all existence He argues that this calls for a theocentric naturalistic theological ethics Bangert shows how the work of three major contemporary Protestant thinkers James M. Gustafson Sallie McFague and David Ray Griffin may be fruitfully appropriated for the articulation of just such an ethics one that is responsive to the Christian tradition while also sharing the modern commitment's appeal to human experience and reason Each of these three thinkers eschews a priori appeal to the authority of religious tradition as each takes seriously scientific knowledge of our world Each accents ways in which current scientific understandings inform and in some cases are informed by contemporary appropriations of the language and thought of Christian tradition Each is also concerned to relate his or her approach to human valuing life and action A critical appraisal of their work shows that none provides a sufficient basis for an intellectually and religiously adequate theological ethics but that each contributes elements necessary to the articulation of such an ethics within the Protestant Christian tradition as it confronts the religious and intellectual challenges of today's world
