Heck,2009-09-04 Christian Muslim interaction is a reality today in all corners of the globe but while many celebrate the commonality of these traditions significant differences remain If these religions cannot be easily reconciled can we perhaps view them through a single albeit refractive lens This is the approach Paul Heck takes in *Common Ground* To undertake a study of religious pluralism as a theological and social reality and to approach the two religions in tandem as part of a broader discussion on the nature of the good society Rather than compare Christianity and Islam as two species of faith religious pluralism offers a prism through which a society as a whole secular and religious alike can consider its core beliefs and values Christianity and Islam are not merely identities that designate particular communities but reference points that all can comprehend and discuss knowledgeably This analysis of how Islam and Christianity understand theology ethics and politics specifically democracy and human rights offers a way for that discussion to move forward      The Bible Colouring Book for Children ,      *Polygraphice; or The art of drawing, engraving ... varnishing, colouring and dying ...* By W.
