for sermons Chapter three introduces methods from musicology for creating sermons on instrumental and choral works and for integrating word and music more effectively Chapter four explores how the close relationship between poetry and prayer can stir the homiletical imagination Each of these chapters includes a selection of the author s sermons illustrating how preachers can use these varied art forms to open a congregation to the beauty of God A final chapter recounts the responses of congregation members to whom the sermons were delivered It uses the insights gained from those experiences to affirm how the human heart hungers for a vision of wonder and beauty that empowers people to live more faithfully in the world
